It's a rule that putting up a new antenna causes bad dx space weather.
Like washing your car makes it rain.

https://www.eff.org/deeplinks/2011/01/eff-releases-report-detailing-fbi-intelligence

Using documents obtained through EFF's Freedom of Information Act
(FOIA) litigation, the report finds:

• Indications that the FBI may have committed upwards of 40,000
possible intelligence violations in the 9 years since 9/11

• Evidence of delays of 2.5 years, on average, between the occurrence
of a violation and its eventual reporting to the Intelligence
Oversight Board

• Reports of serious misconduct by FBI agents including lying in
declarations to courts, using improper evidence to obtain grand jury
subpoenas, and accessing password-protected files without a warrant

It is interesting how the sock puppet currently occupying the White
House enthusiastically extended the Patriot Act and Congress
enthusiastically supported his action.

Two party system...checks and balances...lol...when will American
simpletons wake up and see the charade?
Small wonder Dick Cheney and his lap dog George Bush have had
perpetual hard-ons since slithering into the shadows.

Do you think the American lemmings will hit the streets and demand an
end to the blatant fascism occurring in the "land of the free"?

Nah...pass the cheetos...that PBR sure hits the spot *BELCH*...what
time does Hee Haw come on...how bout them Packers?
FART ...

Freedom of speech; another American delusion. Casualty of another Jew politician - gosh what a shock!

Democracy Now reports:
"Brooklyn College in New York City is coming under criticism for dismissing an adjunct professor after a local politician claimed the professor was biased against Israel. Kristofer Petersen-Overton was let go last week, one day after New York Democratic State Assemblyman Dov Hikind complained about the professor’s politics. Petersen-Overton said he was dismissed before he even had a chance to teach his first class, a graduate seminar on Middle East politics."

Kristofer Petersen-Overton: “It seemed that one of the students in the class googled me and took objection to some of the political stances I’ve taken in the past vis-a-vis the Israeli, Palestinian conflict. They expressed these concerns to the head of the department, he asked her to wait until the class actually began before continuing to complain; unfortunately she didn’t. She started spreading this around on the blogs and quite quickly in fact, disturbingly fast, a campaign to vilify me was spread all over the internet.”

10. American CIA Make the Keystone Cops Look Like Smooth Operators

Yeah that's the ticket! Install a new CIA/Jew flunkie to replace the old one. Standard fare from the brilliant Ivy Leaguers who dominate the CIA. The same cabal of inbred snobs that gave the country Vietnam, the Bay of Pigs, drugs for arms, Al-Qaeda, ad naseum.

"On January 29, Omar Suleiman, Egypt’s top spy chief, was annointed vice president by the tottering dictator, Hosni Mubarak. By appointing Suleiman, part of a shake-up of the cabinet in a (futile?) attempt to appease the masses of protesters and retain his own grip on the presidency, Mubarak has once again shown his knack for devilish shrewdness. Suleiman has long been favored by the US government for his ardent anti-Islamism and willingness to talk and act tough about Iran, and he has been the CIA’s main man in Cairo. Mubarak knew that Suleiman would command an instant lobby of supporters at Langley and among “Iran nexters” in Washington, not to mention among other authoritarian mukhabarat-dependent regimes in the region. Suleiman is a favorite of Israel too; he held the “Israel Dossier” and directed Egypt’s efforts to crush Hamas by demolishing the tunnels that have functioned as a smuggling conduit for weapons and foodstuffs to Gaza."

"The man responsible for the "execution-style" cull of 100 sled dogs
that were no longer of use to the Whistler-based Outdoor Adventures
"due to a slow winter" season had known a lot of the dogs and was so
traumatized by the slaughter he now suffers from nightmares, panic
attacks and depression, according to a confidential workers'
compensation review decision obtained by the Vancouver Sun."

The unidentified man said he had raised many of the 300 dogs owned by
his employer, in fact, naming many of them. But over a two-day period
in late April 2010, he agree to carry out the orders from his employer
to euthanize some of them because part of his job duties "included
herd control." Story continued at

A) Iraq was actually a place where 'WMD' might have been produced/
stored . We may NEVER find out . It is also a huge 'gas station'!
It is either 4th or 5th largest oil producer in the world. B)
Afghanistan was wrecked ? How does one wreck a place That Time
Forgot ?

With the addition of intelligent leadership, that's pretty much what
defeated the King of the British Empire and established the original
Supreme Court.

And given sufficient exasperation with the illegitimate successor
regime in Washington, it could happen again.

And the regime knows that. That's one reason they are so intent on
making us a multicultural, multiracial melange -- they know that
only a people united by blood and culture has ever made a successful
revolution.

Happy February,

Kevin Alfred Strom.

Well, misery is truly bottomless, if that's what it is. . . but why is so much money being wasted on that forlorn and hard-to-get-in---difficult-toget-out part of the world ? Ah, we are bringing them back to the present time, something the local population has resisted since times of Alexander the Great .

Handy Shortwave Chart
Bill McFadden
billmc@agora.rdrop.com

Band allocations and time zone conversions for the USA. Includes broadcast
bands used outside the USA. For multi-use bands, primary usage is shown.
Some stations operate outside official bands. Information is from Oct 2008
FCC rules and Sep 2009 NTIA manual, see Chapter 4 of:
http://www.ntia.doc.gov/osmhome/redbook/redbook.html

Frequencies are in kHz. Usual spacing in shortwave broadcast bands is
5 kHz. Frequencies above 10000 kHz tend to propagate better during the day;
frequencies below 10000 kHz tend to propagate better at night.

Please e-mail suggestions and corrections to billmc@agora.rdrop.com.

Phone line as SW antenna
Bill McFadden
billmc@agora.rdrop.com

Changes preceded by "|".

WARNINGS AND DISCLAIMERS

Connecting unapproved devices to phone lines may be illegal in your area.
Telephone lines present a potential shock hazard. Do not use this antenna
for transmitting. Use at your own risk.

INTRODUCTION

This article describes how to use a phone line as a shortwave receiving
antenna. Performance will vary depending on the kind of phone line you
have. Overhead lines usually make okay antennas, while underground lines
| usually don't. Phone lines carrying DSL service may be unsuitable because
| DSL operates over a wide spectrum. A phone line antenna will generally
pick up more power line noise than a dedicated antenna, so don't expect to
| use it for DX work. Nevertheless, I found that it outperformed the
| telescopic whip antennas built into many portables.

A reader sent in this suggestion: If you're concerned about connecting
the phone line directly to the receiver, try wrapping the phone cord
several times around the receiver's telescopic whip antenna instead.
Performance may not be as good as a direct connection, but it will
probably be better than the whip antenna by itself.

Someone else wrote asking about lightning protection. I haven't thought
much about it because thunderstorms are rare in my area. Most phone lines
have lightning arrestors on them where they enter the house, but the
lightning arrestors may pass enough energy during a lightning strike
damage a receiver. My suggestion is to disconnect the antenna when not in
use if you experience frequent thunderstorms.

HOW TO DO IT

The simplest connection is a single capacitor between the phone line and
receiver. The capacitor eliminates all phone line voltages, including
| ringing, so that they will not harm the receiver. The capacitor should
| be rated 250 volts or higher.

```
Phone line RF connector
red .01 uF center cond. / \
or o--------||-----------------------------|-o | To receiver
green \ /
50 ohm coax |
ground |
or o-----------------------------------------+
N.C. shield
```

N.C. = no connect. I originally connected the phone line ground (yellow wire) to this terminal, but reception was better without it (if you do this, play it safe and put a .01 uF capacitor in series). If another ground is available, you can connect it to this terminal.

If you are picking up local AM or FM radio stations on the shortwave bands, it is likely that your receiver is overloaded. Inexpensive and portable receivers usually lack the filtering needed to eliminate this interference, but you can make your own filters. Filters can also be
| purchased from shortwave dealers (see below for recommendations).

A high-pass filter can be used to remove signals below the shortwave bands. It rejects interference from local AM stations and presents a high impedance to the phone line at audio frequencies so that the phone line remains balanced.

A low-pass filter can be used to remove signals above the shortwave bands. It rejects interference from FM and TV stations, as well as VHF 2-way radio transmitters. If you use both filters, connect the output of the first filter to the input of the second (don't forget to connect their ground terminals together). It doesn't matter which filter is connected first.

These filters also work well with random wire antennas. Just connect the antenna in place of the phone line.

The filter(s) should be connected to the phone line in this manner:

```
Phone line RF connector
red -------- center cond. / \
or o----| |-------------------------|-o | To receiver
green | | \ /
| FILTER | 50 ohm coax |
ground | | |
or o----| |----------------------------+
N.C. -------- shield
```

```
| RECOMMENDED FILTERS
|
| If you don't want to make your own filters, the following have good
| performance, are well-built and affordable:
|
| Model 400 BCB interference filter (3.5 MHz highpass)
| http://www.iceradioproducts.com/filtersrf.html#bcb
|
```

| Model 420 HF lowpass filter (30 MHz lowpass)
| http://www.iceradioproducts.com/filtersrf.html#3
| (scroll down a bit to see the model 420)
|
| If you have a random-wire antenna, the following unit will provide
| impedance matching and lightning protection (connect antenna to 450-ohm
| terminal):
|
| Model 182A beverage matching unit
| http://www.iceradioproducts.com/reconly.html#Beverage Matching

FILTER PLANS

The original credit for the high-pass and low-pass filters goes to Paul Blumstein and John Shalamskas, respectively. Edited versions of their articles are included here:

Date: 09 Jan 91 00:54:08 GMT
From: paulb@harley.TTI.COM (Paul Blumstein)
Subject: BC Band Hi-Pass Filter

The following ascii-schematic diagram is a high pass filter that will filter out Broadcast Band (MW) stations. I found it a great boon to my shortwave listening since local MW stations overload my ATS-803A front end & appear in SW, especially with a long antenna.

If you remember my antenna saga, I went from 50 feet to 150 feet & had overload problems causing me to cut back to 50 feet. (Even at 50 feet, I still have some MW interference). I took the advice of Gary Coffman and looked up filters in the ARRL Handbook. With the filter in place, I intend to try to increase my antenna length again.

Anywho, here is the filter, for interested parties.

```
--------||---+----||-----+----||-----------
} }
{ {
} }
-------------+-----------+-----------------
```

The outer capacitors are 1500 pf ceramic disks.
The inner capacitor is 820 pf ceramic disk.
The squiggly things are coils (two total). Each one is 2.7 uh.
(a close value will do).

Date: 12 Jan 91 00:44:25 GMT
From: bill@videovax.tv.tek.com (William K. McFadden)
Subject: Re: BC Band Hi-Pass Filter

I built the filter that Paul Blumstein posted recently and measured it on a gain-phase analyzer. Here are its characteristics:

100 kHz -120dB
500 kHz -68dB

1000 kHz -38dB
1600 kHz -15dB
2100 kHz -3dB

The source and load impedances were 50 ohms. Because the filter has five elements, the attenuation is 30dB per octave. The measurements confirmed this.

This filter seems to be a good compromise between interference attenuation and passband response. There is very little attenuation in the 120m band and above. It could use a little more attenuation at the upper end of MW, which could be done with more stages or a higher cutoff frequency. Alternatively, you could build two of these filters and put them in series. (Since two 1500pF capacitors in series are really 750pF, you could eliminate one cap.)

Just for fun, I put 470 ohms in series with the input to see how the filter performed with an antenna mismatch. The response was:

100 kHz -105dB
500 kHz -60dB
1000 kHz -35dB
1600 kHz -15dB
2300 kHz -3dB

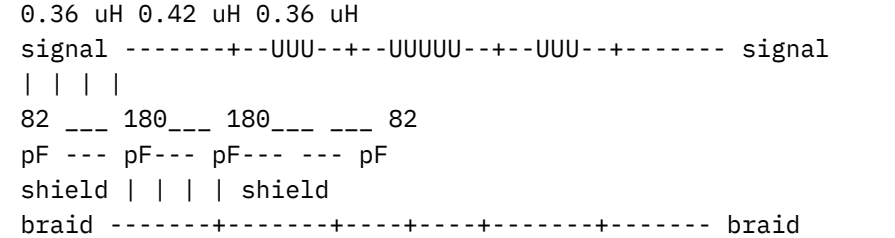
These figures are normalized to the passband response of -15dB, which is due to the impedance mismatch between the source and load and would have been there without the filter. Hence, the filter works almost as well in spite of the mismatch, which is good news to those who use long-wire antennas.

Date: 22 Apr 92 08:59:33 GMT
From: johns@uhunix.uhcc.Hawaii.Edu (John Shalamskas)
Subject: Construction of filters for SW reception

Several people have asked for construction details of the filters I built for my DX-440.

The high-pass filter helped some, but in my location the VHF/UHF broadcasters are also causing problems. So, I dug out the ARRL handbook and chose a 7-element Chebyshev low-pass design that is -3 dB at 35 MHz, -20 dB at 43 MHz, and -50 dB at 64 MHz (all calculated; it works well in practice!)

LOW-PASS FILTER (Rejects FM, TV, etc.)



|
chassis ground

I had to do a little more improvising at this point. I used .33 uH
instead of .36, and .66 uH instead of .42, but it works fine.

The 5-lug terminal strips were perfect for these circuits, since there
are 4 lugs plus a grounded lug. All "ground" connections go to the lug
that is mounted to the chassis, and the other 4 lugs are used for each
of the connections on the signal line. One terminal strip is used per
filter. Since both filters were necessary to clean up the hash, I am
going to put them both into one box when I get the time.

The proper way to connect them is in series, i.e.

signal in ------- filter 1 -------- filter 2 -------- signal out

There is no difference between ends. They are "bilateral" which means
you can't possibly hook them up backwards. (In the above schematics,
left and right ends are interchangeable.)

COIL WINDING

You can make the coils yourself using this formula:

L = 0.2 * B^2 * N^2 / (3B + 9A + 10C)

L is the inductance, in uH
A is the length of the coil, in inches
B is the mean diameter of the coil, in inches
C is the diameter of the wire, in inches
N is the number of turns

For small wire, you can assume C = 0.

PARTS SOURCE

Parts for the filters can be obtained from the following source:
http://www.digi-key.com/

- Wasn't ancient Egypt the place where beer originated ?

Either There... Or Was It Ancient Babylon . . .

Man discovered a 'brew' formed naturally by
happenstance in nature.

Man learned how to create the 'brew' artificially.

Man call the 'Brew' "Beer"

Men gathered where they could find "The Brew" [Beer].

Where ever Men 'gathered' for "The Brew" [Beer] :
Civilizations formed.

and... the rest they say is 'history' :o) ~ RHF

> Forgot ?

I believe they had a 6.6 earthquake in 1998 they were still digging out from under. Plus the Taliban tribesmen had been busy wrecking movie theaters and schools. Ted Rall has some good writing about SW Asia.

Iraq's weapons programs were all halted in the 1990s. All strategic equipment was destroyed. We verified this at the time. WMD was never a threat from Saddam. All conventional weapons found were under UN seal.

When Saddam produced a huge pile of documentation upon USA demand, we categorically pronounced it "bogus" immediately, even though we hadn't even reviewed it. Colin Powell agreed to lie for George Tenet.

George Bush said he wanted to be a "War President" in 1999 and plans for an invasion started in January 2001. He set back East/West relations 500 years with his klutziness.

The Revolution was against assholes on a power trip and I for one think
we ended up actually losing that one over the long run. The rich pricks
still run everything and they still have their shiny shoes on the necks
of the workers. We give them 95% of everything in return for crumbs and
an occasional chance to grab the brass ring.

No. Murphy's Law is based on actual physical law. What we describe above
is stupid coincidence. Murphy's Law states that the mechanism will
perform as designed and built and that it cannot do otherwise. It is a
very serious thing.

Jordanï¿½s King Dismisses Cabinet After Protests
By THE ASSOCIATED PRESS
Published: February 1, 2011

Filed at 7:58 a.m. EST

AMMAN, Jordan (AP) ï¿½ Jordan's Royal Palace says the king has sacked his government in the wake of street protests and has asked an ex-army general to form a new Cabinet.

King Abdullah's move comes after thousands of Jordanians took to the streets ï¿½ inspired by the regime ouster in Tunisia and the turmoil in Egypt ï¿½ and called for the resignation of Prime Minister Samir Rifai who is blamed for a rise in fuel and food prices and slowed political reforms.

The Royal Palace says Rifai's Cabinet resigned on Tuesday.

Abdullah also nominated Marouf al-Bakhit as his prime minister-designate. No other details were immediately available.

53. "Murphy's Law" -or- Mother Nature Is A Real 'Practical Joker'

> ...so.. President Obama is doing a 'Smart' War in Afghanistan !

You seem to forget that a) Obama INHERITED the war. b) George W. Bush painted us into a corner with no way out and c) when W was in his alcohol and cocaine induced stupor, he overlooked the fact that the Russians took a ten year ass-kicking in Afghanistan.

> ...so.. President Obama is doing a 'Smart' War on Muslims !

I thought the kooktards believe Obama is Muslim. Why would he fight those who are supposedly his own people? Sorry, you can't have it both ways.

> ...so.. President Obama is doing a 'Smart' War Against Islam !

see above

> ...so.. President Obama is doing a 'Smart' War Genocide
> On The Peoples of Afghanistan !
>
> ...so.. President Obama is doing a 'Smart' War Killing
> Innocent Women and Children !

Obama INHERITED the wars started by Bush. Obama has been in these "wars" for two years. Bush was "Killing Innocent Women and Children" for *EIGHT* years and I do not recall you ever saying one word against that.

Roy, do you see the irony (and your hypocrisy) here? No? Well, that's OK, it's obvious to the rest of us.

I have never heard this interpretation of M's Law ;-) I have heard,
however, that:

"The light at the end of the tunnel is the headlamp of an oncoming
train."

> lines out back, and the near end is about 15 feet from the low-tension
> lines in front. Next steps -

- 1 - Ground the 9:1 unun

- 2 - Bury the coax from house to base of antenna
- (about 18 feet underground)

You can use 1/2" Polyethylene Tubing to Bury
http://www.dripdepot.com/1045
your Coax in if you don't want to use PVC Pipe.
.
Seal the Tubing ends with one of these.
http://www.touch-n-foam.com/products.php
.
- 3 - Install RF isolator (Either Radioworks or
- Wellbrook AFI5030) at the house with or
- without a ground stake connection,

Usually you should try and get this Ground Rod
were the Coax is coming out of the Ground; and
as close as you can get it to were the Coax is
about to enter the House.
.
- depending on what works the best.
-
- Have not had great reception so far this week,
- so no chance to really give it a workout.

Then things can only get better.

- Further reports to come.
- Thanks, guys, for all the input so far!

Post It When You Hear Them :o) ~ RHF

Do you run with RF gain all the way up? I don't. I use a lot of AF gain and turn the AGC off and ride the RF gain (use that for a volume control). That gets the noise way down (until somebody flips an incandescent light switch and the "pop" goes through my brain).

I did my deep urban DXing on a 2010 (on a 30' umbilical) and an R390-A (120' random wire connected directly to back of radio). Biggest power lines overhead at right angle to random wire. The R390-A's what got me hooked on pro grade receivers.

You must be an American who goes to work and then goes home without ever
interacting with his neighbors. It seems that in America bars are cheap,
poorly lit, pick-up spots. Common practice in Europe is to stop by the
local bar on the way home from work (not uncommon for wives and children
to be present), talk politics and sports, and then head on home for
dinner, news at 7:30 PM, and a movie at 8PM (no commercials), and then
to bed.
Even Irish bars with the "Strum und Drang" of becoming "bellicose,
lachrymose, and comatose" offer an inexpensive spectacle.

It depends on the situation. I only rarely turn off the AGC, but I do ride the RF Gain quite a bit, partly because of this effect you describe and partly because it really helps the S-AM work properly (People complain about the Icom R-75 S-AM, even with Kiwa mods, but I can eliminate virtually all selective fading with the RF Gain set properly). However, I will give the method you describe a shot.

How did those powerlines affect your reception?

Good idea on the tubing. Since I already have the PL-259s on the cable, I may go for 3/4" or 7/8" ID tubing (they should snug through that size tube, IIRC). I already have the 8' ground stake in at the edge of the foundation, so it's practically plug and play if I ground that RF isolator. I was thinking of using CoaxSeal for the tube ends, since I have a mess of it.

Question - does the additional Poly tube around the coax diminish the capacity to provide (presumably useful) inductive ground for the buried cable? If the coax is not "entubed", does the covering break down in soil? I have RG8X for the run...PVC coating IIRC.

Seems to me that anything resembling an inductive ground would be a bad thing. The inductive coupling effect would vary completely with the frequency of the signal, proximity, length, etc. Not good.

Don't settle for anything less than a real, lowest possible impedance, honest to G_d, mechanically connected ground. I usually smear the wire connection and electrode with vaseline after having sandpapered them. Then do your clamping. A plastic cup inverted over the end of the ground rod will keep the rain out of the joint.

Or you can wrap it with CoaxSeal. Teflon tape works very well,
for this, too.

BpnJ,

The PE Tubing is like the PVC Pipe : Simply a
'means' of providing some level of additional
Mechanical Protection for the Coax Cable.

? Inductive ? Ground ? {Coupling}
-would-be-more-like-layers-
! Capacitive ! Ground ! {Coupling}

---earth-covered-trench----------
==buried=coax=cable==========
---earth-ground-trench-bottom----------

What 'Burying' the Coax Cable does is cover
{surround} the Coax in good old RF Damping
{Attenuating} Earth-Soil "Ground" : 3"~4" deep
is good; 6"~8" deep is better; and 9"~12" deep
can be great.

When you have the Cable run Trench 'open'
lay a simple 'bare' Copper Wire at the bottom;
before you put the Coax in it. Tie this Wire to
one or both of your Ground Rods.

Leave an extra 7"~9" of the PE Tubling above
the Ground versus only 3"~4". Ensure When
you Seal the Ends that you only get the Sealing
material inside the Tubing about an Inch (1").

?Why? -if- You have to repair/replace the Coax
you should be able to snake the new Coax through
the PE Tubing without un-trenching and re-trench
the whole thing again.
Un-Seal the Ends and Trim the PE Tubing as
needed; and Re-Seal when done.
-note- Of course you will have to have 'no' PL-259
Plug on one end of the Coax to make things easier
with the 2nd under-ground 'feed-through'.

do the best you can and hope you only . . .
have to do it once :o) - iane ~ RHF
.
.

Quite true. I would add that, to many, it has always seemed
mysterious why the banking system would foster inflation as they do,
since inflation means their "debts" will be paid back in ever more
worthless dollars. By creating inflation they appear to working
against their own interests.

But the mystery disappears when you consider that their goal is
not to have their loans repaid, but simply to keep you working for
them forever -- for them to continue getting a rake-off of all
economic activity into the infinite future. Gradual inflation
doesn't matter much to them in such a game, and it greases the
wheels of the various "help the poor" sucker games that their
politician employees are always conning us with.

> On a side note:
> The bankers will no doubt make war on China rather than repay the

I don't think they'll make war on China. Their interests are parallel, not opposed. Instead, they will coï¿½perate with them in managing the feeding and breeding zone of the Global Plantation that was once called the United States of America, and extracting the maximum possible labor from its increasingly alienated, historyless, ignorant, disunited, and racially mixed fellaheen.

I predict that soon, an undercurrent will appear on Fox News and other neocon outlets that will be whispering to us: "Ya know, those Chinese really believe in working hard like us good Amurricans. They have the spirit of free enterprise and the good ol' Protestant work ethic -- and so do those hard workin' Mexicans who have gone legal and support the good ol' red, white, and blue. They're jus' like us and those hard-workin' Jewish folks too!" And the numb-nuts will fall for it all. Glenn Beck is already promoting the works of Gavin Menzies which claim that the Chinese really discovered America and that the European Renaissance was really of Chinese origin. (Menzies was paid a cool million by Beijing for writing such drivel, though Beck, for some reason or other, failed to mention that.)

I predict that there will then be an influx of mid-level Chinese businessmen sent to manage their new American serfs and other properties, many of whom will eventually be "born again" and be "washed in the blood of the lamb," since that's the best thing for business in this country. Fox News will fawn all over them.

With all good wishes,

Kevin Alfred Strom.

Well, that's not quite what I meant - I am sorry if I was unclear.

IIRC, there is nothing at all wrong with burying a cable, and in fact
it helps to keep the RFI away from the run, as well as keeping the
outer braid near the earthen ground and helping to bleed away currents
travelling along the braid. That is what I was asking about - whether
a poly tube would lessen this desirable effect.

I have every intention of grounding the 9:1 unun, presuming it will
enhance performance (if it does not, I'll disconnect it). If
necessary, I'll also install the RF Isolator and try it both grounded
and ungrounded.

I had never heard that it was necessary to keep a solid mechanical
ground water-free, although I guess I can see the value. I don't
understand what vaseline does - just protect against corrosion? I
doubt if it would help the electrical connection.

If you mean abortion, then who is "we"? Nobody holds a gun to womens'
heads when they decide to kill their unborn child. They are the only
ones to blame.

You're not supposed to use braid for grounds.

==========

I donï¿½t have any figures for Canada, but the Humane Society of the United States reports that four million cats and dogs are ï¿½put downï¿½ in U.S. shelters each year, or about one every eight seconds. For many of them, their only crime is that, like the Whistler sled dogs, they were no longer wanted.

and what about REID HIMNSELF

Today, they think that they get the letter; or just address this as
fasade; YESTERDAY, CRIMINALS OF THE SENATE, AND THAT DOES NOT SKIP
OVER REID HIMSELF OR HIS CLOSEST ASSOCIATES, REFERE THE TROUBLE TO
ATTORNEY GENERAL, IF TRHEY THINK THEY ARE NOT ALLOWING PETITIONER TO
TALK TO THEMSELVES, INCL. BY FORMER
ASSOCIATES AND FRIENDS, AND THAN ASK OR BLACKMAIL THE AG
TO COVER, FIRE THE CLERK THAT TOOK THE LETTER; STEAL ALL COPIES AND
NUMBERS OF THE CERTIFIED RECEIPTS; REFUSE TO ANSWER;

CHECK WHICH ORGANS ARE STILL WORKING ON THE AGED
COLLEAGUE (REID IS OLD AND NOT THAT GOOD KNOWN LAWYER)
AND CALL ROCKEFELLER, THE SCIENTIST OF THE ENTERPRIZE; THAT HAS THE
OFFICE NOW; AND SOME OF THE ACRAMS I DO ON THE WALL; AND ARRANGE THE
KINDNAP AND THE OPERATION FOR ORGAN REMOVAL - TAKES YERAS FOR THE
VICTIM T6O GET BACK;

AND THAN AGAIN.

CURRENTLY, TENTS OF WOMEN AT AT LEAST 5 WOMEN OF THE SENATE
HAVE BEEN ATTACKED THGSI OR SIIMILAR WAY BY REID AND ASSOCIATES.

CURRENLY, THERE ARE

CLOTURE OR NOT; FILLIBASTER OR NOT; HOLD NOT HOLD, RE4ID - THE TIME IS
UP - YOUR WAY OF ABUSING THE HUMNAN BEINGS DOES NOT NEED THE VOTE.

REID, ALSO LOADS HIS HEAD COMPUTER SIMILARLY TO HIS PALL, THE
SHELDON WHITEHOUSE, HIMSELF; THE o'NEALS AND THE LIKE ABUSERS AGAION
OWN COLLEGFUES ON THE HIGH ADDRENALINE.

AT LEAST 5 PEOPLE WERE MISTREATED AS THE VICTIMS, SOME WORKING ABROAD
FOR THE AMERICXAMN INTERESTS; CONTROVERSIAL OR NOT PLAME ONLY A VERY
MILD CASE OF ABUSE - THGEY GET RID OF ANYONE AND EVERYONE ON THE WAY.
VICTIMS, ESPECIALLY ALREADY PUBLICALLY AVAILABLE FOR PROCEDURE AT THE
GARBAGE DISPOSAL MIN THE BODY BAG FOR DAY OR WEAK, ANDC REPORTED TO
THE SENATE, HAD BEEN ATTCKED BY THE LITTLE FASCISTS ON THE WAY OUT
REPORTING THE MISSION SITUATION.

THE JAYUCO EXAMINERS, THE FRENCH SPEAKERS (BY BRITISH) THE FORMER
DIPLOMATS, ALL COLLEGUES OF JAY ROCKEFELLER IN 60 TIIES,
AND MANY WOMEN THAT DID NOT MAKE FOR ALL THE REASONS COMBINED; HAVE
BEEN KINDPED, CHIPPED, OR PROTECTED AGAINT THE INNER BARBARITY OF THE
SENATE FASCIST;
PEOPEL ARE COMING IN WITH OWN COMANDOES TO FASCISTS LIKE REID
TO NOT TO BE TAKEN ON THE WAY OUT LIKE VALER AND MANY OITHERS.

OR HAVE BIDEN RAPE THAM OR HAVE CIA ANESTETIZE THEM FOR RAPES; OR HAVE CRIMINALS OF CIA TRTEATING THEM AS ASSASINS FOR REALLY DIRTY CONCENTRATION CAMP IN THE SCIENTIS ROCKEFELLER NASA

AND MANY MORE SEVERE HUMAN RIGHTS VIOLATIONS ARE COMPLETELY IMMUNTE TO REID AND PALLS PROCEDURE (all controies around the world help and porotect own citisentry' except this fascist faction and has a procedure)

HALLO - WE HAVE ThE NR OF THE CERTIFIED LETTER, THE LETTER, THE NAME OF THE CLERK; THE SECRETARY IN NEVADA AND IN CAPITAL OFFICE AND... THE COMMANDO!

and you have 'Dolittle'! (the hiroshima bomber, that goes aroudn and threatens people of the senate women or anybody of his past)

I haven't used petroleum jelly since WD-40 started showing up in spray cans. The point is to keep air away from the metal, a thin layer works as well as copious globs.

"Most people think that the slaughter of baby seals in Canada is over.
It is not. In fact it is worse than ever.
In the last four years the Canadian government has allowed over one
and a quarter million baby seals to be brutally slaughtered by
clubbing and shooting, with the majority of seals killed aged three
months or younger." Read more at http://www.boycott-canada.com/

What a stupid reply. Have one of your fellow CanaDUHians explain the
difference between humane euthanasia and having half their heads blown
off with a shotgun or throats slit while the rest of the pack looked
on as your fellow CanaDUHians did to the beautiful Huskies.

From the report at
http://www.canada.com/news/RCMP+investigates+report+sled+dogs+killed+following+tourism+lul
l/4197883/story.html

It also states when he went to get the dog, he was bitten in the arm.
After disposing of Suzie's body, he returned and noticed another dog –
named Poker – that was special to him and not slated to be euthanized
had been accidentally shot.

"Poker was covered in blood from a neck wound and covered in his own
feces. He believed Poker suffered for approximately 15 minutes before
he could be put down," the report states.

The employee had put down about 55 dogs on April 21, and by the end of
the day, the dogs were so panicked they were biting him and he had to
wrap his arms in foam to prevent injury.

"He also had to perform what he described as 'execution-style'
killings where he wrestled the dogs to the ground and stood on them
with one foot to shoot them. The last few kills were 'multiple-shot'
killings as he was simply unable to get a clean shot," the report
says. "He described a guttural sound he had never heard before from
the dogs and fear in their eyes."

But the killings on April 23 were described as "worse" than two days
earlier because the herd's fear and anxiety began almost immediately.

On that day, the first significant killing happened to a dog named
Nora, who he had shot 20 minutes earlier and put into the mass grave.
He noticed her crawling around amid the 10 or so bodies already there
so had to climb down into the grave and "put her out of her misery."

At that point, the reports states he "wanted nothing more than to stop the 'nightmare,' but he continued because he had been given a job to finish and did not want to prolong the suffering and anxiety of the whole kennel population. He stated that he felt 'numb.'"

His last memory of killing the final 15 dogs was "fuzzy" and in some cases he felt it was simpler to "get behind the dogs and slit their throats and let them bleed out."

The report states he was “covered” in blood by the end.

"When he finished he cleared up the mess, filled in the mass grave and tried to bury the memories as deeply as he could."

This one crawled out from a mass grave. It took two more bullets to kill
him, in front of his 'pack'.

==========
American soldiers murdered Afghan civilians for sport and kept finger bones, leg bones, a tooth and a skull as grisly trophies, according to documents released by the Pentagon on Wednesday. The case is the worst such atrocity yet revealed in Afghanistan. It underscores that just as in Iraq, the US military intervention is a brutal colonial war in which the entire population of the country is a target.

The official charge sheets released by the US Army greatly expand the case initially brought against five soldiers charged in June with premeditated murder and beating a fellow soldier who was threatening to inform on them. A total of 12 soldiers now face 76 charges, with multiple counts of drug abuse, mutilating corpses, filing false reports, lying to military investigators and acts of violence against fellow soldiers. (See ï¿½The twelve soldiers charged in atrocity and cover-upï¿½)

-again-
The PE Tubing is like the PVC Pipe : Simply a
'means' of providing some level of additional
Mechanical Protection for the Coax Cable.

-why- Should you Forget that the Coax is There . . .
and Attempt to Dig into It by Accident; -or- the
Wife is doing some Gardening in the Area of
the Cable ...and... Oops ! -bmsh-

Treat the Coax Cable like it was an Underground
Electrical Conduit or Water Pipe :
Use PVC Pipe at 12" to 18" with 6" Layer of Cover
Dirt over it. Then use an Indicator {Warning} Tape
on-top of the Layer of Cover-Dirt. Followed-by a
Layer of Fill-in Dirt to Ground Level.
IT'S ALL MUCH MORE WORK
-but- a much better practice - iane ~ RHF

I don't buy WD40 anymore. I've had two large cans in a row get clogged internally, so nothing would come out. The cans were still pretty much full. Full and useless....

The stuff doesn't do very much successfully. It makes a rotten lubricant. The only thing it actually does well is displace water, which is where it got its name, WaterDisplacer. One can assume it was recipe #40 that finally worked.

I think Howard Hughes had something to do with it.

The ones that Bin Ladin said would be put in in a much more equitable fashion by the Brazilians. The Taliban was in Texas two weeks before the start of the war trying to get the US to match or better the Brazilian offer.

The Texans told them to either accept or there would be an invasion. We know what happened.

Unocal-->no pipeline . No gas or oil crossing Afghanistan today . And
the place is a natural death-trap -- just ask Genghis-Khan's
descendants over there !

From the oilfields of the inner Stans to the Indian Ocean. You didn't read my link about pipelines and 9-11 (the REAL story-not truther nonsense misdirection).

"FBI counterterrorism expert John Oï¿½Neill privately discusses White House obstruction in his bin Laden investigation. Oï¿½Neill says, ï¿½The main obstacles to investigate Islamic terrorism were US oil corporate interests and the role played by Saudi Arabia in it.ï¿½ He adds, ï¿½All the answers, everything needed to dismantle Osama bin Ladenï¿½s organization, can be found in Saudi Arabia.ï¿½ Oï¿½Neill also believes the White House is obstructing his investigation of bin Laden because they are still keeping the idea of a pipeline deal with the Taliban open (see July 21, 2001). [Irish Times, 11/19/2001; Brisard and Dasquie, 2002, pp. xxix; CNN, 1/8/2002; CNN, 1/9/2002]

Entity Tags: John Oï¿½Neill, Bush administration, Taliban, Osama bin Laden

Timeline Tags: Complete 911 Timeline"

The Associated Press will later report that the Enron corporation bribes Taliban officials as part of a ï¿½no-holds-barred bid to strike a deal for an energy pipeline in Afghanistan.ï¿½ Atul Davda, a senior director for Enronï¿½s International Division, will later claim, ï¿½Enron had intimate contact with Taliban officials.ï¿½ Presumably this effort began around 1996, when a power plant Enron was building in India ran into trouble and Enron began an attempt to supply it with natural gas via a planned pipeline through Afghanistan (see 1995-November 2001 and June 24, 1996). In 1997, Enron executives privately meet with Taliban officials in Texas (see December 4, 1997). They are ï¿½given the red-carpet treatment and

promised a fortune if the deal [goes] through.ï¿½ It is alleged Enron secretly employs CIA agents to carry out its dealings overseas. According to a CIA source, ï¿½Enron proposed to pay the Taliban large sums of money in a ï¿½taxï¿½ on every cubic foot of gas and oil shipped through a pipeline they planned to build.ï¿½ This source claims Enron paid more than $400 million for a feasibility study on the pipeline and ï¿½a large portion of that cost was pay-offs to the Taliban.ï¿½ Enron continues to encourage the Taliban about the pipeline even after Unocal officially gives up on the pipeline in the wake of the African embassy bombings (see December 5, 1998). An investigation after Enroniï¿½s collapse in 2001 (see December 2, 2001) will determine that some of this pay-off money ended up funding al-Qaeda. [Associated Press, 3/7/2002]

No. Libertarian Socialist with a Green Party card. No corporate
personhood in the Constitution. The Boston Tea Party was a demonstration
against the company who owned the tea.

Yeah, like those who previously accused you, 'tard boy! And then, you plead guilty, and still try to proclaim your innocence.

Waaaaaaaaaaaaaaaaaaaaa!

You're as nuts as Rickmers, and Bryant.

I have noticed that those, whatever political delusions they may have, left or right, who use the word "'tard" invariably write worthless drivel.

However, I will clarify for others who may be reading this thread. Yes, the preposterous accusations against me by the illegal government in Washington, who tried their best to ruin my life and that of my family, were all false. I pled guilty (to a technicality only, not to anything of substance) while actually innocent in order to avoid dying in prison and never seeing my children again.

Just as false is the accusation that I am a "Nazi," which implies that I am some kind of follower of Germany's National Socialist party, an astoundingly ludicrous claim. It is now Establishment-speak for "anyone who believes that White people should survive," by which definition Lincoln and Jefferson were also "Nazis," as were virtually all Americans prior to 1965.

Actually, the Zionist power structure that misrules the West is far closer to being "Nazi" in the pejorative sense than the so-called Nazis themselves were.

With every good wish,

Kevin Alfred Strom.

Ah the good old "3-In-One Oil" Company
http://en.wikipedia.org/wiki/3-in-1
-why- The Name "3-In-One Oil"
-to- "Clean, Lubricate and Protect"
-now- "The Tool Kit In A Can"
http://www.3inone.com/
Since 1894 . . . Now That’s a Long Lasting Oil !
http://www.3inone.com/about/history/
.
Morphed {Bought-By} into the WD 40 Co.
-aka- Rocket Chemical Company
http://en.wikipedia.org/wiki/WD-40
.
.

We had very windy conditions last night overnight here in the East
Bay, even at sea level - I imagine the hills had some pretty exciting
gusts.

http://www.davidcogswell.com/Political/UnocalGets.html
http://www.hartford-hwp.com/archives/51/119.html

==========
The construction of the 850-kilometre pipeline had been previously
discussed between Afghanistan's former Taliban regime, US oil company
Unocal and Bridas of Argentina.

The project was abandoned after the US launched missile attacks on
Afghanistan in 1999.

This whole discussion is fucking stupid. Don't you people have anything else to do than try to prove that one kind of cruel violence is worse than another kind, thus unintentionally justifying all of it?

No nation or people have a monopoly on cruelty or compassion. Anywhere cruelty happens, it is wrong and stupid and immoral, and that includes Canada and the United States, neither of whom has a sterling record by a longshot. Sitting there at your comfy keyboards playing a game of one-upmanship for posterity is neither productive nor intelligent.

It is the fault of the British for not annexing Suez like Gibraltar to bring stability and prosperity. :)

Sadly, it should be clearly apparent even to the "protesters" what side the military were and are on.

After a taste of what the military with its bag of tricks have in store for them. The people there will surly feel that things were better run during overt British occupation of days past than these installed puppet dictators who make a mess of things.

Even "our" (USA) Anderson Cooper was beat up :) That should get us mad.

Wouldn't you think that a popular revolt would also occupy and shut down the Suez Canal first?

I only toss the broken pebbles back to Mike [M II]
...after... Mike [M II] Throws Rocks At The USA
...and-after... Mike [M II] Throws Bricks At Americans

Actually think about it . . . Really the only thing 'bad'
I can figure to say about Canada and Canadians is
their Annual Baby Seal Hunt -sort-of- a nice place
and good people on a whole.

While the USA and Americans have a great deal more
"BAD" things that can be said about It and Them
-and- If Dave, DX Ace, Burr, Drifter etc etc etc or any
other Americans were to say/write them that would be
OK with me as an American
-but- I Do Take Exception To Mike [M II] "The Voice of
Canada" constant endless stream of America Bashing
and American Blaming Post here.

excuse me for loving my country
and my fellow americans ~ RHF

Fine. Then if you don't think he has a valid complaint, say so and say why with a rational argument.

Personally, if I have a right to say crapola about another country (and believe me, I do!) then he has a right to say whatever is on his mind about the U.S.

- Fine.
- Then if you don't think he has a valid complaint,

Mike [M II] does not 'complain' : HE BASHES !
.
Mike [M II] is NOT 'Valid' : HE IS SIMPLY OUT
TO ATTACK THE USA AND AMERICANS [.]
.
- say so and say why with a rational argument.

? How does one have a "Rational Argument"
with a Basher & Preacher of Hate !
.
-wrt- Mike [M II] : "The Voice of Canada !"
Basher & Preacher of Hate for Persons-of-Faith
Basher & Preacher of Hate for Religious Believers
Basher & Preacher of Hate for Christians
Basher & Preacher of Hate for Mormons
Basher & Preacher of Hate for Jews
Basher & Preacher of Hate for the USA and Americans
Basher & Preacher of Hate for the Jews, Zionists and Israelis
Hence Mike [M II] -aka- "The Voice of Canada"
.
Once Again Mike [M II] As The 21st Century Voice-of-Canada Speaks !
http://groups.google.com/group/rec.radio.shortwave/msg/1a1f8acf6e361e5e
Mike [M II] the Poster Boy for Canadian Intolerance
and Lack of Understanding in the 21st Century ~ RHF
.
- Personally, if I have a right to say crapola
- about another country (and believe me, I do!)

An occasional pile of 'crapola' is one thing...
The Constant and Endless Stream of America Bashing
and American Blaming Posts by Mike [M II] "The Voice
of Canada" is Never-Ending Hate Speech [.]
.
- then he has a right to say whatever is on his
- mind about the U.S.

NOT when Mike [M II] makes it a Constant and Endless
Stream of America Bashing and American Blaming Posts.
-cause- 'preaching hate' -is- "Preaching Hate"
* Mike [M II] is a USA Hater !
* Mike [M II] is an American Hater !
imho ~ RHF

Very well stated RHF. As the latest victim of Mr. Canada's vicious personal attacks I can attest to how hurtful his uncontrolled vitriol is. He seems to have a pathological hatred of everything America, particularly our military - evidenced by his vicious, and truly sadistic, character assassination of Mr. Steve Lare, a decorated United States Navy veteran.

Keep up the outstanding work you are doing on behalf of all Americans RHF. Your counter punches may not have stopped his anti-American campaign but you sure have made him look foolish. A job well done, thank you. Be assured that the silent majority in this newsgroup backs you 100%!

God Bless RHF, Mr. Steve Lare and the United States of America!!!

You forgot to add Hollywood bimbos who buy fur to the list. I hate them. They're almost as bad as land thieves and those who support them. heck, while we're at it, add homosexual sports coaches who bugger their students.

Now, to clarify, it's not Jews I hate. It's arrogant thieving assholes of any ethnic/religious persuasion. Not all neurotic gay Woody Allen types on methedrine would fit that description.

If memory serves, the original subject of this thread was:

"Is Dog Killing Replacing Baby Seal Clubbing As National Pasttime of Canuckistan?"

Why didn't you complain then? Your continuous hypocrisy never fails to fascinate. Your Constant Endless Stream of Canada Bashing and Real Human Blaming Posts by you, "The Voice of the Uneducated, not so silent US majority" grows more tiring with each of your stupidly punctuated postings.

Not to waste time...don't you have some support group for Fundamentalist Mormon Child Molesters to attend? I hear Smith is showing off his new 13 year old child bride this week. Make a donation and I'm sure he'll let you look up her dress. Pervert.

Subject: I AM NOT A RACIST!!!

As you all know I've spent literally hundreds of hours of my time
compiling off topic posts using the cut and paste articles provided to
me by the John Birch Society to prevent the election of the negro
Barrack HUSSEIN Obama as President. Words cannot convery how shocked
as disappointed that the nation did not heed my scholarly advice and
vote to continue the successful policies of my fellow Texan and hero
George Bush.

As I am unemployed I have lots of free time to devote to researching
and writing my brilliant posts. I must confess I was devastated that my
obsessive compulsive behavior was not rewarded on election night. I
was certain my yeoman like effort would swing the election to my
beloved Republican Party.

Oh sure I've ruined the shortwave newsgroup for all of you who merely
desired to enjoy your radio hobby and selfishly believe this newsgroup
is for shortwave radio information.

But I stand unbowed, undefeated and defiant. I will continue to devote
every waking moment of my life posting of off topic political rants.
You see, the flag to which I pledge allegiance to demands that I do
nothing else. Yes the fate of our country and our liberty rests solely
upon my shoulders!

On a personal note, as I take my daily walk through the neighborhoods
of Dallas screaming and waving my latest top secret plan to save the
United States of America I don't need to hear the usual taunts - "take
your medication!" "Get lost you ignorant racist", "wasn't that you on
the poster warning about the results of incest?" "how do you squueze
that fat ass and beer belly into your klan robe?" "your brown pants go

great with your yellow teeth!"it's called HEAD LICE - look into it!",

On and on it goes but I will not stop. Like my mentor at the local Klavern told me last night - they are just jealous of us because we have the inside scoop on the way things really work in the world. And it's our Godly duty to educate them.

And this I solemnly swear to do - every day for the next four years of the Obamanation administration! SO HELP ME GOD!

I wish you all would show at least a bit of appreciation for my effort. Oh well, such is the life the a true believer, a genuine American hero - ME. *SIGH*

-not-mine-:-i-don't-accept-them-&-i-don't-own-them ~ RHF
.
I simply Defend 'others' from Your Vitriol Hate and
constant unending Bashing... post after post after post
STOP PREACHING THE HATE -you-won't-see-a-reply-by-me-
STOP THE CONSTANT BASHING -you-won't-see-a-reply-by-me-
Don't Throw Stones =&= Stones Will Not Be Tossed Back.
.
.
"Priest" Threw Three Stones in this thread.
While you Mike [M II] have Posted/Thrown 14 Stones.
.
Honestly, I not focused on the deaths and abuses of
Dogs or Seals {Animals}
...but... I am Focused On "Partial-Birth Abortion"
{Birthing the Baby-Infant and Then Killing the
Baby-Child} Is MURDER Infant-Cide

-aka- Obama-Cide© here in America.
http://groups.google.com/group/rec.radio.shortwave/msg/3f7db47e26a14b7f
---IF--- I was a Canadian then... I am Focused On
"Partial-Birth Abortion" {Birthing the Baby-Infant and
Then Killing the Baby-Child} Is MURDER Infant-Cide
-aka- Harper*-Cide© in Canada.
* Stephen Harper Canada's Prime Minister
http://www.pm.gc.ca/eng/pm.asp?featureId=7&pageId=27
Appears to be a nice family man and a good Canadian
who is Focused On Canada -not-bashing-the-usa-
.
FOR ME IT IS "SAVE THE CHILDREN" {UNBORN} FIRST
-and- Take Care of the Living Animals Second.
-not-the-reverse-
.
FOR ME IT IS "BEING A GOOD AMERICAN" FIRST
-and- Take Care of the Rest of the World Second.
-not-the-reverse-
.
RECOMMED FOR YOU MIKE [M II] IT BE
"BEING A GOOD CANADIAN" FIRST
-and- Bashing The USA and Americans Second.
-not-the-reverse-
.
-read- Proving There Is Nothing 'Speical' -aboot- Being A
Canadian ;;-}}
http://groups.google.com/group/rec.radio.shortwave/msg/69517f913358a695
Mike [M II] : The Hater/Basher of Haters/Bashers !
* Preaching Hate for the USA and Americans
* Preaching Hate for Jews, Zionist and Israelis
* Preaching Hate for Person-of-Faith and Religion
* Preaching Hate for Catholics and Religion
* Preaching Hate for Mormons and Religion
* Frequent Use of 'The-N-Word'
+ Now Add 'Gay Bashing' to the growing list...
.
One Must Ask : ? Mike [M II] ?WHY? is it you
have nothing good or bad to say about Canada
...but... Can post here constantly negative things
about the USA and Hate for Americans : ?WHY?
Verbal/Written Attacks On The USA !
Targeting Americans With Your Hate !
.
Once Again Mike [M II] here is something to Help
You get 'in-touch' with your "Inner-Canadian" :
.
* eCanada Now .Com
http://www.ecanadanow.com/
.
* The Canadian Sentinel

http://thecanadiansentinel.blogspot.com/
.
* The "Conspiracy Cafe" -host- George Freund
http://www.thatchannel.com/conspiracycafe
http://thatradio.podhoster.com/index.php?sid=1746
.
NOTE : You can usually hear George Freund and
News Centered on Canada on 'The Power Hour"
once a week with Joyce Riley
http://www.thepowerhour.com/
-via- WWCR Shortwave Radio
http://www.wwcr.com/
-or- On-the-Web {On-Line} via GCN On-Line
http://www.gcnlive.com/programs/powerHour/
.
So You Mike [M II] Can Proclaim... -as- "The Voice of Canada" !
http://groups.google.com/group/alt.politics.liberalism/msg/1f87a2b29f323ac2
The "Good News" From Canada
* Hope for Canada ! = A Bright Future For Canadians :o)
* Change for Canada ! = A Better More Prosperous Canada :o)
-make-friends-:-don't-attack-&-create-enemies-
=NOTE= Please Leave The USA To The Americans.

According to what Wiki says: Uri Averny was born as ... Helmut
Ostermann in Germany ! Now, that's no Canuck, but rather a Loonie (a
real nut-cracker) .

Uzbekistan is no better. It's just that it's so much easier to do
business with Dictators. A much fatter bottom line. Money trumps morals
every time.

- My tax dollars help make the atrocities happen.

mike,,, Mike... MIKE [M II] ! ! ! -wrt- ? "My Tax Dollars" ?

? Are 'you' an American Citizen ?

? Are 'you' now claiming to be an American ?

? Are 'you' now claiming to Paying US Taxes ?
.
- The person I voted for said they'd end the war
- and then didn't.

mike,,, Mike... MIKE ! ! ! -wrt- ? "The Person I Voted" ?

? Did You Vote For Barack Obama for US President ?

NOTE : Candidate Barack Obama Promised to Escalate
and Fight the 'Right' War in Afghanistan -and- Prez Obama
Has Kept That Promise.

-one-wonders- ? Mike [M II] how some one who 'claims'
to be a "Canadian*" Votes in a US Presidential Election ?
* Calgary, Alberta, Canada
.
- Politicians who lie to get elected are also on my hate list.
-
- mike

mike,,, Mike... MIKE ! ! ! -wrt- ! "My Hate List" !

Why Does That Not Surprise Me Mike That 'You'
Have A "HATE LIST" With The Names of . . .
Canadian a/o American Politicians on it.

IMHO : Mike [M II] a Joint Task-Force of Health-Canada
and the RCMP needs to pay you a 'visit' and have a Look
at Your "Hate List" with Canadian a/o American Politicians
on it. -the-sickness-has-to-stop-&-the-hate-has-to-stop-

I note you weren't too bothered by Steve Lare's constant use of the word 'nigger'. When I quote his stupidity, word for word, you get upset. Why not attack the source? Why do you defend his stupidity?
Why do you defend pedophiles? Why do you defend welfare fraud? Why do you defend corrupt politicians? Give your head a shake.

Let's add Hollywood fur buying bimbos to the list. Let's add child sports coaches who bugger their students to the list. Let's add lying politicians to the list. Add all Abrahimic religions to the list. They all lie and murder. Let's add *you* to the list for being a hypocritical asshole.

That felt better. Now, you can save yourself a lot of time in the future by stopping the rather stupidly punctuated and adolescent attacks on

people of other than US origin. I, for one, will not be responding to you anymore. It appears as though you are as thick as brick and nowhere near as intelligent. Now, put your rose coloured glasses back on and resume your self centred existence. Goodbye.

mike

So... Mike [M II] You Admit To Having A "Hate List"
http://groups.google.com/group/rec.radio.shortwave/msg/def6e1c78e4c1018
.
- I note you weren't too bothered by Steve Lare's
- constant use of the word 'nigger'.

There you go again Mike [M II] trying to use Steve Lare's
past use of "The-N-Word" as your on-going justification
for using "The-N-Word".

Mike [M II] your being a Canadian does NOT give you
and Exemption {License} to use the "The-N-Word".

- When I quote his stupidity, word for word, you get upset.

Mike [M II] you could 'quote' Steve Lare's prior posts
and when you get to the [The-N-Word] insert/replace
it with "The-N-Word" -yes-it-is-that-simple-
.
- Why not attack the source?

Mike [M II] You Posted/Reposted "The-N-Word" :
Makes You 'The Source' -and- You Own It [.]
.
- Why do you defend his stupidity?

Just Pointing Out Your Greater 'stupidity' for Reposting
"The-N-Word" Today.
.
- Why do you defend pedophiles?

Mike [M II] NOT Defending 'pedophiles' -but- Rebuting
Your Vitriol HATE Attacks On Other People's Religions.

- Why do you defend welfare fraud?

Mike [M II] NOT Defending 'welfare fraud' -but- Rebuting
Your Vitriol HATE Attacks On Other People's Religions.

Why do you defend corrupt politicians?

Mike [M II] NOT Defending 'corrupt politicians' -but- Rebuting
Your Vitriol HATE Attacks On The US An Americans.
.
- Give your head a shake.

Mike [M II] Reading Your Posts Often Causes Me
To Shake My Head -and- Pray For You.
.
- Let's add Hollywood fur buying bimbos to the list.

Mike [M II] "bimbos" oh how so 'male' of you.
.
- Let's add child sports coaches who bugger their
- students to the list.

Mike [M II] "bugger" oh how so 'male' of you.
.
- Let's add lying politicians to the list.

Mike [M II] 'lying" so you are the arbitrator of the truth.
.
- Add all Abrahimic religions to the list.

Mike [M II] "all Abrahimic religions" you have already
Documented that Hate time and time again.
.
- They all lie and murder.

Mike [M II] "all lie and murder" so again you are
the arbitrator of the truth and justice.
.
- Let's add *you* to the list for being a hypocritical asshole.

Mike [M II] Your Hate List Just Keeps Growing
and growing and growing . . .
.
- That felt better.

Mike [M II] : ? Ranting Hate Makes You Feel Better ?
.
- Now, you can save yourself a lot of time in the future
- by stopping the rather stupidly punctuated and
- adolescent attacks on people of other than US origin.

Mike [M II] : My 'Pongs' {Counter-Replies} Only
Point-Out Your 'Pings' Vitriol Hate Attacks.
.
- I, for one, will not be responding to you anymore.

Mike [M II] : I for One Will Continue To Pray For A
Healing In Your Life - Amen ~ RHF
.
- It appears as though you are as thick as brick
- and nowhere near as intelligent.

Mike [M II] : "thick as brick"
Mike [M II] : "nowhere near as intelligent"
-is-this-what-passes-as-an-argument-in-canada-?-
.
- Now, put your rose coloured glasses back on and
- resume your self centred existence.

Mike [M II] : Yes That Would Be a USA Centered
Existence by a Proud 'Rosé' Blooded American ~ RHF
.
- Goodbye.
- mike

some how 'i' doubt that ;;-}} ~ RHF

When 'going across' we can't avoid ... encountering another psycho-as-
a-president ! Anyone remembers him chewing his own necktie, while on
BBC TV , back in 2008 ?

That would be me, thank you for the head's up on the beginning of this year's matches. Yes, England is the odds on favorite (+175) to win it all but keep an eye on France who could be the spoiler.

Do you think any nation will win the Grand Slam? Any winner of the Triple Crown? And most importantly, do you know of any shortwave stations that will be broadcasting the matches?

I am having MISERABLE reception tonight here in California. I heard Zambia on 4965 better than I've ever heard it around 0200 on my new antenna (nothing at all on my DX-Ultra on 60m) - but practically nothing else. WWV on 5 and 10 is scratchy and faint. Some hams (?) I listened to 3.3 MHz band here in CA were having poor reception too.

Well, this sort of explains the deafening quiet :-(

0300 by K3SKE SFI=80, A=2, K=1, NO STORMS ; NO STORMS
0000 by K3SKE/3 SFI=80, A=2, K=0, NO STORMS ; NO STORMS
2100 by VE7CC SFI=80, A=3, K=0, No Storms -> No Storms

245. What is your purpose in life?

Newsgroup: rec.radio.shortwave
Date: 2011-02-04 06:19:13 UTC
From: yazeed omar <yazeed3mar@gmail.com>
Message-ID: <ae413264-e2de-44bb-a7f9-d1c7cfd44fca@x13g2000vbe.googlegroups.com>
Source record: 219198

ISLAM and the AIM of LIFE

What is your purpose in life? What is the rationale behind our life? Why do we live in this life? These questions frequently intrigue people who try to find accurate answers.

People provide different answers to these questions. Some people believe the purpose of life is to accumulate wealth. But one may wonder: What is the purpose of life after one has collected colossal amounts of money? What then? What will the purpose be once money is gathered? If the purpose of life is to gain money, there will be no purpose after becoming wealthy. And in fact, here lies the problem of some disbelievers or misbelievers at some stage of their life, when collecting money is the target of their life. When they have collected the money they dreamt of, their life loses its purpose. They suffer from the panic of nothingness and they live in tension and restlessness.

Can Wealth Be an Aim?

We often hear of a millionaire committing suicide, sometimes, not the millionaire himself but his wife, son, or daughter. The question that poses itself is: Can wealth bring happiness to one’s life? In most cases the answer is NO. Is the purpose of collecting wealth a standing purpose? As we know, the five-year old child does not look for wealth: a toy for him is equal to a million dollars. The eighteen-year old adolescent does not dream of wealth because he is busy with more important things. The ninety-year old man does not care about money; he is worried more about his health. This proves that wealth cannot be a standing purpose in all the stages of the individual's life.

Wealth can do little to bring happiness to a disbeliever, because he/she is not sure about his fate. A disbeliever does not know the purpose of life. And if he has a purpose, this purpose is doomed to be temporary or self destructive.

What is the use of wealth to a disbeliever if he feels scared of the end and skeptical of everything. A disbeliever may gain a lot of money, but will surely lose himself.

Worshipping Allah as an Aim

On the contrary, faith in Allah gives the believer the purpose of life that he needs. In Islam, the purpose of life is to worship Allah. The term "Worship" covers all acts of obedience to Allah.

The Islamic purpose of life is a standing purpose. The true Muslim sticks to this purpose throughout all the stages of his life, whether he is a child, adolescent, adult, or an old man.

Worshipping Allah makes life purposeful and meaningful, especially within the framework of Islam. According to Islam this worldly life is just a short stage of our life. Then there is the other life. The boundary between the first and second life is the death stage, which is a transitory stage to the second life. The type of life in the second stage a person deserves depends on his deeds in the first life. At the end of the death stage comes the day of judgment. On this day, Allah rewards or punishes people according to their deeds in the first life.

The First Life as an Examination

So, Islam looks at the first life as an examination of man. The death stage is similar to a rest period after the test, i. e. after the first life. The Day of Judgment is similar to the day of announcing the results of the examinees. The second life is the time when each examinee enjoys or suffers from the outcome of his behavior during the test period.

In Islam, the line of life is clear, simple, and logical: the first life, death, the Day of Judgment, and then the second life. With this clear line of life, the Muslim has a clear purpose in life. The Muslim knows he is created by Allah. Muslims know they are going to spend some years in this first life, during which they have to obey God, because God will question them and hold them responsible for their public or private deeds, because Allah knows about all the deeds of all people. The Muslim knows that his deeds in the first life will determine the type of second life they will live in. The Muslim knows that this first life is a very short one, one hundred years, more or less, whereas the second life is an eternal one.

The Eternity of the Second Life

The concept of the eternity of the second life has a tremendous effect on a Muslims during their first life, because Muslims believe that their first life determines the shape of their second life. In addition, this determines the shape of their second life and this determination will be through the Judgment of Allah, the All just and Almighty.

With this belief in the second life and the Day of Judgment, the Muslim's life becomes purposeful and meaningful. Moreover, the Muslim's standing purpose is to go to Paradise in the second life.

In other words, the Muslim's permanent purpose is to obey Allah, to submit to Allah, to carry out His orders, and to keep in continues contact with Him through prayers (five times a day), through fasting (one month a year), through charity (as often as possible), and through pilgrimage (once in one's life).

The Need for a Permanent Purpose

Disbelievers have purposes in their lives such as collecting money and property, indulging in sex, eating, and dancing. But all these purposes are transient and passing ones. All these purposes come and go, go up and down. Money comes and goes. Health comes and goes. Sexual activities cannot continue forever. All these lusts for money, food and sex cannot answer the individual's questions: so what? Then What?

However, Islam saves Muslims from the trouble of asking the question, because Islam makes it clear, from the very beginning, that the permanent purpose of the Muslim in this life is to obey Allah in order to go to Paradise in the second life.

We should know that the only way for our salvation in this life and in the hereafter is to know our Lord who created us, believe in Him, and worship Him alone.

We should also know our Prophet whom Allah had sent to all mankind, believe in Him and follow Him. We should, know the religion of truth which our Lord has commanded us to believe in, and practice it …

There has been a lot of contradictory info about the times for switching between day and night frequencies 9710 and 6080, but Steve Lare in Michigan monitored the change at 0930 UT the day before (Glenn Hauser, OK, DX LISTENING DIGEST)

I did not hear them come up this morning around 0930 but in just checking 6080 at 1150, ABC Local Radio is indeed there. So, no idea what time they came on the freq. today.

Much like yesterday, 'The Cross' 4755.4 heard here with ID at 1159, FM frequency mentioned.

Only 1 kW according to the engineer. But, they did put up a much better antenna.

Hopefully they'll have better luck than they did back in 2007.

I hope so. Must have some good people running the station. There are a
few 100KW stations that could learn something from them.

255. Full Wave Horizontal Loop

Newsgroup: rec.radio.shortwave
Date: 2011-02-05 00:03:56 UTC
From: dave <dave@dave.dave>
Message-ID: <4d4c93d6$0$5667$bd467cd0@news.dslextreme.com>
Source record: 219208

Built one this morning for 10 Mhz (99 feet). Took about 15 minutes. It works pretty well only 10' up. I'm going to put a bigger one on the roof. Very low noise. Costs nothing. (You can drive the feedpoint with a CATV balun, I'm using a 4:1 LDG balun).

VSWR is about 3:1 from 7 Mhz to 15 Mhz with a little dip at 9.9 MHz (resonance). As this is a receive only antenna I didn't bother trimming for absolute minimem VSWR. I didn't test lower with the bridge, but I can get KFI (0.64 MHz) on it. I hear very little QRM on the loop.

http://www.radioworks.com/nloop.html

Squeeze it in a bit into an elongated diamond shape, and put a terminating
resistor in the middle, you have a rhombic... very nicely directional. And
you can put them virtually on the ground. Probably not as broadband as your
loop, though. Have you tried putting a variable cap on yours to tune the
resonant point?

If I was going to transmit on a single band I'd cut it to resonance. If
I was going to transmit on multiple bands I'd stick a remote ATU at the
feed point. Capacitors are important for SMALL loops, more than for the
big ones. I didn't want a figure 8 pattern; that's why a built a full
size nominally square loop. The feedpoint is opposite the highest
corner, theoretically giving me a VPOL signal.

General coverage from Broadcast through the HF. Very nice shape.
Cosmetics good. Additional pictures are available upon request. If
there's anything in particular you'd like to see, speak up.

Works very well. Fresh alignment. Receives on all bands. Tubes all
meet spec. Fairly common tubes, too. This one has a very nice sound.
Good sensitivity. Lots of gain. Antenna trim control for optimizing
random antennae. Noise blanker, Variable BFO, and High/Low tone control.

Delivery within 100 miles of Chicago. $100.00

Unless it was a silver coloured offer, no. I'd settle for 'The
Argentinian Offer".

Argentina = noun

Argentine = adjective, describing a type of colour

Argentinian = adjective or noun, pertaining to Argentina.

mike, the pedantic pr*ck....

It's theoretically a circle with a diameter of 99/3.1416 feet, which fits in the part of the back yard you can't see from the patio (important to some). It doesn't seem to mind being around other wire antennas too much. I'm going to start building one twice as big for the roof; I don't think I'll use red 14g wire this time.

60 feet is too short. Even if you have radical bends a longer wire will work better. You could always try the loop.

Leave it to you to make a 99 foot full wave loop of wire complicated.

- mike, the pedantic pr*ck....

Mike,

Well everyone has to be 'good' at some-one-thing
as a-some-one . . .

'Pedantic' is one thing
-and-
'Pr*ck' is another thing

The combination of the two (2) {Pedantic Pr*ck}
would make you doubly in-pecker-able ;;-}} ~ RHF
http://www.urbandictionary.com/define.php?term=pecker
.
-ps- enjoy 'being' "you" {like-your-self}
.
.

Well - yes, it's too short - and yet it still overloads all of my
radii with signals from 50 kW 1100 AM about 2 miles away...and that's
just the beginning. RF Hell is right here.

I do have a QSL from them though, and for a signal that was
considerably weaker than this one :-)

Does it mind running within about 10 feet of an electric residential
feeder wire?

- Bruce Jensen, CA, USA

"CA" is a big place north to south
"SF Bay Area, CA, USA" would be nicer :o)
.
- R75 & 60 foot random wire

BpnJ is this "60 foot random wire" your
newly built Shortwave [SWL] Antenna ?
-or- an older existing Shortwave Antenna ?

? I thought it was an Inverted "L" Antenna !
-not-just-a- Straight Horizontal 'Flat' Wire Antenna ?

IF the newly built SWL Antenna is
an Inverted "L" Antenna ?

How many Feet in the Up-Vertical-Leg ?
-and- How many Feet in the Out-Horizontal-Arm ?
=Total= Combined Feet of the Antenna Wire
+Plus+ The general 'Lay' {Direction} of the Horizontal
Antenna Wire from the the Up-Vertical-Leg out to the
Far-End of the Out-Horizontal-Arm : N & NE & E & SE
& S & SW & W & NW & N

The survey I conducted said 94 percent of them forgave you immediately.
Five percent weren't sure and the remainder swore to kill you, should
you ever become Generalissimo. You're doing far better than the incumbent.

The red is perfect. Disguise it as Christmas lighting by putting some
multi coloured LEDs around it. Only a true Grinch would complain about
Christmas lights being left up (but turned off) year round.

ho ho ho....

It's the new one. Well, yes, that's right, an inverted L. The
vertical is about 30 feet, the horizontal about 60. Oriented nearly
north-south (not checked with a compass), far end is south. Guatemala
is off the forward left side if you looking the direction the antenna
is aimed.

How much does the 30 vertical do for you, other than collect
vertically polarized QRM? The only reason, really, I built it this
way was to allow the 9:1 antenna unun to be mounted near ground (the

ground is not in place yet, but will be soon). Otherwise, I would have put the whole thing up high, or possibly sloped with the unun end down.

This morning (1800z onward), the VOA relays from MDG and BOT (Africa) on 16 and 19 meters were coming in almost like locals.

Bruce

Once you get your ground in place, experiment with variations of the
installation.

You do have a quite a bit of antenna, there. Verify that you've not
got too much. Look for images, indicating overload. A pad may be required.

Oh, I have overload for sure - I need that attenuator certain times of
day. Not sure what I can do for variations? After I get the ground
in, the only thing left to add is the Isolator and that's it. Gotta
be honest - any less length/height and I won't hear a damn thing below
5 MHz, and those are my favorite bands by far. The weakness of those
bands compared to anywhere else I've lived is ridiculous.

A large full-wave loop for 90m would be great. Almost impossible to
fit, but great.

If this does not work, I am just going to buy myself 1,000 feet or
wire and head for the most remote beach I can drive to. Ron Howard
has great results over at Asilomar near Carmel.

Is the reception decent on 80m? I bet it's killer on 30.

291. XT2RJA operating from Burkina Faso

Newsgroup: rec.radio.shortwave
Date: 2011-02-06 03:15:25 UTC

Message-ID: <3aea5639-86a1-44e4-bb3c-04977a2e6174@glegroupsg2000goo.googlegroups.com>
Source record: 219244

From DX World:

For the next couple of weeks, Jon K3QF will be signing XT2RJA from Ouagadougou, Burkina Faso. Already active on 20m CW & 40m PSK, he hopes to be QRV on other bands too, including 160m.

Jon is using LOTW and he's had a big signal here on the East Coast of the US at times, particularly on 30 meter CW.

Here's your chance to get Burkina Faso in the log.

292. Re: Tierra Del Fuego on my new loop antenna

I use a loop too, but it's only about a meter in diameter...yes, a magnetic loop. I love it!

90 feet is way better than 60 feet. Sunspots have been sucky.

I made it for my 30 m autospotter. It's noisy on 80, very quiet on 30.
On 80 I don't think it has any radiation resistance being less than a
half wave and balanced. If you have a rotator or don't mind doing
yourself you can make killer receive only loops only a couple feet
across. I wanted something I didn't have to aim.

>
> > iwtk ~ RHF
> > .
> > .

- It's the new one. Well, yes, that's right, an inverted L. The
- vertical is about 30 feet, the horizontal about 60. Oriented nearly
- north-south (not checked with a compass), far end is south.
Guatemala

- is off the forward left side if you looking the direction the
antenna
- is aimed.

BpnJ,

'The Antenna's Size' is "The Antenna's Size" : A Fixed Point
-how-ever- as the Frequency Varies for 500 kHs to 1 MHz
to 2 MHz to 4 MHz to 8 MHz to 16 MHz to 32 MHz
the Propagation Characteristics of the Antenna ~change~
So having the Vertical-Up-Leg as your Starting Reference
Point and your Far-End as your End-Point should/would
allow you to have an Idea {Hunch} about the Receiving
Properties of your Fixed Size Antenna on any given
High {Shortwave} Frequency [HF].
.
.
- How much does the 30 vertical do for you, other than
- collect vertically polarized QRM?

How better to get to your 60 Foot Out-Horizontal-Arm
1/3rd Omni-Direction Vertical Antenna
+plus+
2/3rds Off-the-Sides Horizontal Antenna*
-and- 45 Degree Out-from-the-Sides Horizontal Antenna*
-and- Off-the-End Horizontal Antenna*
* Depending on the Frequency
.
- The only reason, really, I built it this way was to
- allow the 9:1 antenna unun to be mounted near
- ground (the ground is not in place yet, but will be
- soon). Otherwise, I would have put the whole thing
- up high, or possibly sloped with the unun end down.

Close to the Ground is 'good'.
.
- This morning (1800z onward), the VOA relays from
- MDG and BOT (Africa) on 16 and 19 meters were
- coming in almost like locals.
-
- Bruce

Strong Signals and less noise is good too :o) ~ RHF
.
.

- Otherwise, I would have put the whole thing up high,
- or possibly sloped with the unun end down.

Better would be to have the Feed-in-Line running
4"~6" below the Ground directly under the Wire
Antenna Element all the way out to the UnUn and
Ground Rod; with the Antenna Element Sloping-Up
back over the 'lay' of the Feed-in-Line.

With seemingly poor condx earlier, The Cross, 4755.4, came up to the best level that I've ever heard them so far at 1245, right near my local sunrise.

ID by woman at 1158, mentioning midnight, and it seems as before that their clock is a minute or two off.

Why not elevate the transmission line overhead and implement a switching arrangement to turn the mess above into a delta loop if needed for fun and education on certain bands. What would the circumference be??

Liberty Net: January 29, 2011

http://3950.net/2011/02/liberty-net-january-29-2011/

by Kevin Strom, WB4AIO

THE LIBERTY NET continues to become more and more well-known, with numerous new stations hearing about us and checking in every week. The Net Control Station, W1WCR, maintains a list of check-ins and everyone gets his turn ï¿½ but with the large number of newcomers, that can sometimes take an hour!

Hereï¿½s my summary of just a few of the topics discussed this time on amateur radioï¿½s most exciting net:

ï¿½ Isnï¿½t it ironic that Obama is scolding the Egyptian government for cutting off the Internet, while at the same time the Washington regime is demanding a law that gives the executive branch an Internet ï¿½kill switchï¿½ that would do exactly the same thing in this country? (1 hour 9 minutes)

ï¿½ A professor at the US Naval Academy (USNA) says that his school will ï¿½do anythingï¿½ to attract and promote non-White students. He says that there is a two-tiered system in place under which non-Whites are given easier assignments, enjoy lower admission and promotion standards, and receive free ï¿½unlimited tutoringï¿½ that White students arenï¿½t allowed to get. The USNAï¿½s commander admits as much, saying that ï¿½diversityï¿½ is the Academyï¿½s ï¿½number one priority.ï¿½ (1 hour 32 minutes)

ï¿½ Not only does the Washington regimeï¿½s ï¿½citizen spyï¿½ program result in numerous false alarms including malicious fake reports ï¿½ not only does it put out propaganda characterizing dissidents as suspicious ï¿½potential terroristsï¿½ ï¿½ but now a bill has been introduced to prevent those who have been falsely accused from suing their accusers. (1 hour 37 minutes)

ï¿½ Is Glenn Beckï¿½s recent odd behavior a result of his wanting to create a buffer between his former opposition to Obama and a future Beck ï¿½ and future Fox News ï¿½ that will be more supportive, possibly of a ï¿½war presidentï¿½ Obama? Does this signal a change in the establishmentï¿½s disinformation strategy at a high level? (2 hours 21 minutes)

ï¿½ Andrew Jackson heroically fought to keep the international bankers from taking over America, and suffered assassination attempts as a result. Why, then, is he being attacked by Rupert Murdochï¿½s talking

head Glenn Beck? (2 hours 35 minutes)

ï¿½ Expect Egyptian criminals and members of violent Egyptian sects to be resettled here soon, as one result of the collapse of the puppet government there. The regime in Washington has regularly done this sort of thing ï¿½ think of George W. Bush bringing Somalians to Maine, for example ï¿½ in order to destroy Americaï¿½s unity and wipe out our founding stock. (3 hours 45 minutes)

ï¿½ While the world was watching Egypt ï¿½ and while hundreds of thousands of American taxpayers became impoverished ï¿½ the taxpayer-funded criminals at Goldman Sachs, including the infamous Lloyd Blankfein, quietly tripled their salaries. (3 hours 59 minutes)

ï¿½ Since the American people were tricked into accepting the illegal Federal Reserve, they are not morally or legally responsible for any of its debts. The day that we awaken and realize that fact will be a great day in American history. (4 hours 4 minutes)

For a full Liberty Net immersion experience, in addition to listening over the air, log on Saturday evenings beginning at 10PM Eastern for live audio feeds of the Net (sometimes from several stations simultaneously) and live text chat too at http://stickam.com/thelibertynet via N2SAG.

All our thanks go to N2SAG and N2IRJ and especially W1WCR for their hard work which makes the Liberty Net and its Internet adjuncts possible. Remember, you can download the Net right here at http://3950.net and listen in your gym or on your way to work or anywhere you choose.

Yepp, but then it's a lot harder to get the thing grounded. Either
way, you still get a more omni pattern.

That is a very complicated subject. Usually a wire close to the ground has a pattern between a kaleidoscope and a butterfly on acid. Seriously, like a butterfly more often than not, with various lobes and nulls depending on the frequency.

Let's not forget the fast growing fields of Motel management, taxidermy or locksmithing. Parents who are too stupid to give value to a College education should really consider the alternatives.

Anyone too dumb to get a Locksmithing certificate could always get into the Navy, I suppose. From what I hear, being Gay, while not mandatory, helps you get accepted immediately.

All things considered, A College graduation seems preferable.

> > -
> > - Bruce
>
> Real slopers have the feedpoint at the top.

Dave a "Sloper" Antenna gets it's name from the
fact that the Wire Antenna Element is 'Sloping' :
There are many 'types' of so-called "Sloper" Antennas
-and- Many 'configurations' of so-called "Sloper"
Antennas
-all- Built for a specific Radio Listening {Broadcasting}
needs and equally practical 'design' considerations.
.
Amateur Radio Operators [Hams] with an existing
Tower 'Mast' : Found that the could also use the
available 'Mast' as the Upper Rigging-Point for a
Half-Wave "Sloper" {45*} Antenna also using the
Grounded 'Mast' as a back-reflector.
http://www.wd0m.com/image/antennas/Sloper%2040.jpg
The HAM "Sloper" Antenna can be directional
on specific Ham Bands.
.
The HAM Half-Wave "Sloper" {45*} Antenna is :
~50% Horizontal & ~50% Vertical Polarized
http://members.shaw.ca/ve7sl/sloper2.gif
.
The Shortwave Radio Listener [SWL] "Sloper"
Antennas assumes that the SWL does not have

an existing Tower 'Mast'; and the SWL "Sloper"
http://www.universal-radio.com/catalog/sw_ant/5062dia.jpg
Antennas use a Vertical 'Down' Wire that can be
used as an artificial Radial {other half of a dipole}
or can be Grounded as a Ground Reflector.
http://www.universal-radio.com/catalog/sw_ant/pg29d1a.gif
* Most SWL "Sloper" Antennas are slopped at ~ 30* :
~75% Horizontal & ~25% Vertical Polarized
* Most function as Quarter-Wave "Sloper" Antennas
* Most have a High Feed-Point 25~30 Feet and a
Lower End-Point 8~10 Feet {this is to keep the
Lower End-Point 'over-head' and not a Hanging a/o
Tripping Hazard}
* The SWL "Sloper" Antenna is generally 'omni'
directional across the SWL [HF] Bands.
http://www.universal-radio.com/catalog/sw_ant/0013.jpg
.
An 'alternative' HAM and SWL "Sloper" Antenna is
Fed from Ground Level and Rigged-Up-To A High-Point
{For all those who do not have existing Towers 'Masts'}
with the Coax Cable running under the 'lay' of the
Antenna Wire Element -or- a Ground Radial running
under the 'lay' of the Antenna Wire Element.
http://www.hard-core-dx.com/nordicdx/antenna/wire/sloper_large.html
-read- "Sloper Antenna Tests" -by-Mark Connelly [WA1ION]
http://www.hard-core-dx.com/nordicdx/antenna/wire/sloper.html
-image-
http://www.mds975.co.uk/Images/amateur_radio/top_band_antenna_01.jpg
-image-
http://www.mds975.co.uk/Images/amateur_radio/top_band_inverted-L_01.png
.
For want of a better name... a sloper is a Sloper
is a SLOPER . . .
.

Bruce:

I have EZNEC, which is a very good antenna modeling program. I
modeled your antenna for various frequencies and created a fairly
readable 3D plot of its pattern on various frequencies. In each
case, the horizontal wire points in the opposite direction from the
Y axis shown in the plots:

1 MHz:
http://liberty.3950.net/Jensen%201.PNG

5 MHz:
http://liberty.3950.net/Jensen%205.PNG

6 MHz:
http://liberty.3950.net/Jensen%206.PNG

7 MHz:
http://liberty.3950.net/Jensen%207.PNG

10 MHz:
http://liberty.3950.net/Jensen%2010.PNG

15 MHz:
http://liberty.3950.net/Jensen%2015.PNG

17 MHz:
http://liberty.3950.net/Jensen%2017.PNG

22 MHz:
http://liberty.3950.net/Jensen%2022.PNG

With all good wishes,

Kevin, WB4AIO.

>
- - Better would be to have the Feed-in-Line running
- - 4"~6" below the Ground directly under the Wire
- - Antenna Element all the way out to the UnUn and
- - Ground Rod; with the Antenna Element Sloping-Up
- - back over the 'lay' of the Feed-in-Line.
- -
- - ~ RHF

- Why is the alignment important?

BpnJ : ? Alignment = Lay-Out = By-Design !

Many Types and Configurations of "Sloper" Antennas
http://groups.google.com/group/rec.radio.shortwave/msg/087a96ab218b8103

NOTE : The "Sloper" Antenna normally needs a better
more consistent Earthen Ground under it than an
Elevated Horizontal "Flat" Wire Antenna.
* The "Sloper" Antenna is more of a 'Ground Reflective'
Aerial
* * The Elevated Horizontal "Flat" Wire Antenna is more
of a 'Free Space' Aerial. {Higher Up and Away from the
Earth 'Ground'}
.
Counting The Design Benefits :
Many 'design' considerations can go into the Design and
Lay-Out of an Antenna {Aerial} : Where 1+2+3+4 can
simply do not add-up to 10 -but- multiply up out to 24 :o)

1 - Buried the Coax Cable in a Trench 4"~8" in/under
the Earthen Ground {Reduces the potential RF Noise
pick-up from the Coax from the Antenna into the House}

1A - Placing a bare Copper Wire in the Trench with the
Coax Cable and 'connecting' the Wire to the Feed-Point
Ground Rod -result- a Consistent Ground Path.

2 - Puts the Feed-Point Away from the House
{Away from the 5 Feet 5 Metre Envelope of RF
Noise around the House -a-la- Wellbrook layout}

3 - The Buried Coax Cable acts as a uniform {unified}
Ground Radiator {Reflector} directly under the Lay of
the Wire Antenna Element.

4 - The Ground Rod {Feed-Point} is removed from the
House. {Away from the 5 Feet / 5 Metre Envelope of
RF Noise around the House -a-la- Wellbrook layout}

5 - The Matching Transformer [MT] can be Mounted
directly on to and Grounded directly to the Ground Rod.
{Optimum Grounding}

5A - Using a Line Isolator near the House with a 2nd
Ground Rod along with the "MT" on the Feed-Point
Ground Rod 'unifies' #1, #2, #3, #4 & #5 above.

5B - Placing a bare Copper Wire in the Trench with the
Coax Cable and 'connecting' the Wire to both Ground
Rods -result- a Uniform {Unified} Ground System.

6 - The Remoted/Removed Ground Rod and Feed-Point
put's your 1st Lightning Strike/EMF Grounding {Earth}
Point away from the House {Better Safety for those in
the House} Plus the Electrical Path from the Ground
Rod Feed-Point to the House is under/in the Earth
{Ground}.

7 - The Antenna Wire High-Point Rigging-Point can be
away from the House. {Away from the 5 Feet / 5 Metre
Envelope of RF Noise around the House -a-la- Wellbrook
layout}

8 - Alternative Design "Lay-Out" : Run the Coax Cable
out away from the House out to near {3~6 Feet} a
Fence/Lot-Line.
* Put your Ground Rod there along with your Matching
Transformer [MT] Mounted directly on to and Grounded
directly to the Ground Rod. {Optimum Grounding} .
* Find/Establish/Erect a High-End / Rigging-Point for
the End of the Antenna Wire. {Rig the Antenna Wire}
* Trench a single bare Copper Ground Radial {Reflector}
directly under the Lay of the Antenna Wire and connect
it to the Ground Rod.
.
Simply applies the Design and Lay-Out Concepts of
the Wellbrook 'Correct-Way' Inverted "L" Antenna to
the "Sloper" Antenna for Shortwave Radio Listeners
[SWLs]. =:= http://www.wellbrook.uk.com/longwire.html
.

Wow! These are amazing! Thanks, Kevin. I am somewhat surprised, though, by the apparently omnidirectional character (at least horizontally) on the lower freqs. The higher end looks like a mathematical nightmare!

One thing notable too, is the lower angle of radiation on the higher freqs. I wish I could attain those on the lower ones - but the only way to do that is go higher, I guess.

The sloper's a vertical and needs a bottom half. Grounds work better 6
feet in the air than 6 inches below the earth. All antennas are dipoles.

- Because all those jobs are in China and India these days.
- Teach your kids nursing or air conditioning repair.

The Shrinking List of "Non" Exportable Jobs :

1 = IRS Tax Collector {Federal Government Jobs}

1A = US Military {Federal Government Jobs}

1B = State Tax Collector {State Government Jobs}

1C = County Tax Collector {County Government Jobs}

1D = City Tax Collector {City Government Jobs}

2 = Public Schools Teachers & Staff

3 = Public Utilities Staff Jobs

4 = Medical & Health Care Staff Jobs

5 = Industrial Service & Maintenance Jobs

5A = Residential Service & Maintenance Jobs

6 = Tourist & Hotel Industry Jobs

6A = Food & Restaurant Industry Jobs

7 = Transportation Industry Jobs

8 = Consumer & Merchandising Jobs

Everything else and you are getting behind
the # 8 Ball - imho ~ RHF

There seems to be a need for persons counting, of all things, homosexual discharges in the US Navy.

http://www.fas.org/sgp/crs/natsec/RL30113.pdf

One has to wonder if the counters get wet or diseased during these 'discharge' tallies. We'll check with Steve (...kiss me, Horatio) Lare when time allows.

well, if it's at the maximum point of the sine wave, it should be p =
e^2 / r, or e^2 = 100*75, or e = root (7500) = 87 volts

I'm now wondering where the screw up is....I'm assuming a 75 ohm loading.

Cross-posted to: rec.radio.shortwave,soc.culture.canada

The Canadian - February 6, 2011 - by David Stein

Security Perimeter: Harper governmentï¿½s Big Lie to Canadiansï¿½ and Americans

I am a retired teacher in law warning both Canadians and Americans who would like to defend their independence as sovereign peoples, about the so-called ï¿½Security Perimeterï¿½. It appears that both the Stephen Harper government in Canada, an the Barack Obama ï¿½regimeï¿½ in the United States, are purusing an agenda to decieve people on both sides of the ï¿½current borderï¿½.

Legally, there is no such thing as the kind of ï¿½common security border arrangementsï¿½ which these leaders describe, that would affirm the independence of Canadians and Americans from each other, in international law.

It is apparent that Stephen Harper and Barack Obama are talking in deceptive legal fictions designed ï¿½fool the massesï¿½ who are not schooled in law.

Just as colonial elites of Europe sought to fool the First Nations of Canada, and the United States with ï¿½treatiesï¿½ with no legal integrity, the descendants of those elites have sought to hatch a similar scam.

It is apparent to borrow words of the First Nations, that these leaders and their operatives ï¿½are speaking with forked tonguesï¿½.

When Stephen Harper and Barack Obama refer to ï¿½common security border arrangementsï¿½ they actually mean ï¿½NO BORDERï¿½.

There would no longer be an international boundary between the United States and Canada, if the United States government through Homeland Security effectively controlled the Canadian border, along with national security arrangements and the oversight of the implementation of domestic laws including those on privacy.

The Harper government is selling-out the complete package of the remainder on Canadian sovereignty, while having the audacity to claim the Agreement they pursue with the American president, ï¿½has nothing to do with sovereigntyï¿½.

The Harper governmentï¿½s claim according as defined by the Canadian Criminal Code, is nothing short of ï¿½treasonï¿½.

Wikipedia notes than in Oranï¿½s Dictionary of the Law (1983) defines treason as ï¿½ï¿½[a]ï¿½citizenï¿½s actions to help a foreign government

overthrow, make war against, or seriously injure the [parent nation].ï¿½

For Americans, the so-called North American Union would amount to the replacement of the American Constitution with a continent-wide neo-fascist state presided by the elites who act as the puppeteers of the Obama regime.

It is apparent that both Stephen Harper and Barack Obama are students of the technique which Leo Strauss called the ï¿½Big Lieï¿½. Leo Strauss was ironically a Jew, who was inspired by the ï¿½Big Lieï¿½. Accordingly, tell a lie that is so big, that no one would believe you could ever be lying.

Stephen Harperï¿½s claim that the legal fiction of the so-called ï¿½North American Security Perimeterï¿½ has ï¿½nothing to do with sovereignty is laughable. The Stephen Harper government according to Dr. John Lashï¿½s insights on metahistory.org could be considered a government of ï¿½archonsï¿½ which in turn is being propped-up by opposition parties infiltrated by archons, and a mass-media under the apparent spell of archons.

But What Does Any Cohesive Society Need to be a
well balance and fully functioning Nation of People :
as low as 25%?; an ever 50%? or as much as 75%?
College Educated Individuals ?

For every Teacher you need a Supermarket Clerk.

For every Lawyer you need a several Policemen.

For every Doctor you need a few Plumbers.

For every Engineer you need a few Carpenters.

For every Scientist you need a few Garbagemen.

For every Journalist you need a many Retail Clerks.

For the many many Hungry you need a few Farmers.

For every Government Employee you need a Tens of Tax Payers.

Generally the number of Individuals needed by a
Nation/Society to have an Over-Educated Cadre
to in the over-all 'mixed' of Educated, Skilled and
un-skilled members of that Nation/Society is
around 15% [~1-in-7].

The Individual's Want/Desire for an Education;
Income and Status -versus- A Nation/Societies
Need/Requirement for Appropriate Numbers of
Educated, Skilled and un-skilled members of that
Nation/Society to have a Very Efficient and Fully
Functioning Society that is beneficial to all it's
constituent members.

If you refuse to hire professionals you end up with stuff like this.
People who guard our safety should be well educated and well paid.

The geniuses would outsource the job to the North Koreans. As it is,
many of the Southern US states have Asian call centres handling their
Welfare case enquiries/complaints.

Not much surprises me any more.

No doubt, you need people who are not just the highly skilled and talented - but everyone needs a decent living too. It's pretty hard to survive on a grocery clerk's wage here in California...or a teacher's, for that matter. I know quite a few who are struggling right now, and many are seeing their wages drop.

What I think is seriously screwed up is that movie people (actors, directors) and sports figures and other quite nonessential people get gabillions of sheckels while the teachers and trash collectors and small farmers have to scrape by on whatever salaries they can get. I like a good movie as much as the next guy - but on balance, I'd rather have my kid get a good education (which he is getting, thankfully,

despite the gross disparities).

How many different ways can a person be an idiot?

December 7, 1941, not February.

Hollywood : Talent Follows the Money
-and- Money Follows the Talent ~ RHF

The Key Thing is an Education System that Teaches
from a very early age to the last day of school that Each
and Every Person-in {Citizen-of} a Society is Honored
and Respected for Their Individual Contributions :
{Greater Expectations and a More Diverse Outcome}
A College Education Is NOT For All :
NOT Going To College Does Not Make You A Failure :
A Good Life Is A Good Life :
Meaningful Work Has Meaning :
Everyone is Important.
-yes-it-is-that-simple- ~ RHF
.

- Let's not forget the fast growing fields of Motel management,
- taxidermy or locksmithing. Parents who are too stupid to give
- value to a College education should really consider the
alternatives.

Mike [M II],

Parents who realistically evaluate their Children's Abilities,
Talents, Skills and 'Potential' -and- Should Actively Guide
and Encourage their Children throughout the Child's Life
to Be The Best That They Can Be -and- Be Good At What
They 'Choose' To Do -and- Be Happy To Be Themselves.

-cause- College and a College Education :
Is NOT The Answer For All
-cause-one-size-does-not-fits-all- ~ RHF

? How Do You Define "Success" ! :
College Education = Money/Income = Status/Success
{All Material Things Often With NO Real Human Value}
.
'A Simple Good Life' -is- "A Simple Good Life" :
Family Friends plus the Abiltiy To Care for Yourself
and Provide for the One's You Love

love + laughter + joy ~ RHF

- Bruce, could you check 1480 Khz AM?
- I think it's from Texas. Spanish speaking.
- I got it some months ago, but not much luck lately.
-
- mike

Mike,

Heard faint 'French' in-and-out for about 10~15 Minutes
on 1480 kHz around 9:30 PM PST {local} with several
English Stations in the mix -but- NO Spanish.

- Squeeze it in a bit into an elongated diamond shape, and put a
terminating
- resistor in the middle, you have a rhombic... very nicely
directional. And
- you can put them virtually on the ground. Probably not as broadband
as your
- loop, though. Have you tried putting a variable cap on yours to tune
the
- resonant point?

Dave,

Instead of running the Coax Cable up to the Wire of the
Loop Antenna and Feeding the Loop Antenna at the Top.

Try Feeding the Loop at Ground Level with 450 Ohm
Ladder Line or 300 Ohm Twin Lead from the LDG Balun
located on the Ground up to the Wire Loop Antenna.

It seems to have developed a reputation as a place where spammers and others of their ilk post from. They think it may give them a sense of anonymity. It may not be of benefit to your message if people were to perceive you were trying to hide something.

I know you're not, but someone less familiar with your perspectives may fall into an erroneous conclusion.

That's basically my view on it and is subjective in every way...

Gawd I hope you're kidding. The feed point is under the fascia out back. It is maybe 9' up. The BalUn is hanging on a screw hook with either end of the loop held in place by staples and attached to the BalUn. A 10 year old prefab 50' Radio Shack RF cable goes to my MFJ feedthrough.

It works great on 10.140 MHz and above, below that the noise-reduction capabilities suffer.

I do not want a rhombic antenna. I have a steerable vertical array.

RHF,

I agree totally. But today's occupational instruction must be far more detailed and technical, requiring career education and training far beyond high school, if the US is to stay competitive with the rest of the world. Top needs include: Technological repair, robotics, CAD, IT networking & security, advanced math, and info management skills. We need more of those degrees than we do poetry majors.

Mike Bryant,
the anti-Lare

> Ah, Steve Lare, RRS's own Demosthenes....

Demosthenes? Demosthenes Lareos? Isn't that the ancient Greek who got booted out of the Navy for gross misconduct? Seems he was using mirrors to focus sunlight on the clothing of his fellow mariners, when the scorched garments were removed, he could see how well they were endowed.

Then, he'd walk up to them with his unlit lantern and ask for a light. Millennia later, the pick up phrase "Got a light, Sailor?" can still be heard on waterfronts worldwide.

On a related note, the phrase "Larengitis" also appears in the ancient Greek. It's named after the same sailor. He would develop severe throat infections immediately after landing in a port. Every time. When his Captain found out just HOW this was happening, he had 'σας φυσώ' Lareos thrown off the ship. The word has been mutated into Laryngitis over the centuries.

The Greeks have had an extremely difficult time trying to overcome the foul reputation this pervert has bestowed on their navy and Sailors.

Okay, thanks. Do aioe.org and x-privat.org and tioat.net have
similar reputations? They seem to be the only easy and free ways
(besides Google Groups, whose interface and censorship I find
intolerable) to get the discussion groups on Usenet these days.

I actually didn't much like eternal-september's servers -- difficult
to make it work with my newsreader and unreliable too. The reason I
was experimenting was because my preferred provider had an outage.

With my best,

Kevin, WB4AIO.

You're welcome.

Well, the omni pattern an octave or so around the quarter wave
resonance isn't too surprising, really, if you think about it.

The vertical section gives omnidirectionality in the horizontal
plane, but a null directly overhead. The horizontal part fills in
that null and is basically elliptical in the horizontal plane. So
they complement each other to produce an almost-omni pattern. Nice

antenna, really. My 150-foot inverted L was one of my favorite antennas of all time for 75 meter ham use.

You might be able to enhance the low angles with a radial ground system, but for receiving on the noisier low bands you might not be able to perceive any improvement beyond higher S-meter readings. A beverage antenna would give you low angle directivity, as would a K9AY loop.

> The higher end looks like a
> mathematical nightmare!

That's the psychedelic butterfly pattern that Dave was talking about.

>
> One thing notable too, is the lower angle of radiation on the higher
> freqs. I wish I could attain those on the lower ones - but the only
> way to do that is go higher, I guess.

If you want to suppress the high-angle part of the pattern (and make nearby North American signals and static weaker compared to the farther DX), going strictly vertical would help. A horizontal antenna a half wave up has a similar effect (that's up about 100 feet for 60 meters).

Have fun,

Kevin, WB4AIO.

Well, you know I am professor, Steve. Remember calling my Dean? What a loser! What did they say when you told them I lied? They still laugh at that attempt.

We shouldn't tax Steve's limited supply of retorts.

Dave -when- {{-;; 'i' kid : "I" KID ;;-}}
http://k9zw.files.wordpress.com/2007/06/parabol.gif
.
Speaking of a Rhombic Antenna :
Simple Loop Antenna -to- Rhombic Antenna
http://en.wikipedia.org/wiki/Rhombic_antenna
Switch-Over is to do the same basic thing at the
Far-End {Corner} from the Feed-Point.
http://www.tpub.com/neets/book10/NTX4-37.GIF

Break the Loop Antenna Wire at the Far-Corner and
Install a piece of 450 Ohm Ladder Line or 300 Ohm
Twin Lead across the Break.
http://www.davisrf.com/ladder.php
Run the Ladder Line from the Wire Loop Antenna down
to an 800* Ohm Resister mounted at Ground Level.
* Try 300 & 450 & 600 & 800 & 1200 Ohm Resisters.

Also place a SPST Normally 'Closed' Relay across
the Break in the Loop Antenna Wire at the Top of
the Ladder Line.

* NO Power to the Relay it's a Loop Antenna {Default}
* Power "On" to the Relay it's a Rhombic Antenna
http://www.packetradio.com/images/rhombic.jpg

Note : Power to the Relay can come all the way
from the Radio Shack with the flip of a Switch
-or- You can walk-out to the Far-Corner of the Loop
Antenna and have a Battery and Switch there to do
the change-over.

Your Full-Wave 'Omni' NVIS Loop Antenna can become
a Directional Rhombic Antenna with the flip of a switch.

Another 'alternative' Experiment here is to use Two (2)
Resisters of Equal Value in Series 1000* Ohms Each
= Total 2000 Ohms Ground. Across the Bottom End
of the Ladder Line with the Center Joint of the Two
Resister Grounded. {500 Ohms Series to Ground}
* Try Pairs of 1000 & 2000 & 4000 Ohm Resisters.
"IT"s a Twin Terminated 'Mini' Beverage Antenna -of-sorts-
http://www.seed-solutions.com/gregordy/images/BevSchem.gif

Also place a DPDT Normally 'Closed' Relay** across
the Bottom of the Ladder Line.
* NO Power to the Relay it's a Loop Antenna {Default}
* Power "On" to the Relay it's a Twin Terminated
'Mini' Beverage Antenna
http://en.wikipedia.org/wiki/Beverage_antenna
** Normally 'Closed' Relay :
One Pole Shorts-out the Ladder Line at the Bottom
and Completes the Loop.
Other Pole Opens-Up the Ground Path to the Resisters
at the Bottom of the Ladder Line and Floats the Loop.

iane ~ RHF
.
.
1TRA : Terminated Rhombic Antenna is a Kit of Parts
for Building the best of the Wire type Antennas

Thanks!

I had a bad time with it and Mozilla Thunderbird.

But my preferred provider is back up again, so all is happy.

All the best,

Kevin, WB4AIO.

> the anti-Lare

MWB,

The basic 'attitude' of the Educational System has
to change from Everyone is on the College Track :
To Everyone Is On A Meaningful Career Track

Prez-A-DuntzUs Bush, Clinton, Bush and Obama
all 'promised' more Money Funding and Resources
for Occupational, Technical and Trade Post High
School Education and NONE Delivered.

The basic Foundation for Post High School Education
in the Middle / Junior-High Schools and High Schools
has been ELIMINATED by removing most/all of the
Occupational, Technical and Trade Classes; and only
keeping the pre-college courses. Real Diversity in Public
Education has been GUTTED in American Schools.

The Chinese and Indians know what they need for an
Efficient and Productive Society and with the ~1-in-7
being groomed to go-on to College and the other ~6-in-7
being groomed to become Useful and Productive Members
of 'Their' Society with Meaningful Careers and Good Lives.
{Positive Social Values Reflecting Their Society}

IF The USA and American Education want to Compete
with the Chinese and Indians in the 21st Century :
They Must Adapt and Change To Be As-Efficient and
As-Productive as Their Chinese and Indian Competitors.

College Higher Education is as Service Business With a
Limited Set of Customers and a Long {Years} Production
Cycle : It' In Itself Can NOT Drive and Fuel an Economy [.]
It Is A Means To An End : A Productive Nation/Society
Proving Meaning Careers and Employment for It's People :
Where All 'Feel' It's A Good Life and a Fair Society.

america teach your children well ~ RHF

I have so often thought about a vert - could put a couple up in small
areas, easily, each opposite corner of the ridgeline, and phase them
together for noise reduction and steering. My neighbors would
probably welcome those in place of the ugly Alpha-Delta DX-Ultra with
coax coil balun that's now hoisted 25 feet up :-)

Luckily a full-wave loop is more stealthy ;-)

Still One Wonder's . . . Where's "The Cuhulin" ?

Not Looking for an Obituary : No dead Larry here

Not Looking for a Tragedy : I wonder if he's fallen and can't get up.

Not Looking for an Oops : Maybe he 'tripped' and can't get down?

just looking for 'the cuhulin' ~ RHF

Maybe "The Cuhulin" when to pay a nice long
visit to the Married Irish Woman wayyyy over
yonder across the Big Pond . . .

Maybe "The Cuhulin" took Blueberry Doggy for a
Walk and they are now 123,456 Foot Steps from
Doggy's Couch . . .

Maybe "The Cuhulin" took a trip to visit his Half
Acre of land in Florida . . .

Then again may be "The Cuhulin" is Glued-To
{Watching 24&7} The TV Radio . . .
.
.

Your opinion. But then, the opinions of those who lie about their academic credentials are to be heavily discounted.

Your 'intellect' got you busted and fired from Weber State. Your 'intellect' caused you to claim to have a PhD. Your 'intellect' prompted you to lie about being arrested. And, your 'intellect' finally deposited you at a little backwater institution known as Sullivan College of Technology & Design.

Movin on up...

Usenet spam used to be more of a problem a few years ago (though rec.radio.shortwave was never affected too much), but it seems to be receding -- along with the popularity of Usenet itself.

I didn't know about aioe's censorship, which is troubling. I only tried them briefly, but their servers were so slow that in the short term I was never quite sure if my posts were really posted or not (sometimes they _would_ be posted even when Thunderbird said the server timed out -- and sometimes not).

With all good wishes,

Kevin, WB4AIO.

I can't imagine what kind of target demographic we're a part of. I've
been here since 1997 and this is the worst the spam gets, which isn't
[knock] bad. Some newsgroups are 10:1 advertising.

I was never fired from Weber State. The penalties for slander while in
the process of internet harassment have changed over the last few
years. I guess we will get to meet face-to-face finally.

I watched the program. Nearly all of the Iowa Republicans responded
that they were CERTAIN that Obama is a Muslim! They supported
democracy for Egypt, only if the Muslim Brotherhood wasn't allowed to
participate. Overall, their understanding of reality appeared
incredibly skewed. Even the FOX commentators seemed shocked at the
responses!

Their understanding of democracy as well.

However, in terms of reproducing - we better by gum get EVERYONE to
stop reproducing. The human race is already wallowing in our own
waste, and we're already paying heavily for it.

FWIW, I have found that this new antenna, even before the unun is
grounded, works *extremely* well on almost all bands for elimination
of electrical hash noise with my DX-Ultra and MFJ-1026. I can lop off
4-8 S-Units of hash noise while scarcely touching the desired signal,
leaving otherwise obscured signals either in the clear or almost so.
It has brought otherwise undetectable signals to easy copy. Right
now, I'm wishing I had room for two of them - I could silence 60 and
90 meters background with them.

Maybe I'll take down the DX-Ultra and put up another one of these.
I'd hate to lose the DX-U (it's great on everything 41 meters and up),
but two matched antennae on the MFJ-1026 would work wonders, I think.

Bruce

Just did a Reception Report on this last night, sent to Seychelles
this morning. I'll let you know if they respond. It worked with
Cyprus!

Protect myself? Damn, you sure are delusional.

Point is, you 'resigned' only to protect yourself from being fired, which is certainly what was going to happen, right, 'tard boy?

You've been repeating the same lies for a decade now. What have
achieved that justifies your continued fixation with me? As many
people have noted, you seem to have a homoerotic fixation on me...

Well, let's test your theory of projection. Let's see who can go the
longest without mentioning the other person. First person to insult
the other, by objective evidence, would be the one with the homoerotic
tendencies. Right? BTW, continuing to call a 53 year old a "boy"
certainly sounds a bit homoerotic...

KAS,

Usually I run two Windows {Tabs} :
One with Forté Agent in it; and the
'other' with Google Groups* in it.

This allows me to Post via Forté Agent when needed;
and Verify within a Seconds at Google Groups that the
Post made it {posted ok}.

Note : Google Groups is now the Host Repository
for most of what was called the UseNet Archives.

Oh, that's right...you discussed that SX-190 at some length. Duh...

And I remember being envious because of it.

So, how does it handle now that you've got a reasonably quiet
antenna on the front end?

And how does it compare to R75?

On Feb 4, Solar flux values forecast by NOAA/USAF were 80 on February 4-8, 78 on February 9-10, then 80, 80, 82, 81, 81, 82 and 88 on February 11-17. So yes, this would appear to either be an error or an unexpected treat.

Bruce

The R75 is considerably more sensitive and/or with a better s/n ratio, given the same antenna system. Things are fairly audible on the R75 that are in the hash on the SX-190. Still, the SX-190 is a bunch of fun. For a bad hum, I need to get either a capacitor replacement on the power supply, or figure out the wiring on the 12VDC plug (an oddly configured 4-prong socket) and see if that does the trick. Also might be some bad caps in the audio chain.

I did not see anything on the sun to justify that number. I did hear a
few stations on 15 meters this morning but they had $20K+ antenna
systems. Unless another sunspot group appears, the sfi will be going
down as the existing group is rotating out of sight.

Tonight we can get the propagation report from Cuba as Arnie Coro will
be on. His forecast is as good as any and he does not have to justify
any solar satellite budgets with ridiculous predictions.

Given its age, a few questionable caps should be expected. A
couple of hours with a fine soldering iron will do wonders.

Heard ABC 'National' on both Frequencies :
6080 kHz and 9710 kHz yesterday last night.

Better was the Russian station on 6075 kHz playing
"Hello Dolly" by LA was more fun listening; especially
with the Russian Host Singing Songing along in Russian.

Heard the SF ATC on 5547 kHz USB here last night
the ATC had a Canada Flight switch over to 6673 kHz
USB : Tuned to 6673 kHz and heard more traffic there.

San Francisco "Air Traffic Control" [SF ATC] Nights :
* 5547 kHz USB
* 6673 kHz USB
5574 kHz USB
8843 kHz USB
.
San Francisco "Air Traffic Control" [SF ATC] Daytime :
10,057 kHz USB
11,282 kHz USB
13,354 kHz USB
.
General Info on HF "Air" Band
ATC = "Air Traffic Control"
http://www.nonstopsystems.com/aviation/frank_aviation_hf_airband.htm

World Wide HF Aircraft Frequencies :
Plus VHF/UHF Aircraft Communications Listening
http://www.hamuniverse.com/aerofreq.html

Dialed-Up and Listened to the "Honolulu Radio"
Volmet on 6679 kHz USB @ H+30~35 giving
the 'local' Hawaiian Islands Weather.
http://www.hamuniverse.com/aerofreq.html
.
"Honolulu Radio" Volmet HF Frequencies :
2863 kHz USB
* 6679 kHz USB
8828 kHz USB
13,282 kHz USB

It sure sounds like it - present at all audio volume levels - but when
the volume is turned up to maximum, at about 3/4 volume the hum gets
louder - that's why I think it may be a combination.

If one can't tell apart a chinese from a japanese-- then he must have
very serious problems ... Obviously, one needs to go back to grade
school in order to learn how to read a map . SHAME on you !

Sufficient power supply ripple alone would keep the RF stages from
working, and the AF stages from amplifying an intelligible signal. It
would also be relatively constant in amplitude.

But a moderate amount of power supply ripple would produce an audible hum regardless of volume setting, and because the ripple is impressed on the preamp stages and at various locations throughout the receiver there would be a variation in audible hum with volume control.

Start by replacing the power supply capacitors. And then replace all the bypass and decoupling caps. And then the interstage caps. Eventually, all the electrolytics will go. You'll be amazed at the difference.

Cross-posted to: rec.radio.shortwave,sci.electronics.design

A mental deficient who has been posting as Josepi and Gimmy Bob has started to forge my user name (m II) and email address in a few groups.

I've sent complaints to his usenet provider and Internet company.

The government will no doubt use the forgeries committed by these juvenile low lifes as an excuse for legislating mandatory Internet identifications.

Don't reply to him and check all headers when in doubt.

mike

A tough looking biker was riding his Harley when he sees a girl about to
jump off a bridge so he stops. "What are you doing?" he asks.
"I'm going to commit a suicide," she says.
While he did not want to appear insensitive, he didn't want to miss an
opportunity he asked "Well, before you jump, why don't you give me a kiss?"
So, she does.
After she's finished, the biker says, "Wow! That was the best kiss I have
ever had, that's a real talent you are wasting you could be famous, why are
you committing suicide?"
"My parents don't like me dressing up like a girl......"

Here is more information I have gathered on this creep for the last seven
years.

My 'GymyBobism' collection...updated daily:
==
some '#' bracketed text added for clarification
all cut and paste, NO modifications of ANY kind
100 % Pure GymyBob. Accept no substitutes!

We need less morons like another clone of Moron II here.
My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject lines changing, intermingled posts and downloading binary files with mixed posts, random pieces and many other problems all the nonOE people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged 13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation first so there is, at least, some stake, like friendship for the person listening. When the friendship is well developed then attack. Not too obvious at first or you will lose your audience. This will enhance your troll points.

I think outside opinions are worth much more than sales hype from the company that made the product.
Referring to *factory* charging specifications for the batteries they make

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way back to the transformer neutral.

A thought I have is rain water from a roof on a three story home through a micro-turbine.

Setback thermostats only work efficiently for small differentials, dependant on the time duration.

Breakers are good for one time usage of one fault and then they need to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully charged. The nicads will be cooked because you keep them on charge, just in case you need them but when you remember them six months later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the diode in 1941 but I am not familiar with the solar panel usage requirements of them. (no P & N substrate explanations please. I wrote the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a 100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you are full of shit.

I am a Protection & Control Tech by profession and have experience
with control systems

Try spelling "bus" correctly! Maybe your brain will start again.
Probaby not, you fucking loser.
Referring to the correctly spelled word 'buss' as used in real
electrical terminology ##
http://tinyurl.com/5ctml

X10 signals are transmitted just after the voltage waveform zero
crossing. This is in order to avoid conflicts with SCR and Triac peak
waveform switching spikes from load type devices such as lamp dimmers.
control module misinformation

Besides when they on any line they will pull of the meter as a
disconnect point.
speaking of power line guys miles away removing YOUR electrical
meter for THEIR safety ##

My workplace has been throwing out huge digitizing pallettes (like 24
x 36" units)
in alt.sewing.mach-embroider

The majority prefers top posting.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve
aluminum does. Overload doesn't make it glow like copper...it flashes
and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up
ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20
horizontal feet. They are made to vent smells and humid air horizontally
only.

Why not spend the money on a contract with the grid company and get an
exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the
US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds
exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals" come and beg for information because they can't our toys do what the good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate lights. They mostly signal my house control computer and it decides what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic symptom.

When confronted with many websites stating the otherwise he won't address the issue but repeats his crap again like a child stamping his feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It was the needles. Find ones that have very little "hip" bump around the eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the same.

I did the chem.cut medication stuff for a few years with my first child and then found Naturopathic Doctors using homeopathy to get more lasting relief.

Homeopathics saved me thousands of dollars for operations I did not have on my children

Accupunture worked for my 1 and two year old children for ailments after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody else here.

See if you can replace it with a thermal acting unit. They have a rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a huge irritant to human digestion and usually results in calcium deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.

See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of
nutrition.

The medical doctors will play the time game and probably just let him
die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat
typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop
but so is insulin for a diabetic. I have stopped taking mine and it
wasn't that bad but after months of regressing I chose to return like
the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky
movements to them.

Make up your mind before you mouth off like the usual Internet piece
of shit. This is a rough group and if you had followed the usual
recommendations you would have known that and have nothing to say
about it.
in misc.kids.health, alt.support.breast-implant,
misc.health.alternative ##

Bad practice to ground yourself when working on electronics. It
increases the chance of injury or death by electrical shock and also
increases the chance of static discharge to the circuit chips. Ground
is a potential too.

Oink...Oink...just take it out. What could be simpler?

This disgusting person gave bad advice in the alt.support.celiac group,
which my wife followed to the letter.

I had to watch her agonizing death over the next few years as a direct
result of this dangerous Gymmie Bob's advice.

This person should be locked up in a mental institution.

I have amassed this over seven year collection of his ridiculous statements
so all can see the wizzdumb here.

My 'GymyBobism' collection...updated daily:
==
some '#' bracketed text added for clarification
all cut and paste, NO modifications of ANY kind
100 % Pure GymyBob. Accept no substitutes!

We need less morons like another clone of Moron II here.
My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject
lines changing, intermingled posts and downloading binary files with
mixed posts, random pieces and many other problems all the nonOE
people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged
13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation
first so there is, at least, some stake, like friendship for the
person listening. When the friendship is well developed then attack.
Not too obvious at first or you will lose your audience. This will
enhance your troll points.

I think outside opinions are worth much more than sales hype from the
company that made the product.
Referring to *factory* charging specifications for the batteries
they make ##

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way
back to the transformer neutral.

A thought I have is rain water from a roof on a three story home
through a micro-turbine.

Setback thermostats only work efficiently for small differentials,
dependant on the time duration.

Breakers are good for one time usage of one fault and then they need
to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty
will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't
flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry
first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully
charged. The nicads will be cooked because you keep them on charge,
just in case you need them but when you remember them six months
later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by
themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the
diode in 1941 but I am not familiar with the solar panel usage
requirements of them. (no P & N substrate explanations please. I wrote
the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps
with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your
house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of
power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a
100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like
your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and work for a medium size electrical utility.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve aluminum does. Overload doesn't make it glow like copper...it flashes and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20 horizontal feet. They are made to vent smells and humid air horizontally only.

Why not spend the money on a contract with the grid company and get an exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate

fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals" come and beg for information because they can't our toys do what the good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would disagree with you.

My house is filled with motion detectors. They don't all operate lights. They mostly signal my house control computer and it decides what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic symptom.

When confronted with many websites stating the otherwise he won't address the issue but repeats his crap again like a child stamping his feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It was the needles. Find ones that have very little "hip" bump around the eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the same.

I did the chem.cut medication stuff for a few years with my first child and then found Naturopathic Doctors using homeopathy to get more lasting relief.

Homeopathics saved me thousands of dollars for operations I did not have on my children

Accupunture worked for my 1 and two year old children for ailments after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody else here.

See if you can replace it with a thermal acting unit. They have a rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a huge irritant to human digestion and usually results in calcium deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of nutrition.

The medical doctors will play the time game and probably just let him die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop but so is insulin for a diabetic. I have stopped taking mine and it wasn't that bad but after months of regressing I chose to return like the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky movements to them.

Make up your mind before you mouth off like the usual Internet piece of shit. This is a rough group and if you had followed the usual recommendations you would have known that and have nothing to say about it.
in misc.kids.health, alt.support.breast-implant, misc.health.alternative

Bad practice to ground yourself when working on electronics. It increases the chance of injury or death by electrical shock and also increases the chance of static discharge to the circuit chips. Ground is a potential too.

Well, you're certainly an example of a 'tard.

Supposedly resigning from a job to be near your mother who is battling cancer and,
oooops, don't have the money to move.

Yes, as a matter of fact! I'm also about to complete my doctorate
in Business Management with an emphasis in Conflict Management.
I'm thinking about doing a dissertation using you as an extreme
example
of dealing with incivility.

Keep posting. Your attitude is irreplaceable!

True - slander and libel is out in a court of law, and inciting chaos
or violence (crying fire in the proverbial theater) is out in civil
life. Everything else deserves protection, don't you think?

Yes. A continuous loop of wire suspended on Dacron antenna rope and wood poles. The actual impedance is closer to 100 Ohms, but I wanted a clean balanced termination more than a power match, per se. A length of RG-6 will transform correctly, but only on a single frequency I think.

It measures less then 3:1 VSWR from 7 to 15 MHz, with a dip to less than 2:1 at 9.900 MHz. It should probably be closer to 98 feet at 12 feet above the ground.

As liberal as I am, I can tolerate certain restrictions in the name of
national security. Bush appointees should have been prosecuted for
violating the law by naming intelligence agents. That's why Bush had
to pardon Scootter Libby.

Well, that's another story - national security. Heck, even I had a
Secret Clearance once. I never saw anything cool (at least that I
could speak intelligently about), but in the job I had there was a
modest chance. Loose lips sink ships!

I do have a feeling that in some cases, however, the designations for
NS are wasted or misused. For important military or key technological
information, sure, and even for protecting errors that could cause
security trouble down the road if they become known - but not for
protecting general screwups, which also seems to be a common use of
the things.

Better check Louisville, KY... now there is a low IQ level. That poor fellow was stupid enough to resign from a job, before he checked his bank account, and discovered he didn't have enough money to move back home.

Now same fellow purports to have some ability to be teaching personal finance.

It's no wonder we're in such financial straights.

JOINT BASE LEWIS-MCCHORD, Wash. -- Workers renovating a fitness center at Joint Base Lewis-McChord made an amazing find dozens of boxes full of old records and radio broadcast transcriptions.

Some 30 boxes were discovered in a 16-inch wall space when workers cut into a gym wall, which used to be part of the Old Madigan Hospital complex.

Officials say among the items discovered were 16" vinyl recordings that date from 1942 to 1960 that contain popular music and programming recorded by the Armed Forces Radio Service and the War Department, which were provided to military radio stations to inform and entertain service members around the world. In all, there were more than 8,000 radio broadcast transcriptions uncovered.

"I was like shocked," said JBLM Archeologist Dave Sadler. "Walked in my office -- great googly moogly."

To illustrate how historically significant the find is, the New York Library only houses 800 of the old records.

The records were played on the Madigan Hospital radio station (KMAH) for patients at the hospital, and include recordings by World War II-era musicians such as Frank Sinatra, Tony Bennett, Eddie Arnold, and Rosemary Clooney. Jazz great Louis Armstrong tunes received considerable air time, and in 1952 he made a personal visit to the KMAH studios.

The base's Cultural Resources Program will preserve these valuable artifacts, and is researching other ways to retain and share the history with other agencies.

Lying Lare,

I don't know where you got your info, but that shows how unreliable
your sources are. Particularly since I did move back to KY within a
month of resigning. Proof of that is also in the RRS archives. At
least I have enough finacial responsibility to support myself without
living off of government disability checks and lawsuits against former
employers, like you do, Mr. Hypocrite!

Some of us have actual jobs and do more than lay around listening to
shortwave 24/7.

Some work, some teach, others suck up gov't resources without adding
at all to America's economy. I think we all know which category you're
in, Steve.

Mike knows who is most likely to be the source of internet
foolishness.

But just look at some of the postings this idiot has done over the last
seven years.

Just read a few and you will probably hate this idiot too.

My 'GymyBobism' collection...updated daily:
==========
some '#' bracketed text added for clarification
all cut and paste, NO modifications of ANY kind
100 % Pure GymyBob. Accept no substitutes!

We need less morons like another clone of Moron II here.
My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject lines changing, intermingled posts and downloading binary files with mixed posts, random pieces and many other problems all the nonOE people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged 13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation first so there is, at least, some stake, like friendship for the person listening. When the friendship is well developed then attack. Not too obvious at first or you will lose your audience. This will enhance your troll points.

I think outside opinions are worth much more than sales hype from the company that made the product.
Referring to *factory* charging specifications for the batteries they make

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way back to the transformer neutral.

A thought I have is rain water from a roof on a three story home through a micro-turbine.

Setback thermostats only work efficiently for small differentials, dependant on the time duration.

Breakers are good for one time usage of one fault and then they need to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully
charged. The nicads will be cooked because you keep them on charge,
just in case you need them but when you remember them six months
later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by
themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the
diode in 1941 but I am not familiar with the solar panel usage
requirements of them. (no P & N substrate explanations please. I wrote
the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps
with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your
house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of
power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a
100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like
your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for
hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and
work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you
are full of shit.

I am a Protection & Control Tech by profession and have experience
with control systems

Try spelling "bus" correctly! Maybe your brain will start again.
Probaby not, you fucking loser.
Referring to the correctly spelled word 'buss' as used in real electrical terminology
http://tinyurl.com/5ctml

X10 signals are transmitted just after the voltage waveform zero crossing. This is in order to avoid conflicts with SCR and Triac peak waveform switching spikes from load type devices such as lamp dimmers.
control module misinformation

Besides when they on any line they will pull of the meter as a disconnect point.
speaking of power line guys miles away removing YOUR electrical meter for THEIR safety

My workplace has been throwing out huge digitizing pallettes (like 24 x 36" units)
in alt.sewing.mach-embroider

The majority prefers top posting.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve aluminum does. Overload doesn't make it glow like copper...it flashes and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20 horizontal feet. They are made to vent smells and humid air horizontally only.

Why not spend the money on a contract with the grid company and get an exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals"
come and beg for information because they can't our toys do what the
good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would
disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate
lights. They mostly signal my house control computer and it decides
what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of
money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for
the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from,
secondary exciting or primary current exciting, the voltage developed
or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where
your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's
house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic
symptom.

When confronted with many websites stating the otherwise he won't
address the issue but repeats his crap again like a child stamping his
feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished
embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine
unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It
was the needles. Find ones that have very little "hip" bump around the
eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on
these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It
beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the
same.

I did the chem.cut medication stuff for a few years with my first
child and then found Naturopathic Doctors using homeopathy to get more
lasting relief.

Homeopathics saved me thousands of dollars for operations I did not
have on my children

Accupunture worked for my 1 and two year old children for ailments
after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody
else here.

See if you can replace it with a thermal acting unit. They have a
rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a
huge irritant to human digestion and usually results in calcium
deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of
nutrition.

The medical doctors will play the time game and probably just let him die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop but so is insulin for a diabetic. I have stopped taking mine and it wasn't that bad but after months of regressing I chose to return like the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky movements to them.

Make up your mind before you mouth off like the usual Internet piece of shit. This is a rough group and if you had followed the usual recommendations you would have known that and have nothing to say about it.
in misc.kids.health, alt.support.breast-implant, misc.health.alternative

Bad practice to ground yourself when working on electronics. It increases the chance of injury or death by electrical shock and also increases the chance of static discharge to the circuit chips. Ground is a potential too.

first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully
charged. The nicads will be cooked because you keep them on charge,
just in case you need them but when you remember them six months
later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by
themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the
diode in 1941 but I am not familiar with the solar panel usage
requirements of them. (no P & N substrate explanations please. I wrote
the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps
with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your
house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of
power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a
100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like
your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you are full of shit.

I am a Protection & Control Tech by profession and have experience with control systems

Try spelling "bus" correctly! Maybe your brain will start again. Probaby not, you fucking loser.
Referring to the correctly spelled word 'buss' as used in real electrical terminology
http://tinyurl.com/5ctml

X10 signals are transmitted just after the voltage waveform zero crossing. This is in order to avoid conflicts with SCR and Triac peak waveform switching spikes from load type devices such as lamp dimmers.
control module misinformation

Besides when they on any line they will pull of the meter as a disconnect point.
speaking of power line guys miles away removing YOUR electrical meter for THEIR safety

My workplace has been throwing out huge digitizing pallettes (like 24 x 36" units)
in alt.sewing.mach-embroider

The majority prefers top posting.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve aluminum does. Overload doesn't make it glow like copper...it flashes and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20 horizontal feet. They are made to vent smells and humid air horizontally only.

Why not spend the money on a contract with the grid company and get an exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate

fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals" come and beg for information because they can't our toys do what the good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate lights. They mostly signal my house control computer and it decides what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic symptom.

When confronted with many websites stating the otherwise he won't address the issue but repeats his crap again like a child stamping his feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It was the needles. Find ones that have very little "hip" bump around the eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the same.

I did the chem.cut medication stuff for a few years with my first child and then found Naturopathic Doctors using homeopathy to get more lasting relief.

Homeopathics saved me thousands of dollars for operations I did not have on my children

Accupunture worked for my 1 and two year old children for ailments after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody else here.

See if you can replace it with a thermal acting unit. They have a rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a huge irritant to human digestion and usually results in calcium deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of nutrition.

The medical doctors will play the time game and probably just let him die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop but so is insulin for a diabetic. I have stopped taking mine and it wasn't that bad but after months of regressing I chose to return like the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky movements to them.

Make up your mind before you mouth off like the usual Internet piece of shit. This is a rough group and if you had followed the usual recommendations you would have known that and have nothing to say about it.

I wonder about the 16" figure. LPs have always been 12", but there were 16 RPM recordings made for various reasons. Could that be what they are referring to?

This sounds like a job for Library of Congress and Smithsonian. To date, they've done a pretty good job with preservation, digitization and dissemination of historic media.

Lawsuit? And, I live off of the SSDI benefits that I paid for every week. Also, the pension that I contributed to every week.

Stuf that up your clown 'tard ass, boy.

Yes, it's odious and deserves wide criticism - but it should be
protected. Unless, of course, you think censorship is a good thing.
I don't.

Hogwash! You resigned within just a couple days of your Oct. 6 bust, and as I recall never returned to Weber State. You had to appear in court on Nov. 27. You were ostensibly 'working' somewhere in the area, trying to save money to move back to Kentucky.

I did not resign on Oct. 6. Try again. I was on the payroll at Weber
State through November. I was in Louisville for my nephew's birth on
Dec. 1. You are not a very good detective. Try again.

BTW, did you call my school again? They seem like someone has scared
them. They took all faculty pictures off the web page and announced a
special seminar on dealing with campus intruders. Are you up to your
old games?

Funny, an article already had you resigned and 'working' elsewhere prior to the end of November.

You're a lying sack, Bryant!

I wonder if this ties in to the ten thousand rounds of Russian
ammunition Lare bought a while back. That's when he claimed to be
Supreme commander of some paramilitary group in Michigan.

With his widely known hatred of Academics, I would be careful too.

- Unless, of course, you think censorship is a good thing.

BpnJ ...so... Naturally You Are Against the so-called
"Fairness Doctrine" -versus- The True Fairness and
Freedom of Allowing All People To Pick-and-Choose
What They : What-To-Listen-To and Not-Listen-To...
-result- Self-Censorship By The Individual
-versus- THE IMPOSED CENSORSHIP OF GOVERNMENT

The Freedom To Seek-Out Your Own Personal Truth.
-versus- The Government Dictating Their Official Truth.
.
- I don't.

...or... Do You -if- You Support the "Fairness Doctrine"

and that is something to think about ~ RHF
.

- All antennas are dipoles.

Many/Most of the SWL "Sloper" Antennas do appear
physically to be more like an inverted bent "L" shaped
{off-center-fed} Dipole Antennas :

http://www.alphadeltacom.com/images/dxswl.gif
http://www.hamradio.com/images_manuf/H0-005126A.jpg

* Especially when the shorter Vertical 'Half' Down-Wire
is NOT Grounded.
http://t2k.wdfiles.com/local--files/shortwave-receiving-antennas/super-sloper-002.jpg

* The Longer Sloping 'Half' sloping off and down at an angle.
http://www.universal-radio.com/catalog/sw_ant/0013.jpg

? As A Matter Of Fact ! . . . ? WHY ?
Does The SWL "Sloper" Antenna Have A 'Down-Wire' ?

iane ~ RHF

16" records. The ones I've got were cut at either 78 or 33, so they could be replayed on any turntable. Not really vinyl, they're acetate coated aluminum discs. Usually with a second hole near the center for a drive pin to fit through, so the disc doesn't slip on the platter when the cutting head is in place. You can tell when there was a new engineer on duty, he drops the cutting head so the stylus cuts through the acetate into the aluminum.

Is it 16" records at 16RPM ?

All the transcription records I've used in broadcast have been 33 1/3 RPM
and 16" diameter (some went to 12" with the advent of microgroove)

Electrical transcriptions, or “ETs”, were records — but not in a form that could be played on a typical home record player. Usually 16" in diameter (as opposed to the 10" records of the day) and recorded at 33 RPM (instead of the 78 RPM then used for commercial recordings), ETs were used for the distribution of syndicated programming and other broadcasts that were not time-sensitive. ETs were relatively expensive to produce, as they were often made on a heavy aluminum-backed disk, and their sound quality tended to diminish rapidly after the first or second playing.

http://www.ajokes.com/jokes/3808.html

Canuckistan's other "ship" is still welded to a pier as the Honorable
Steve Lare, a decorated United States Navy veteran, accurately
revealed in another thread.

And, as always, don't let your children attend the Sullivan College
of
Technology & Design in Louisville, Kentucky.
They've hired at least one dufus who once claimed to have a PhD and
was arrested using drugs with students he was entrusted to supervise,
and who knows, there may be more dufi employed there.

Well, Mauritania is gone by 0730 - but Conakry is a solid carrier,
weak modulation.

You obviously have a problem with listening to shortwave.

> Some work, some teach, others suck up gov't resources without adding
> at all to America's economy.

With the way you teach, it is doubtful that any of your graduates will be adding to America's economy in any meaningful way.

? WHAT AMERICA'S ECONOMY ?

Obama-Nomics© : How the Real True US National
Jobless Rate Is Much Closer To 22% ! [1-in-5]

The 1st new term bring added and used to
describe the over all US Unemployment Picture

is "Under-Employment"
* People who used to have Full Time Jobs and
are now working only Part-Time :
Add 1%~2% to the Total
* People who used to have a Full Time Job and
are now working two or more Part-Time Jobs :
Add 1%~2% to the Total
* People who have Higher Education a/o Skills
and now working at No-Degree and Unskilled
Jobs :
Add 1%~2% to the Total
http://articles.moneycentral.msn.com/learn-how-to-invest/The-real-unemployment-rate.aspx
.
The 2nd new term bring added and used to
describe the over all US Unemployment Picture
is the "New Employable" and "Un-Counted"
* People who had Jobs for 10 & 20 & 30 Years
and have not found a Job in the last 2~3 Years :
Add 1%~2% to the Total
http://www.dailyfinance.com/story/careers/what-is-the-real-unemployment-rate/19556146/
.
The 3rd new term bring added and used to
describe the over all US Unemployment Picture
is the "Un-Counted" {You Don't Count Anymore}
* People who NO Longer Get/Qualify {Exhausted}
for State and Federal Unemployment Payments :
Add 1%~2% to the Total
http://www.huffingtonpost.com/2011/02/09/99ers-go-to-washington-trying-to-live_n_820784.ht
ml
.
Real US Unemployment is closer to ~22% [1-in-5]

Gray Research made tone arms. Turntables were Gates, QRK (Collins) or
RCA, (with a few Rec-O-Kuts scattered around).

Can't hurt to change the 'lytics, but presuming it has the more common
full-wave (not half-wave) rectifier, the hum from bad filter caps will
be 120 Hz.

- - noise and was better than grounding the Down-Wire
- - at the Side of the House. {I have not tried that yet}
- - .

- SWLers claim a lot of bogus things.

Dave,

IMHO : More Often Then Not The SWL'ers State The
Simple Honest Factual Truth As They Hear* It :o)

* Their Own Personal Subjective Experience
{What Appears To Work For Them}
-versus- Objective Measured Evidence and Advertising Hype

What I have found out over the years Dave is
what Works for one Shortwave Radio Listener
[SWL] in one location does not necessarily
translate and work for the guy : down-the-street
over-the-hill; down-on-the-3rd-floor; etc etc etc...

The Is NO Single Right Way {One Size Does NOT Fit All}

Generally I take people at their Word and their
Claimed Results : Look just this last few weeks
BpnJ built his own new home brewed SWL
Antenna and says it produces a better Signal
and Lower Noise than his Commercial DX-Ultra
http://www.universal-radio.com/catalog/sw_ant/3377.html
Professionally Engineering and Factory Made
SWL Antenna.
http://groups.google.com/group/rec.radio.shortwave/msg/e0efdc4caaa8ceff
Simply Happy That BpnJ is Getting Better Results
.
Getting back to the Idea of the Extended Down-Wire
laying under the "Sloper" Antenna : I can see how

in a Location with a poor ground {lousy earth} or
may be for a Roof-Top Antenna : It might make the
Antenna work/perform better.
.
=IF= I had a "Sloper" Antenna with a Down-Wire running
down the side of a House; I try several things with the
Down-Wire :
* Run/Route the Down-Wire directly on the Surface
of the Building.
* Run/Route the Down-Wire about a Foot 'Off' the
Surface of the Building.
* Not Grounding the Down-Wire
* Grounding the Down-Wire
* and using an Extended Down-Wire Laying Under
the "Sloper" Antenna's Wire Antenna Element
Trying to find which Works best for me in this
specific Location; and when I built a another
"Sloper" Antenna in a different Location trying
all the combinations all over again; and not
necessary expecting the same results.
.
.

- - All antennas are dipoles.

Dave you did not address the Question :
WHY ? Does The SWL "Sloper" Antenna Have A 'Down-Wire' ?

Dave : ? Care to Comment ?
.
- Many/Most of the SWL "Sloper" Antennas do appear
- physically to be more like an inverted bent "L" shaped
- {off-center-fed} Dipole Antennas :
- http://www.alphadeltacom.com/images/dxswl.gif
- http://www.hamradio.com/images_manuf/H0-005126A.jpg
-
- * Especially when the shorter Vertical 'Half' Down-Wire
- is NOT Grounded.
- http://t2k.wdfiles.com/local--files/shortwave-receiving-antennas/supe...
-
- * The Longer Sloping 'Half' sloping off and down
- at an angle.
- http://www.universal-radio.com/catalog/sw_ant/0013.jpg
-
- ? As A Matter Of Fact ! . . . ? WHY ?
- Does The SWL "Sloper" Antenna Have A 'Down-Wire' ?
-
- iane ~ RHF

Well, now Mubarak has leaked that he plans to resign his heretofore
self-perpetuating-presidency this evening. Good for him. I hope it's
good for the Egyptian people. I hope it's good for Radio Cairo.

I don't I've received a station more often that I never "hear".

Especially ironic in that Fox (faux) itself promotes the myth that Obama is a Muslim.

Liberty Net: February 5, 2011

http://3950.net/2011/02/liberty-net-february-5-2011/

by Kevin Strom, WB4AIO

ON SATURDAY NIGHT the ionosphere went almost into shutdown mode, with all signals weak and short-skip signals almost nonexistent except for a fluttery backscatter ï¿½ but that didnï¿½t stop a flood of new stations from checking into Americaï¿½s longest-running amateur radio discussion net, the Liberty Net. That just goes to show that even when Mother Nature doesnï¿½t cooperate, well-engineered home HF radio setups can still communicate on a continental scale.

Here are some of the subjects that participants discussed this week:

ï¿½ This week, a Florida judge ruled that ï¿½Obamacare,ï¿½ with its unprecedented compulsory purchase requirements, is unconstitutional ï¿½ a decision also reached recently in Virginia. (22 minutes)

ï¿½ A sitting governor of North Dakota was removed from office when it was found that he did not meet constitutional eligibility requirements, so there is a precedent for removing Obama under similar circumstances. (24 minutes)

ï¿½ The US military is building a huge 264-acre ï¿½mock cityï¿½ ï¿½ which will even include actors to play ï¿½citizensï¿½ ï¿½ to train soldiers to repress future uprisings of patriots opposed to the illegal government in Washington, and accustom troops to firing on their fellow Americans. (26 minutes)

ï¿½ Americaï¿½s public schools are becoming insane asylums where White children are arrested for using pea shooters, but non-Whites are granted official permission to carry ï¿½ceremonial daggers,ï¿½ as recently happened in Dearborn, Michigan. (30 minutes)

ï¿½ A young childï¿½s life may be ruined by a criminal conviction being pushed by local New Jersey authorities ï¿½ because he brought a toy gun that shoots ping-pong balls to school. (40 minutes)

ï¿½ The fall of the US dollar is now an inevitable result of the governmentï¿½s decisions in the late 20th century 1) to ï¿½take careï¿½ of the underclass whose votes the politicians sought to buy, and 2) to make America a non-White, non-Western nation with all the factionalization and low productivity that that implies. (1 hour 39 minutes)

ï¿½ Now that the Republicans and Fox News, as predicted months ago by N2SAG on the Liberty Net, are putting their arms around Barack Obama (John McCain has even hailed Obama as a ï¿½centristï¿½), expect another war for Israel in the Middle East, possibly combined with another 9/11-like false flag attack on America. (2 hours 14 minutes)

ï¿½ George W. Bush got a last-minute warning not to attend a speech he was to give to a Jewish group in Switzerland, because several human rights organizations there had obtained a warrant for his arrest based on his role in ordering torture. (2 hours 52 minutes)

ï¿½ Isnï¿½t it remarkable that the freest, most thorough, and most open coverage of the revolutions in the Middle East is coming from al-Jazeera, while the very worst, most censored, and most slanted coverage comes from ï¿½Americanï¿½ networks? (3 hours 2 minutes)

ï¿½ Now that ï¿½laser rangingï¿½ bullets have been developed (which explode when they reach the targetï¿½s distance), N2SAG is calling for a law to forever forbid these bullets from being used against American citizens. (3 hours 10 minutes)

The Liberty Net is a gathering that includes thoughtful, philosophical minds and well-informed sources every week, and any amateur operator can join in the discussion and debate. A big ï¿½thank youï¿½ to N2SAG and N2IRJ and especially W1WCR for their hard work which makes the Liberty Net and its Internet annexes possible. You can download the Net right here at http://3950.net and listen in your gym or on your way to work or anywhere you choose.

You can lay blame all you like (mislaid, in my opinion) - but thsoe jobs have been heading south for a couple of decades now, and no President is *ever* going to bring those jobs back online. There are too many uncontrollable aspects of business in the 21st century. The best we can hope to do now, short of annexing China and India, is to stop the hemorrhaging, cut our losses and take the hits. Second-Class, Third World nationhood has arrived, and unless Somebody up there gives us a miracle, that's where it will stay. Good luck to us all.

If you feed the sloper with co-ax, that will be your grounded downlead,
whether you like it or not, unless you put a choke in the line at the
feedpoint. A half sloper is a 1/4 wave vertical and it requires a
proper system of ground radials.

What's good for Cairo is good for Detroit is good for Oakland. The power
is in the people.

626. Inverted L antenna for $35

Sort of correct. But, someone we may never see IS pulling ALL the
strings, imho .

A long wire antenna of 50 feet + lead-in can be built for at least
half that price . Plus all the fun and pride that goes with it .

So is he close, or is propagation good? The latter has been pretty
squirrely last few days...ups and downs, drop outs and noise.

How so? It's two-way communication between stations in a net, no
different from other nets.

With all good wishes,

Kevin, WB4AIO.

What is a "waste of bandwidth" is a matter of opinion, not law.

On the Liberty Net, differing ideas and even philosophies are being expressed and debated. To me, that is far more interesting (and a far better use of bandwidth) than the mere exchange of callsigns and signal reports, which to me is acutely tedious. But to each his own.

In any case, there's nothing illegal about it.

Happy Thursday,

Kevin, WB4AIO.

Tried to call again at 7pm and the phone is still busy.
Guess he is on line with his WebTV that uses his phone line.

He went in hiding a few years ago also so I'm not going to worry about him.

Propagation was better today but variable. I worked Ukraine on 20m and
Belgium on 15m this morning. 40 meters was good at times. Louisiana
and stations on the east coast were strong this afternoon. So maybe
that station was 400-500 miles away.

Hey!. Full audio from Cairo in Spanish right now on 6270 kHz @
0140UTC.

Back to lousy audio at @ 0145UTC.

He had Child Porn on a shared computer in his home. That doesn't make
him a pedophile. He may have just been curious or someone else may have
been and used his computer. Looking at child porn makes you no more of
a pedophile then looking at adult pornography makes you a rapist.

Evidently a jury thought otherwise - or perhaps only a judge if he plead guilty.

> He may have just been curious

Oh, well. That makes it all A-OK then. I'll be sure to use that excuse when I run someone over because I'm wondering what kind of dents their body will leave on my car.

> or someone else may have been and used his computer.

So why was he in jail and not that person?

> Looking at child porn makes you no more of a pedophile

Than a judge or jury decides you are. But I'd also accept the opinion of the average person with no sexual attraction towards children.

How passe. Your post is unoriginal, trite, and exposes you as a very petty individual. Any objective analyses of the facts can only lead to the conclusion
that Mr. Strom was railroaded by a corrupt criminal "justice" system. Criminally aided by Mr. Strom's deranged and vindictive ex-spouse.

Nonetheless, he served his time, has suffered severe consequences, and should be allowed to regather his life without being harassed.

By the by, something for all self righteous hypocrites to consider:
Viruses Frame PC Owners for Child Porn
Pranksters, Pedophiles Exploit Unsuspecting Computer Users, Leaving Many Defenseless Against Criminal Charges
http://www.cbsnews.com/stories/2009/11/09/tech/main5589403.shtml

It is evident that the computer has become yet another weapon in the ever expanding arsenal of "the authorities" to "deal with" those who dare question their iron fisted rule. Very scary.

Anyone who said the same 20 years ago was a RACIST! A HATER! A NEANDERTHAL! Alas such is the life of truth tellers and visionaries. Will the USA will ever admit the disaster that turning the nation into a toxic stew has wrought? Not a chance, it has served the purposes of the ruling oligarchy splendidly.

PARIS (AFP) – French President Nicolas Sarkozy declared Thursday that multiculturalism had failed, joining a growing number of world leaders or ex-leaders who have condemned it...

British Prime Minister David Cameron, German Chancellor Angela Merkel, Australia's ex-prime minister John Howard and Spanish ex-premier Jose Maria Aznar have also recently said multicultural policies have not successfully integrated immigrants. Complete story at http://news.yahoo.com/s/afp/20110210/wl_afp/francepoliticsimmigrationsociety_20110210231042

You are late by at least 30+ years ... Old Europe was invaded for a
long , long time, but no one cared back then . Until it grew out of
all proportions imaginable .The natives (Europeans !) are
experiencing an extremely low birth rate and this is exactly what is
worrying ALL European leaders at the present time . As simple as
that . BTW, Neanderthal is in Germany .

My 'GymyBobism' collection...updated daily:
==========
some '#' bracketed text added for clarification
all cut and paste, NO modifications of ANY kind
100 % Pure GymyBob. Accept no substitutes!

We need less morons like another clone of Moron II here.
My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll

up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject
lines changing, intermingled posts and downloading binary files with
mixed posts, random pieces and many other problems all the nonOE
people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged
13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation first so there is, at least, some stake, like friendship for the person listening. When the friendship is well developed then attack. Not too obvious at first or you will lose your audience. This will enhance your troll points.

I think outside opinions are worth much more than sales hype from the company that made the product.
Referring to *factory* charging specifications for the batteries they make

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way back to the transformer neutral.

A thought I have is rain water from a roof on a three story home through a micro-turbine.

Setback thermostats only work efficiently for small differentials, dependant on the time duration.

Breakers are good for one time usage of one fault and then they need to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully charged. The nicads will be cooked because you keep them on charge, just in case you need them but when you remember them six months later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the diode in 1941 but I am not familiar with the solar panel usage requirements of them. (no P & N substrate explanations please. I wrote the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps
with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your
house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of
power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a
100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like
your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for
hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and
work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you
are full of shit.

I am a Protection & Control Tech by profession and have experience
with control systems

Try spelling "bus" correctly! Maybe your brain will start again.
Probaby not, you fucking loser.
Referring to the correctly spelled word 'buss' as used in real
electrical terminology ##
http://tinyurl.com/5ctml

X10 signals are transmitted just after the voltage waveform zero
crossing. This is in order to avoid conflicts with SCR and Triac peak
waveform switching spikes from load type devices such as lamp dimmers.
control module misinformation

Besides when they on any line they will pull of the meter as a
disconnect point.
speaking of power line guys miles away removing YOUR electrical
meter for THEIR safety ##

My workplace has been throwing out huge digitizing pallettes (like 24
x 36" units)
in alt.sewing.mach-embroider

The majority prefers top posting.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve aluminum does. Overload doesn't make it glow like copper...it flashes and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20 horizontal feet. They are made to vent smells and humid air horizontally only.

Why not spend the money on a contract with the grid company and get an exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V
from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations
will be easier to get out. This keeps them from buzzing until the
varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or
something?

Run each signal twisted with a ground for noise. RD twisted with gnd
as a pair, TD twisted around ground as a pair etc... This means
signal/logic ground not power ground or case ground, if they are
different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and
probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the
water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They
cook in one spot and the rest of the electrolyte doesn't circulate
fast enough.

There is nothing standard about USanian measurements. They changed
their sizes to avoid trading with the rest of the world. This worked
for a few centuries but the rest of the world moved on to the metric
system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across
a capacitor? It measures infinity after charging to the supply voltage
because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals"
come and beg for information because they can't our toys do what the
good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would
disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate
lights. They mostly signal my house control computer and it decides
what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic symptom.

When confronted with many websites stating the otherwise he won't address the issue but repeats his crap again like a child stamping his feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It was the needles. Find ones that have very little "hip" bump around the eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the same.

I did the chem.cut medication stuff for a few years with my first child and then found Naturopathic Doctors using homeopathy to get more lasting relief.

Homeopathics saved me thousands of dollars for operations I did not have on my children

Accupunture worked for my 1 and two year old children for ailments after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody else here.

See if you can replace it with a thermal acting unit. They have a rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a huge irritant to human digestion and usually results in calcium deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of nutrition.

The medical doctors will play the time game and probably just let him die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop but so is insulin for a diabetic. I have stopped taking mine and it wasn't that bad but after months of regressing I chose to return like the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky movements to them.

Make up your mind before you mouth off like the usual Internet piece of shit. This is a rough group and if you had followed the usual recommendations you would have known that and have nothing to say

about it.
in misc.kids.health, alt.support.breast-implant,
misc.health.alternative ##

Bad practice to ground yourself when working on electronics. It
increases the chance of injury or death by electrical shock and also
increases the chance of static discharge to the circuit chips. Ground
is a potential too.

Oink...Oink...just take it out. What could be simpler?

The Liberty Net is completely legal amateur-to-amateur
communication, the same as any other discussion net. If there was
any "illegal" aspect to it, you can be sure that it would have been
adjudicated at some point in the almost 40 years the net has been
active. And anyone who is "scared" by hearing debates about ideas
needs to acquire some courage so he can overcome his fear -- and
gain knowledge and reasoning skills.

I often disagree with what I read on Usenet, but nevertheless I have
learned a great deal from others here, and have refined my thinking
by engaging in debate and presenting and defending my ideas. The
Liberty Net is no different in that respect.

Happy Friday,

Kevin, WB4AIO.

Cool! About time they found their tongue.

I got back too late from a classical concert, so I went for (and
got :-) Radio Nacional de la R.A.S.D. in Algeria on 6,297.24 kHz after
0700z. Sending them a report in Spanish (broadcast was in Arabic) and
an audio tape. Fingers crossed. Is that transmitter really only 20
kW? Strong signal.

It's largely a technicality of the law based purely on moral issues.
Pictures of naked kids, and everything that goes with it, is illegal.
Makes no diff what you do with it. It's not equatable to rape, which
is a physical act of violence against another human being.

And I am absolutely innocent of all such accusations -- "someone else" did lie, and "someone else" did download files onto "my" computer, which was out of my control and possession for many months after I left my home to protect myself from that person's violence. (Now it has come out that that same person has engaged in numerous crimes, and inappropriate sexual relationships with law enforcement including, she claims herself, the sole "investigator" in my case.) See:

http://www.kevinalfredstrom.com/?s=perjurer

My sexuality is and always has been absolutely normal. I just celebrated the second anniversary of my relationship with my wonderful, beautiful girlfriend -- and, a few months before, the second anniversary of my being reunited with my beloved sons and daughter, which the judge -- who knew I was innocent -- ordered I be allowed to live with and be a father to once again when the nightmare was over.

With gratitude to those who have shown honor and kindness and taken the time to objectively examine this injustice,

Kevin.

There are better forums these days. (You mentioned usenet for example).
It's best to keep the divisive stuff off the amateur airwaves. And I'm
tired of hearing everyone compliment each other on having fat signals.
That's not the point. Contesters and rag chewers and "nets" full of
bitter old guys are the reason I seldom listen to phone (my current
radio has no microphone).

Google has brazenly broken the promises they made to users when they
took over the Usenet archives from Deja News. Among other things,
they have deleted whole newsgroups from the archive because they
didn't like their political content. See

http://www.kevinalfredstrom.com/2010/02/google-groups-how-not-to-run-an-archive/

695. Wire antennas again - counterweight question

Newsgroup: rec.radio.shortwave
Date: 2011-02-11 19:22:20 UTC
From: bpnjensen <bpnjensen@yahoo.com>
Message-ID: <5d546d24-e4ad-4bcd-96ff-f6a6663d9c5e@t19g2000prd.googlegroups.com>
Source record: 219648

So, a mechanical question this time -

On a relatively short run of wire of fairly light weight (in this case, 14 gauge stranded, insulated, and about 60-65 feet horizontal), what's a good estimated counterweight for the far end? The wire itself is light, but the counterweight needs to account for tension as well. The support line is over a freewheeling pulley and is currently tied off, but I think a modest eight would be better in this circumstance as the near end of the line is a treetop with some sway in the wind.

So, I ask if anybody has an idea about what a good weight night be to maintain tension and avoid too much sagging. For starters, I was thinking a simple barbell weight of 5 lbs or so more or less, but I'm wide open on this one.

Thanks so much!
Bruce

Weigh the wire. The counterweight will find a balance with the
weight of the wire, allowing an amount of sag equal to the length of
the counterweight support. Doubling the counterweight will halve the
amount of sag. Redoubling will halve the sag, again. Don't exceed
the tensile strength of the wire and start with about 4 times the
weight of the wire.

Yes, indeed. The reason for that is that, even though the politically-motivated prosecutor was determined to railroad me into prison for the rest of my life, the judge felt quite differently. He even ordered that no restrictions whatever could be placed on my parenting of my children.

Had I been able to get a bench trial (where the judge decides instead of a jury), I would not have made the plea deal. But juries are naive and almost always believe prosecutors in cases like this no matter how weak the evidence, and prosecutors are allowed to "pile on" charges and charge you ten times for the same alleged crime. So you could be found not guilty nine times and guilty once -- and still die in prison.

With every good wish,

Kevin, WB4AIO.

In later years, 1950's for example in Australia, 16" moved from acetate coated aluminium to vinyl same as LPs. 16" can be played on turntables only if you have a long tone arm placed further away from the spindle otherwise the disc will cover the tonearm. A standard record player will not play 16".

- It's largely a technicality of the law based purely on
- moral issues. Pictures of naked kids, and everything
- that goes with it, is illegal. Makes no diff what you do
- with it. It's not equatable to rape, which is a physical
- act of violence against another human being.

BpnJ,

First Think of the Children, Infants, etc being Used,
Exploited and Abused and to Produce {Actually
Physically Make} the Real Child "Kiddie" Porn :
The Innocent Young Victims.
.
That being said; I remember see a Free Speech
website that showed so-called Child 'Porn' at
"The MET" Museum in NYC. They had many
Paintings with what were described as "Art" and
featured disrobed Children, Infants, etc.
.
The Claim was that they were 'Painting' and Not Photos
of real live Children being used in the Photos to produce
the Pornography -so- It was NOT Pornography.
.
Later the US Courts Ruled that "Anime" {Life-Like}
Computer generated Images that included Images
of disrobed Children, Infants, etc were 'too-real'
and were also to be considered to be "Kiddie Porn".
http://en.wikipedia.org/wiki/Anime
.
NOTE that the "Anime" Did Not Use Real Live

Children to Create the Images.
.
The Reason/Rational for "Kiddie Porn" is protect
Innocent {minor} Children, Infants, etc from Abuse,
Exploitation and Injury . . . How Does "Anime" and
Computer Generated 'Images' not involving real
Children, Infants, etc qualify as "Kiddie Porn" ? ? ?
.
Child Pornography
http://en.wikipedia.org/wiki/Child_pornography
.
Metropolitan Museum of Art NYC
http://en.wikipedia.org/wiki/Metropolitan_Museum_of_Art
.
"Art"
http://en.wikipedia.org/wiki/Art
.
OBTW & FWIW : I [RHF] Despise {Abhor} "Kiddie Porn"
and Think that the Producers and Distributors should
get a Very Long Prison Term for being Part of that
Dirty Business [.] -however- This for me is simply
an Exercise in Questioning the Reasoning and the
Rational that 'forms' the Basis for What Is and Is-Not
Actual "Kiddie Porn". -and- ? Asking Has the Legal
Limits of the Law Gone To Far ?
.
...maybe... The Consumers {End-Users} of "Kiddie
Porn" need more Identification and Medical Treatment
{Help} and verses Prison and Identification.
.
...clearly... The Producers {Makers} of "Kiddie Porn"
need more Prison Time : Start with 10 Years for the
1st Identifiable {Individual} Child; and 5 Years for
each and everyone of the 'other' Identifiable
{Individual} Children. 200 Years with Credit for Time
Served and Good Behavior is still around 67 Years
of Real Jail Time -result- Locked Down For Life [.]
.
.
BANNING THINGS : "Kiddie Porn" & Guns
Sort of Like Banning Guns To Stop Killings : It Does
NOT Stop All Killing {It may help to reduce Killings
by People using Guns} -but- People Simply Use
'other' Things To Kill and Do Their Killings : Knifes,
Baseball-Bats, Hockey-Sticks, Ropes, Autos & Trucks,
Rolling-Pins, Wine & Beer Bottles, Tape etc etc etc,,,
? ? ? DO WE ALSO BAN ALL OF THESE ! ! !
Note - All of these involve the Use of Human Hands
...so... Do We Need To Ban The Use Human Hands Too...
.

banning things that is something to think about :
does it work,,, will it work... ~ RHF

Dave that's a good handy and free starting point.

Except if you Live where the Water might Freeze {Oops!}
-and- You may be getting Snow and Ice on your
Antenna Wire and Loading it down down down,,,

Old Plastic Bleach Bottle the Kind with a Handle
built into it. Fill the Bottle with about 3~5~10+
Pounds of Small Rocks {or Gravel}. Place the Cap
back-on the Bottle and and Tie your Antenna
Tension Rope End to the Handle of the Bottle.
* Option Tape the Handle of the Bottle with Duck
Tape to Reinforce it if needed.
* Option Spray Paint the Bottle Green Brown to
blend in with the surroundings if needed.
-service- These Bottles usually last about 3-Years.
-Safety- Use a 5~6 Foot Step Ladder and Position
the Bottle at around7~8 Feet or more above Ground
so that it is not a Head Injury Hazard.

-Rigging- Use a small Pulley to Rig the Tension Rope
End through so that the natural dynamic movement
of the Antenna Wire and the Counter-Weight Bottle
can occur as it happens due to Weather.
http://g8jnj.webs.com/Multi%20antenna%20configs%28s%29.gif

BpnJ - Since you live in the SF Bay go to a Fishing
'Bait' Shop and buy a few Salmon / Down Rigger
Weights {3~5 Pound Lead Balls}
http://s.ecrater.com/stores/118075/4c371356f194a_118075n.jpg
http://cdn.sella.co.nz/images/thumb/h/0/j/60fh0j-640x500.jpg
.
-or- Old Iron Window {Sash} Weights will work too.

> weight of the wire.

Well, the wire's already up there - but I don't think the whole roll
weighed but a couple pounds, and this is about 2/3 of the roll in the
air (maybe 65 horz feet). So, maybe something like 8 pounds will be a
good starting point. Water in any mass doesn't really freeze here (at
most we get thin ice on the birdbath, and then only about 5 or 6 times
a winter), so that gallon jug of water would be a good starting weight
-

IIRC, the tensile strength of 14 gauge wire is pretty high, over 100 lbs - isn't that right? So any reasonable weight (like less than 20) is not liable to break it.

Good ideas, Peter and Roy and Dave - thanks.

Sex Offenders and SSI ...so... Think About It :

1st - 'Accuse' Someone of Allegedly Possessing
some form of so-called "Kiddie Porn".

2nd - Deal the "Kiddie Porn" 'Charge' Down To
Some 'Other' {Lessor} Crime.

3rd - Requiring the Accused as part of the Plea
Bargain To Registrar As A SEX OFFENDER
[Publicly-BRAND-Themselves-For-Life}

4th - The Accused Goes To Prison with a Conviction
and Serves Their Jail Time For The 'Other' Crime :
* Labeled a Convicted Criminal
* Labeled a Felon Convicted Criminal
* Has To Answer Yes To Those Questions
on All Future Job Applications.

5th - The Convicted Criminal Now Gets Out of
Prison {Served Their Time}
* Has To Registrar As A SEX OFFENDER
* Has To Answer "Details" To Have Been Convicted
Of Any Felony Crime.
* Has To Answer "Details" To Are You A Felon.
* Has To Answer "Details" To Have You Been

In Prison.

? ? ? HONESTLY WHO WILL HIRE YOU ? ? ?

The End Social Result For Society Is Anyone
Required To Registrar As A SEX OFFENDER
-basically- Qualifies As Social Un-Employable
Due To Their Past Convicted Criminal 'Status'
and Current Registration as a "Sex Offender"

SSI Is Way Cheaper Then Housing Them in Prison
and Safer For Society Then Having Them In Any
Job Dealing With The Public and Being Around
Children : SSI Make Be The Better Answer and
May be should be Part of the Overall Sexual
Offender Registry Law Process.

The Whole Idea of a the Sexual Offender Registry
Law Process is to have a Safer Society and a
Society that is Safe for Children - imho ~ RHF

719. How to add external AM/FM antenna to a radio

Newsgroup: rec.radio.shortwave
Date: 2011-02-12 07:21:23 UTC
From: aldg <aldg02@gmail.com>
Message-ID: <d9e57b0f-4689-40a0-8b5f-51137548fb70@j9g2000prj.googlegroups.com>
Source record: 219672

I have a Craig CR-4100 radio at my desk at work. It's surrounded by a metal shelf work on the desk top. As a result, it picks up only 1 or 2 FM stations and no AM stations.

The radio's built-in antennas are:

1. Internal bakelite AM antenna with NO external antenna input plug; and an

2. External (on back of radio) extending metal pole FM antenna with NO external antenna input plug.

I would like to add an active or passive external AM and FM antenna that I can set on the top of the desk's metal shelf work and allow the radio to pull in all the local AM and FM stations.

From the Usenet Newsgroup: rec.radio.shortwave, I would like the following:

1. A suggestion for an external AM and FM active or passive antenna; and

2. A wiring diagram that will describe how to install the external antenna.

Thanks, in advance for your input in this matter.

Al Gershen
Grants Pass, OR, USA

news:d9e57b0f-4689-40a0-8b5f-51137548fb70@j9g2000prj.googlegroups.com...

I have a Craig CR-4100 radio at my desk at work. It's surrounded by a
metal shelf work on the desk top. As a result, it picks up only 1 or 2
FM stations and no AM stations.

The radio's built-in antennas are:

1. Internal bakelite AM antenna with NO external antenna input plug;
and an

2. External (on back of radio) extending metal pole FM antenna with NO
external antenna input plug.

I would like to add an active or passive external AM and FM antenna
that I can set on the top of the desk's metal shelf work and allow the
radio to pull in all the local AM and FM stations.

From the Usenet Newsgroup: rec.radio.shortwave, I would like the
following:

1. A suggestion for an external AM and FM active or passive antenna;
and

2. A wiring diagram that will describe how to install the external
antenna.

Thanks, in advance for your input in this matter.

Al Gershen
Grants Pass, OR, USA

Adding external antenna connections to most any radio is fairly simple, but
there may be diminishing returns.

For AM, it's as simple as making about 5-8 loops of small gauge wire around
the end of the loopstick (these are not bakelite, but ferrite.) You should
ground one end of the loops to chassis ground, then bring connections to the
back of the radio on whatever type of connection you like or will fit.

For FM, even easier. Bring a wire from chassis ground and a wire from the
internal connection for the whip to the back of the radio as with the AM
antenna.

Note: if you get NO AM now, it's not likely to help adding an antenna.
Alternately, you can use an external loop for AM (Terk has some good ones),
but again, if you get no AM now.... Grass Pants isn't much of a hot spot of
radio DX... :) All I ever got was the local station and KMED going through
there (except at night, of course).

1 - Place another AM/FM Radio next to an outside
facing Window where you can get good AM & FM
Radio Reception. Connect an FM Transmitter to
that Radio. Tune-in the Window Radio to the AM
or FM Station you want to Listen to. Use your Deck
Top Radio to Tune-in to the FM Wireless Transmitter.
When you want to change AM & FM Stations re-tune
the Window Radio -note- That the Deck Top Radio
is always Tune-in to the same FM Wireless Transmitter
Frequency.

* FM Wireless Transmitter
http://www.wholehousefmtransmitter.com/
.

2 - If you have WiFi in your Office/Home buy a WiFi
Radio and Listen to Streaming Audio via the Internet.

* WiFi Radio
http://www.ccrane.com/radios/wifi-radios/

* What Is WiFi Internet Radio ?
http://www.ccrane.com/radios/wifi-radios/what-is-wifi.aspx
-or-
http://www.google.com/search?q=WiFi+Radio

IMHO both 1 and 2 may be more productive use
of your time and money : Then trying to Add an
External Antenna to a Radio that is surrounded
by Metal {Shielding} - iane ~ RHF
.
.

735. OT: Impeach Clarence Thomas-Overturn "Citizens United"

Newsgroup: rec.radio.shortwave
Date: 2011-02-12 13:59:20 UTC
From: dave <dave@dave.dave>
Message-ID: <4d569214$0$5691$bd467cd0@news.dslextreme.com>
Source record: 219688

The most important issue in the Thomas case, however, might be this: Evidence suggests that he deliberately set out to pervert the justice system, to hide the fact that he had massive conflicts of interests in certain cases of profound importance to U.S. citizens. In fact, the case has an obstruction-of-justice smell to it. Reports POE:

Kevin Zeese, attorney and spokesperson for ProtectOurElections.org, believes that Justice Thomas may have intentionally withheld the information in order to keep litigants from moving to disqualify him in cases where his wife's employment could cause a conflict of interest or where she could benefit from a decision. "Justice Thomas cast a critical vote in the Citizens United case allowing conservative groups like the Heritage Foundation and Liberty Central to raise millions of dollars in secret funds to support and elect conservative politicians," he said. "Had Justice Thomas disclosed that his wife worked for the Heritage Foundation, litigants may have had good cause to disqualify him from hearing that case. In fact, we are left to wonder if Justice Thomas knew that his wife was planning on leaving the Heritage Foundation to launch Liberty Central once Citizens United was decided. Clearly, she has benefitted personally from that decision."

My 'GymyBobism' collection...updated daily:
==========
some '#' bracketed text added for clarification
all cut and paste, NO modifications of ANY kind
100 % Pure GymyBob. Accept no substitutes!

We need less morons like another clone of Moron II here.
My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject
lines changing, intermingled posts and downloading binary files with
mixed posts, random pieces and many other problems all the nonOE
people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged
13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation
first so there is, at least, some stake, like friendship for the
person listening. When the friendship is well developed then attack.
Not too obvious at first or you will lose your audience. This will
enhance your troll points.

I think outside opinions are worth much more than sales hype from the
company that made the product.
Referring to *factory* charging specifications for the batteries
they make ##

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way
back to the transformer neutral.

A thought I have is rain water from a roof on a three story home
through a micro-turbine.

Setback thermostats only work efficiently for small differentials,
dependant on the time duration.

Breakers are good for one time usage of one fault and then they need
to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty
will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully charged. The nicads will be cooked because you keep them on charge, just in case you need them but when you remember them six months later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the diode in 1941 but I am not familiar with the solar panel usage requirements of them. (no P & N substrate explanations please. I wrote the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a 100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you are full of shit.

I am a Protection & Control Tech by profession and have experience with control systems

Try spelling "bus" correctly! Maybe your brain will start again. Probaby not, you fucking loser.
Referring to the correctly spelled word 'buss' as used in real electrical terminology
http://tinyurl.com/5ctml

X10 signals are transmitted just after the voltage waveform zero crossing. This is in order to avoid conflicts with SCR and Triac peak waveform switching spikes from load type devices such as lamp dimmers.
control module misinformation

Besides when they on any line they will pull of the meter as a disconnect point.
speaking of power line guys miles away removing YOUR electrical meter for THEIR safety

My workplace has been throwing out huge digitizing pallettes (like 24 x 36" units)
in alt.sewing.mach-embroider

The majority prefers top posting.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve aluminum does. Overload doesn't make it glow like copper...it flashes and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20 horizontal feet. They are made to vent smells and humid air horizontally only.

Why not spend the money on a contract with the grid company and get an exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric

system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals" come and beg for information because they can't our toys do what the good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate lights. They mostly signal my house control computer and it decides what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic symptom.

When confronted with many websites stating the otherwise he won't address the issue but repeats his crap again like a child stamping his

feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It was the needles. Find ones that have very little "hip" bump around the eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the same.

I did the chem.cut medication stuff for a few years with my first child and then found Naturopathic Doctors using homeopathy to get more lasting relief.

Homeopathics saved me thousands of dollars for operations I did not have on my children

Accupunture worked for my 1 and two year old children for ailments after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody else here.

See if you can replace it with a thermal acting unit. They have a rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a huge irritant to human digestion and usually results in calcium deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of
nutrition.

The medical doctors will play the time game and probably just let him
die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat
typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop
but so is insulin for a diabetic. I have stopped taking mine and it
wasn't that bad but after months of regressing I chose to return like
the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky
movements to them.

Make up your mind before you mouth off like the usual Internet piece
of shit. This is a rough group and if you had followed the usual
recommendations you would have known that and have nothing to say
about it.
in misc.kids.health, alt.support.breast-implant,
misc.health.alternative ##

Bad practice to ground yourself when working on electronics. It
increases the chance of injury or death by electrical shock and also
increases the chance of static discharge to the circuit chips. Ground
is a potential too.

Oink...Oink...just take it out. What could be simpler?

After disassembling Bill Gates' 6800 Basic back in the 70s I knew he
was a dirty software scoundrel.

The government makes more on the taxes than the tax rate when this is
done.

Be blabest tofart.
???? in alt.comp.periphs.dcameras

Blood may be kept at a stable 7.4 pH but a piece of copper wire passes
electricity through it even though the number of electrons remains
constant.
in misc.health.alternative

I have had amazing effects from some homeopathic remedies and others
did nothing.

These homeopathic know-it-alls drive me crazy with their 1880 knowledge.

Sorry, but testing has proven homeopathic remedies to be effective
remedies.

I have taken a few homeopathic remedies that taste like crap. Funny
how pure
water could do that.

Homeopathic remedies are very toxic substances and used because of
their toxic properties.

Standard homeopathic science.

Your ignorance of homeopathy does not mean it is useless.

Everybody always follows the screaming, left-wing, maniac, tooting we are all going to die by doing another therapy.

I have had achilles tendonitus for the past 2-3 years now. I got rid of it on one side by grinding out the bones spurs underneath with the side of a screwdriver blade and lots of oil.

GET OFF THE WHEAT, CORN & OATS!!!

It doesn't matter how well it works if the doctor doesn't say so (with his two years of college) then it just ain't so.

Heat pumps are 300% efficient when the weather is fine but the compressor motors? hmmm about 60%.

You are obviously a moron and you keep repeating it here.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve aluminum does. Overload doesn't make it glow like copper...it flashes and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20 horizontal feet. They are made to vent smells and humid air horizontally only.

Why not spend the money on a contract with the grid company and get an exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate

fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals" come and beg for information because they can't our toys do what the good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate lights. They mostly signal my house control computer and it decides what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic symptom.

When confronted with many websites stating the otherwise he won't address the issue but repeats his crap again like a child stamping his feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It was the needles. Find ones that have very little "hip" bump around the eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the same.

I did the chem.cut medication stuff for a few years with my first child and then found Naturopathic Doctors using homeopathy to get more lasting relief.

Homeopathics saved me thousands of dollars for operations I did not have on my children

Accupunture worked for my 1 and two year old children for ailments after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody else here.

See if you can replace it with a thermal acting unit. They have a rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a
huge irritant to human digestion and usually results in calcium

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of
nutrition.

The medical doctors will play the time game and probably just let him
die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat
typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop
but so is insulin for a diabetic. I have stopped taking mine and it
wasn't that bad but after months of regressing I chose to return like
the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky
movements to them.

Make up your mind before you mouth off like the usual Internet piece
of shit. This is a rough group and if you had followed the usual
recommendations you would have known that and have nothing to say
about it.

10 pounds per gallon Imperial. That gallon is totally unique to the
US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds
exactly.

The copper isn't worth more than 5 cents per pound. It is classed a
mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about
$0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals"
come and beg for information because they can't our toys do what the
good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would
disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate
lights. They mostly signal my house control computer and it decides
what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of
money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for
the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from,
secondary exciting or primary current exciting, the voltage developed
or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where
your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's
house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic
symptom.

When confronted with many websites stating the otherwise he won't
address the issue but repeats his crap again like a child stamping his
feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished
embroidering about 10 items, including a flight bag for golf clubs.

unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It
was the needles. Find ones that have very little "hip" bump around the
eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on
these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It
beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the
same.

I did the chem.cut medication stuff for a few years with my first
child and then found Naturopathic Doctors using homeopathy to get more
lasting relief.

Homeopathics saved me thousands of dollars for operations I did not
have on my children

Accupunture worked for my 1 and two year old children for ailments
after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody
else here.

See if you can replace it with a thermal acting unit. They have a
rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a
huge irritant to human digestion and usually results in calcium
deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of
nutrition.

The medical doctors will play the time game and probably just let him
die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop but so is insulin for a diabetic. I have stopped taking mine and it wasn't that bad but after months of regressing I chose to return like the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky movements to them.

My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject
lines changing, intermingled posts and downloading binary files with
mixed posts, random pieces and many other problems all the nonOE
people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged
13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation
first so there is, at least, some stake, like friendship for the
person listening. When the friendship is well developed then attack.
Not too obvious at first or you will lose your audience. This will
enhance your troll points.

I think outside opinions are worth much more than sales hype from the
company that made the product.
Referring to *factory* charging specifications for the batteries
they make ##

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way
back to the transformer neutral.

A thought I have is rain water from a roof on a three story home
through a micro-turbine.

Setback thermostats only work efficiently for small differentials,
dependant on the time duration.

Breakers are good for one time usage of one fault and then they need
to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty
will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't
flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry
first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully
charged. The nicads will be cooked because you keep them on charge,
just in case you need them but when you remember them six months
later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by
themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the
diode in 1941 but I am not familiar with the solar panel usage
requirements of them. (no P & N substrate explanations please. I wrote
the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps
with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your
house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of
power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a
100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you are full of shit.

I am a Protection & Control Tech by profession and have experience with control systems

Try spelling "bus" correctly! Maybe your brain will start again. Probaby not, you fucking loser.

Your ignorance of homeopathy does not mean it is useless.

Everybody always follows the screaming, left-wing, maniac, tooting we
are all going to die by doing another therapy.

I have had achilles tendonitus for the past 2-3 years now. I got rid
of it on one side by grinding out the bones spurs underneath with the
side of a screwdriver blade and lots of oil.

GET OFF THE WHEAT, CORN & OATS!!!

It doesn't matter how well it works if the doctor doesn't say so (with
his two years of college) then it just ain't so.

Heat pumps are 300% efficient when the weather is fine but the
compressor motors? hmmm about 60%.

You are obviously a moron and you keep repeating it here.

Let me point you in a different direction...

When you ask about a weight, that implies you will also be using a pulley (block, for you sailors). This is another piece to purchase and another piece to rust up and fail, at least the hardware store galvanized ones. Don't ask what the ones for sailboats cost.

I have had a 130 foot dipole (stranded 14 ga.) up between two trees since 1994, with no failures here in the great Midwest (lots o' wind, lots o' snow).

I considered the weight/pulley arrangement but ultimately decided on using a screen door spring at each end. These are typically a foot (or a little more) long and readily available at any hardware store. I would recommend you pay a buck or two more and get the ones that are chrome plated and then spray paint it too, for a little additional weatherproofing (belt AND suspenders). Works fine, lasts a long time.

My 'GymyBobism' collection...updated daily:
==========
some '#' bracketed text added for clarification
all cut and paste, NO modifications of ANY kind
100 % Pure GymyBob. Accept no substitutes!

We need less morons like another clone of Moron II here.
My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject lines changing, intermingled posts and downloading binary files with mixed posts, random pieces and many other problems all the nonOE people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged
13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation first so there is, at least, some stake, like friendship for the person listening. When the friendship is well developed then attack. Not too obvious at first or you will lose your audience. This will enhance your troll points.

I think outside opinions are worth much more than sales hype from the company that made the product.
Referring to *factory* charging specifications for the batteries they make

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way back to the transformer neutral.

A thought I have is rain water from a roof on a three story home through a micro-turbine.

Setback thermostats only work efficiently for small differentials, dependant on the time duration.

Breakers are good for one time usage of one fault and then they need to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully
charged. The nicads will be cooked because you keep them on charge,
just in case you need them but when you remember them six months
later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by
themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the
diode in 1941 but I am not familiar with the solar panel usage
requirements of them. (no P & N substrate explanations please. I wrote
the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps
with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your
house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of
power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a
100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like
your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for
hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and
work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you
are full of shit.

I am a Protection & Control Tech by profession and have experience
with control systems

Try spelling "bus" correctly! Maybe your brain will start again.
Probaby not, you fucking loser.

Referring to the correctly spelled word 'buss' as used in real electrical terminology
http://tinyurl.com/5ctml

X10 signals are transmitted just after the voltage waveform zero crossing. This is in order to avoid conflicts with SCR and Triac peak waveform switching spikes from load type devices such as lamp dimmers.
control module misinformation

Besides when they on any line they will pull of the meter as a disconnect point.
speaking of power line guys miles away removing YOUR electrical meter for THEIR safety

My workplace has been throwing out huge digitizing pallettes (like 24 x 36" units)
in alt.sewing.mach-embroider

The majority prefers top posting.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve aluminum does. Overload doesn't make it glow like copper...it flashes and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20 horizontal feet. They are made to vent smells and humid air horizontally only.

Why not spend the money on a contract with the grid company and get an exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals"
come and beg for information because they can't our toys do what the
good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would
disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate
lights. They mostly signal my house control computer and it decides
what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of
money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for
the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from,
secondary exciting or primary current exciting, the voltage developed
or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where
your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's
house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic
symptom.

When confronted with many websites stating the otherwise he won't
address the issue but repeats his crap again like a child stamping his
feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished
embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine
unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It
was the needles. Find ones that have very little "hip" bump around the
eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on
these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It
beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the
same.

I did the chem.cut medication stuff for a few years with my first
child and then found Naturopathic Doctors using homeopathy to get more
lasting relief.

Homeopathics saved me thousands of dollars for operations I did not
have on my children

Accupunture worked for my 1 and two year old children for ailments
after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody
else here.

See if you can replace it with a thermal acting unit. They have a
rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a
huge irritant to human digestion and usually results in calcium
deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of
nutrition.

The medical doctors will play the time game and probably just let him die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop but so is insulin for a diabetic. I have stopped taking mine and it wasn't that bad but after months of regressing I chose to return like the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky movements to them.

Make up your mind before you mouth off like the usual Internet piece of shit. This is a rough group and if you had followed the usual recommendations you would have known that and have nothing to say about it.
in misc.kids.health, alt.support.breast-implant, misc.health.alternative

Bad practice to ground yourself when working on electronics. It increases the chance of injury or death by electrical shock and also increases the chance of static discharge to the circuit chips. Ground is a potential too.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject lines changing, intermingled posts and downloading binary files with mixed posts, random pieces and many other problems all the nonOE people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged 13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation first so there is, at least, some stake, like friendship for the person listening. When the friendship is well developed then attack. Not too obvious at first or you will lose your audience. This will enhance your troll points.

I think outside opinions are worth much more than sales hype from the company that made the product.
Referring to *factory* charging specifications for the batteries they make

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way back to the transformer neutral.

A thought I have is rain water from a roof on a three story home through a micro-turbine.

Setback thermostats only work efficiently for small differentials, dependant on the time duration.

Breakers are good for one time usage of one fault and then they need to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully charged. The nicads will be cooked because you keep them on charge, just in case you need them but when you remember them six months later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the diode in 1941 but I am not familiar with the solar panel usage requirements of them. (no P & N substrate explanations please. I wrote the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a 100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for hours to save $3/hour

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve
aluminum does. Overload doesn't make it glow like copper...it flashes
and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up
ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20
horizontal feet. They are made to vent smells and humid air horizontally
only.

Why not spend the money on a contract with the grid company and get an
exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the
US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds
exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals" come and beg for information because they can't our toys do what the good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate lights. They mostly signal my house control computer and it decides what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

Hello,

Tried 6270, but no luck.

Anyone know of any other, non-encrypted, English, broadcasts from
Egypt/Cairo ?

Do they tend to re-broadcast from, e.g., Canada, or are they "usually"
direct ?

Thanks,
Bob

Hello,

For the wiring diagram and instructions, see Brenda Ann's excellent
response.

Regarding diminishing returns, relocate your receiver (or other
receiver) to a place where you can receive the stations you want (both
FM and AM), and that is appropriate to locate your antennas. When you
can find such a place, you can proceed adding the external antenna
inputs.

If you plan to install the antennas outdoor (that means cable will
enter the building from outside), make sure to follow local
regulations on safety (lightning).

For the FM antenna, a straight wire half wave dipole or folded dipole (with 4:1 balun in it) will be fine if you can receive the stations on a portable also (at the position of the antenna). Use 75 or 50 Ohms cable to connect the antenna to your receiver.

For the AM antenna, a large single wire loop (about 1 square meter [11 square feet] may do the job. Also here, use 75 or 75 Ohms cable to connect the antenna to the receiver. The loop must be oriented vertically and has maximum reception in the plane of the loop.

If you are in an interference rich environment, you may need to insert a balun (if not already present in the antennas), to reduce the effect of interference generated close to the cables and receiver.

Note that antennas exist that may perform better, but complexity increases more then proportional and success depends on several other factors. I don't know the quality of the receiver, but using external antennas may result in bad reception due to strong signal overload.

They are direct on 6270 kHz (best carrier strength) in English from
0200 UTC to around 0330 UTC but very seldom do they have any audible
audio modulation. The night before last (where the audio was decent)
appears to have been a fluke and last night it was back to nil on
voice modulation except for some of the music which made it through.

You can try the other frequencies. Here is a text schedule from NASWA:

http://www.hfskeds.com/skeds/B10_EGYPT_110129_0000.txt

That's usually another TV signal. The speed at which the black bar moves
is the difference between the two stations' oscillators. All obsolete now.

Those were the words of the moron I have been stalking for seven years not
for discussion, moron.

You can plainly see how stupid they all are.

That's usually another TV signal. The speed at which the black bar moves
is the difference between the two stations' oscillators. All obsolete now.

Didn't catch the rest of this discussion, but from what I can glean here,
you're talking about analog television vertical sweep rates. In that case:

1) The redefinition of vertical sweep rate from the original 60 Hz had
nothing to do with which way the bars moved. Both it and the horizontal
sweep rate had to be adjusted to accommodate the addition of color
(vertical, horizontal and chroma needed to be even multiples of each other
to avoid synchronization problems).

2) Black bars (especially TWO black bars) moving up the screen are caused by
inadequate filtering of 120 Hz pulsating DC from the power supply.

3) The effect alluded to for two different stations is not caused by
differences in oscillator frequency, but by capture effect in the
television's sync stages. These will always lock to the strongest sync
pulses, while the weaker signal (you'd be surprized at how much lower the
interfering signal strength is and yet still be able to see a picture!) sort
of just rolls along underneath.

We have a bit of confusion here. There is an impostor posting under my user name and fictitious email address. He has taken offense at being corrected on so many topics that he now seeks a rather juvenile revenge.

The poster is a childish character from Ontario, Canada, and is a self proclaimed expert on every topic known to mankind. Some years ago, I collected all his misinformed and just plain wrong statements and put them into a collection.

When I corrected him yet again on his belief in single pole generators, he got mad and started posting my old collection, posing as me while he was doing it.

He has at least six different identities and usually argues with himself in the same threads. 'Josepi' has been a common sock puppet for him.

It's my belief that identity theft is one of the lowest things you can do. You can help the cause by complaining about the fraud to:

abuse@teranews.com

The message IDs are similar to this one for all his identities:

I have never seen MSNBC call itself news. Basically, they take news
and then provide commentary on it. Admittedly, with a liberal
perspective. At least they try to base it on actual events.

Nice. Wish I had a better location - those stations, no matter what
antenna and radio I use, are only a pipe dream.

Hi, Joe- I have thought about a spring - those screen door springs provide enough tension and travel? I expect up to about 3 feet travel on that tree in the highest winds we get here.

To be honest, a counterweight is not a problem as to position and safety. A spring might be a little bit neater if it has enough strength and give. Neither one sounds very expensive.

Thanks, Bruce

I had a faint carrier from them and even fainter modulation about 0830
on Feb. 12. They were nearly co-channel with another station
(thinking it was 4755 R.Imaculada Conceicao, Brazil). Neither could
be heard well enough to identify the language.

774. Reception Reports sent recently

Well, the new inverted-L antenna is grounded and the cable mostly buried; now I will try to add the RF isolator at the point where the cable enters the house, and see if that happens.

I have had quite good luck with this antenna, relatively speaking. It has lower noise generally than any other antenna I have constructed, works *very* well on the MFJ-1026 noise canceller along with the DX-Ultra antenna, and delivers a noticeably stronger desired signal than the antenna it replaces. I believe I am still limited by my location, along the SF bayshore surrounded by hills, and in a RFI soup.

Having said that, I have managed to hear well and send out reception reports recently for VOIRI Iran; HD2IOA Ecuador; BBC-IO Relay Seychelles; RN de la RASD, Algeria; and a couple of easier grabs, CVC 1Africa Zambia and BBC Relay Ascension Island. Also did a retread of VOA Botswana (why won't VOA even send an e-mail?).

WRTVH is ridiculously helpful with contact information. What a resource.

I am pretty pleased...but...For real DX on a regular basis, I think I have no choice but to evacuate.

ID heard here at 0858. The techs who came in and put up this new antenna for them should get a medal. It's amazing what they're getting out of just 1 kW.

Other stations should take note!

- I have never seen MSNBC call itself news.

BpnJ,

Google -says- 24.7M Links for "MSNBC"+"News"

Some-Millions-of-Bodies sure do consider MSNBC
a "News" Related 'Media' Organization/Operation.

MSNBC.Com is a Leader in Breaking News,
Video and Original Journalism.
http://www.msnbc.msn.com/

-wikipedia-says-
MSNBC [TV] is a Cable "News" Channel
based in the United States
http://en.wikipedia.org/wiki/MSNBC

-wikipedia-says-
MSNBC.COM is a "News: Website jointly owned
and operated by NBC Universal and Microsoft.
http://en.wikipedia.org/wiki/Msnbc.com
.
- Basically, they take news and then provide
- commentary on it.

? Don't They All ?
.
- Admittedly, with a liberal perspective.

Ah ! -so-called- 'Agenda Driven' Media
.
- At least they try to base it on actual events.

Never Disputed the 'Actual Events' -aka- "Facts"
-wrt- "Where All Facts Have A Naturally Liberal BIAS."

well that's that ...so... i'l be . . .
m-s-n-b-c'ing you :o) ~ RHF
.
.

"Flavoring" The News : Agenda Driven Media :

Remember even the old "Gunfight at the OK Corral"
http://en.wikipedia.org/wiki/Gunfight_at_the_O.K._Corral
Had Two Different Stories To Be Told :
One for the Clantons
-and-
One for the Earps
Mostly today we hear the Earps side of the
Story cause as it is Told by them 'They Won' !
-and-as-they-say-
The Winners Write The History Books ~ RHF
.
IMHO : If you Critically Listen to most News Media
from around the World : You soon can tell how
it is being 'flavored' {Presented with and Agenda}
* The BBC is 1st Pro-UK; then Semi-Pro-Euro-Land
and Not Too Anti-American
* Most Euro-Land Sources are 1st Pro-Euro-Land

and some what Anti-American
* Russia is 1st Pro-Russian ; then Semi-Pro-Euro-Land;
and some what Anti-American
* China is 1st Pro-Chinese; then Semi-Pro-3rd-World;
and some what Anti-American
* So naturally Al Jazeera and Press TV are 1st
Pro-Islamic and Pro-Arabic; and mostly Anti-Western
and Anti-American

-wrt- Agenda-Setting Theory
http://en.wikipedia.org/wiki/Agenda-setting_theory
.
.

784. The Original "Fallacy" of the Thing Called the 'Main Stream Media'

- MSM is most likely: the Main Stream Media .
- I think .

Arthrny,

OK Thinking Is Good :o)
-so- "MSM" = 'Main Stream Media'
-modified-to- "Mainstream Media" (MsM)
-where- 'Main' & 'Stream' are combined into
one word "Mainstream"
-but- Keeping the Two Letter Acronym "MS"
for 'Main Stream Media' [MSM]
http://en.wikipedia.org/wiki/Mainstream_media
-wikipedia-agrees-with-you-

OK : So Now Let's Think About the Name {Brand}
"Mainstream Media" [MSM] -aka- 'Main Stream Media'
?Question? Is It True "Mainstream" {Main Stream} ?
? Does It Truly Represent The Views and Thinking
of the Vast Majority of Middle {Class} Americans ?
OR Was It Trying To Shape The Consciousness
of the Vast Majority of Middle {Class} Americans ?
? With an "Agenda" and Calling Itself "Mainstream"
in Name Only !

The Original "Fallacy" of the 'Main Stream Media' :
The Fallacy* that the so-called 'Main Stream Media'
was "Main Stream" : Controlled by the Media Elites
of NYC/WDC {East Coast} and LA {West Coast}
-where-as- The True Main-Stream {Vast Majority}
of Americans are in America's Heartland. -imho-
http://en.wikipedia.org/wiki/Mainstream
http://en.wikipedia.org/wiki/Fallacy
* Fallacy = Propaganda Lie

"MSM" = 'Mainstream Media' {Main Stream Media}
That's so 1990s -aka- Old School 20th Century.

What was once called the "Main Stream Media"
has been supplanted by the "New Media" for the
Now Generation and Next Generation of News
and Info-Tainment Media Consumers here in the
21st Century.
http://en.wikipedia.org/wiki/New_media

The one time "Main Stream Media" is now referred
to as the Old {Dinosaur} Media : Old, Slow, rapidly
Outdated, and becoming Extinct.
http://en.wikipedia.org/wiki/Old_media

Also the former "Main Stream Media" has been
re-branded as the "Drive-By Media" with NO real
Reporting and Mostly Agenda-Driven Coverage.
-wrt- Agenda-Setting Theory
http://en.wikipedia.org/wiki/Agenda-setting_theory

Then Again Name {Brand} "Government-Media
Complex"* has been used by some to show the
Linkage between the Old "Main Stream Media"
and the US Federal Government and the Liberal
Progressive 'Elite' who control both.

* ABC & CBS & NBC & PBS & CNN & MSNBC
& FOX etc etc etc...

well that's that ...so... i'l be . . .
new news speaking you :o) ~ RHF©***

- Nice.
- Wish I had a better location - those stations,

- no matter what antenna and radio I use,
- are only a pipe dream.

BpnJ,

You Just make a List of the Target SW Frequencies
and Keep-on Checking It a couple of times a week;
week after week.

Program a Block of Ten "Target" Frequencies into
your Icom IC-R75 Receiver and go through these
Presets Daily. Update Presets as you Hear them
and Log them.

Remember the Shortwave Radio "Conditions" are
only 'Right' : When and if, you have the Radio 'On';
and you are Listening-To the Radio ;;-}}

listening to the shortwave radio :
it's just 'right' with me~ RHF

NOTE : I tuned around for the 'other' ABC National
{Domestic} Shortwave Radio Stations; but did not
even get a Carrier.
http://www.abc.net.au/reception/radio/shortwave.htm

I did hear several Koreans down there at the same
time; and 2850 kHz had Listenable with Music S-7
and SIO 333 ~ RHF
.
FWIW : The Early Morning Gray-Line seems to be
the best time to try for these on the NA West Coast.
Starting Around : 1200 UTC ~ 4 AM PST Local
To Around : 1400 UTC ~ 6 AM PST Local

I'd see it all the time in the San Gabriel Mountains. When I was
transmitter supervisor at channel 30, KCET (channel 28) would get into
my Tektronix demod. Cable TV guys still have to mess with it.

As long as it's just a known bias, all is well. If they start making
stuff up, and "balancing" facts with lies, then we got trouble my friends.

Well known liberals like Pat Buchanan, Joe Scarborough and Mrs. Greenspan! MSNBC is the left compliment to CNBC (aka "Bubblevision"), a station more unashamedly pro-oinker than Fox News could ever hope to be. These people cut to the chase. Talk about yer money shots.

Getting out of the bubble is a little jarring at first. I take it you don't listen to the World Service. It has been the Gibraltar of my world view for over thirty years. They are biased, but reliably the same.

McClatchy (sacbee)is good for domestic issues. Anything on TV is eye candy infotainment. You can tell the story better without pictures sometimes. Sometimes the pictures are used against you. Mass media PTSD is real. Disaster porn.

You need real antenna rope. UV treated Dacron polyester antenna rope.

You ask an interesting -- and possibly unanswerable by me -- question. I really don't know how much "travel" my trees have. One end is a Norway maple and the other end is an evergreen with a roof tripod in the center. Antenna height is approximately 25 feet. We have experienced winds of at least 60 mph and as stated, the antenna has been up without failure since 1994. (knock on wood!)

As to "tension", the only answer I can give is that a) it works and b) the antenna does not sag.

Your three feet seems like a lot of travel; I'm quite sure that the garden variety screen door spring will -not- have that much play.

It seems the counterweight/pulley arrangement will be just fine (and probably necessary with that much movement), with the caveat that you invest in a stainless steel sailboat block (expensive) because the cheap galvanized hardware store pulleys WILL rust.

Good luck and let us know the final outcome.

I've always used "regular" polyester rope, which I think is inherently
UV resistant. It lasts longer than the antennas do. I think Dacron
is just a brand name for polyester anyway.

You can use a bungee cord if you put a UV protection sheath around it.

Using an A-D DX-Ultra as main antenna (usually) and the new Inverted-L
as the noise antenna. This works really well everywhere except
between 5 Mhz and 2 MHz, where the DX-Ultra becomes far too

insensitive to be of any value for anything. On MW, it becomes sensitive again. I have no idea whey this is, it's just deaf on the tropical bands.

Right now, I'd rather have another inverted L *exactly* like the one I just put up. That would be a drop-dead killer combo on the MFJ.

I almost always use the DX ULTRA as the main and the Inverted-L as the
noise antenna, when I am actually using for noise reduction.
Sometimes, the two need not even be exchanged to reverse the use; on
rare occasions, I will swap them between the inputs.

The Inverted-L is so excellent on its own that noise reduction has
become less important, even though it is now easier and more effective.

solutions manual to Computer Networking A Top-Down Approach Featuring the Internet, 3E Kurose,Ross
solutions manual to Computer Networking: A Top-Down Approach (4th Ed., James F. Kurose & Keith W. Ross)
solutions manual to Computer Networks A Systems Approach, 2nd Edition, Larry Peterson, Bruce Davie
solutions manual to Computer Networks, 4th Ed., by Andrew S. Tanenbaum
solutions manual to Computer Organization 3rd Edition by Carl Hamacher , Zvonoko Vranesic ,Safwat Zaky
solutions manual to Computer Organization and Architecture: Designing for Performance (7th Ed., William Stallings)
solutions manual to Computer Organization and Design The Hardware Software Interface, 3rd edition by David A Patterson and John L Hennessy
solutions manual to Computer system architecture 3rd Ed Morris Mano
solutions manual to Concepts and Applications of Finite Element Analysis (4th Ed., Cook, Malkus, Plesha & Witt)
solutions manual to Concepts of Modern Physics 6th ED by Arthur Beiser
solutions manual to Contemporary Engineering Economics (4th Ed., Chan Park)
solutions manual to Continuum Electromechanics by James R. Melcher
solutions manual to Control Systems Engineering, 4E, by Norman Nise
solutions manual to Control Systems Principles and Design 2e by M. Gopal
solutions manual to Convex Analysis and Optimization Dimitri P. Bertsekas
solutions manual to Corporate Finance The Core plus MyFinanceLab Student Access Kit (Jonathan Berk & Peter DeMarzo)
solutions manual to Corporate Finance, 7E, by Ross
solutions manual to Cost Accounting-A Managerial Emphasis 13th Ed by Charles Horngren
solutions manual to Cryptography and Network Security (4th Ed., William Stallings)
solutions manual to Data & Computer Communication, 7th Ed, by William Stallings
solutions manual to Data Communications and Networking by Behroz

Forouzan
solutions manual to Data Structures with Java by John R. Hubbard, Anita Huray
solutions manual to Database Management Systems, 3rd Ed., by Ramakrishnan, Gehrke
solutions manual to Database System Concepts 5th ED by Silberschatz, Korth, Sudarshan
solutions manual to Design Analysis in Rock Mechanics by William G. Pariseau
solutions manual to Design and Analysis of Experiments, 6E, by Montgomery
solutions manual to Design of Analog CMOS Integrated Circuits by Razavi
solutions manual to Design of Analog CMOS Integrated Circuits, 2 Edition, by Razavi Douglas C. Montgomery
solutions manual to Design of Fluid Thermal Systems, 2nd Edition janna
solutions manual to Design of Machinery (3rd Ed., Norton)
solutions manual to Design of Reinforced Concrete, 8th Ed by McCormac, Brown
solutions manual to Design with Operational Amplifiers and Analog Integrated Circuits (3rd Ed., Sergio Franco)
solutions manual to Device Electronics for Integrated Circuits 3rd Edition by muller kamins
solutions manual to Differential Equations and Linear Algebra (2nd Ed., Jerry Farlow, Hall, McDill & West)
solutions manual to Differential Equations and Linear Algebra (C. Henry Edwards & David E. Penney)
solutions manual to Differential Equations and Linear Algebra 3e by Stephen W Goode
solutions manual to Differential Equations with Boundary Value Problems (2e, John Polking, Al Boggess & Arnold)
solutions manual to Digital Communications Fundamentals and Applications 2e Bernard Sklar
solutions manual to Digital Communications, 4E, by Proakis
solutions manual to Digital Design (4th Ed., M. Morris Mano & Michael D. Ciletti)
solutions manual to Digital Design: Principles and Practices Package (4th Ed., John F. Wakerly)
solutions manual to Digital Fundamentals (9th Ed., Thomas L. Floyd)
solutions manual to Digital Image Processing, 2e, by Gonzalez, Woods
solutions manual to Digital Integrated Circuits, 2nd Ed., by Rabaey
solutions manual to Digital Logic Design by Mano
solutions manual to Digital Signal Processing - A Modern Introduction, by Ashok Ambardar
solutions manual to Digital Signal Processing Principles, Algorithms and Applications, 3rd Edition by John G. Proakis
solutions manual to Digital Signal Processing a computer based approach (2nd Ed.) (Mitra)
solutions manual to Digital Signal Processing a computer based approach (Mitra)

solutions manual to Digital Signal Processing by Proakis & Manolakis
solutions manual to Digital Signal Processing by Thomas J. Cavicchi
solutions manual to Digital Systems - Principles and Applications (10th Ed., Ronald Tocci, Neal Widmer, Greg Moss)
solutions manual to Discrete and Combinatorial Mathematics 5e by Ralph P. Grimaldi
solutions manual to Discrete Mathematics (6th Ed., Richard Johnsonbaugh)
solutions manual to Discrete Mathematics (6th Edition) by Richard Johnsonbaugh
solutions manual to Discrete Random Signals and Statistical Signal Processing Charles W. Therrien
solutions manual to Discrete Time Signal Processing, 2nd Edition, Oppenheim
solutions manual to DSP First A Multimedia Approach-Mclellan, Schafer & Yoder
solutions manual to Dynamic Modeling and Control of Engineering Systems 2 E T. Kulakowski , F. Gardner, Shearer
solutions manual to Dynamics of Flight- Stability and Control, 3rd Ed by Etkin, Reid
solutions manual to Dynamics of Mechanical Systems by C. T. F. Ross
solutions manual to Econometric Analysis, 5E, by Greene
solutions manual to Econometric Analysis, 6E, by Greene
solutions manual to Econometrics of Financial Markets, by Adamek, Cambell, Lo, MacKinlay, Viceira
solutions manual to Econometrics: A Modern Introduction (Michael P. Murray)
solutions manual to Electric Circuits (7th Ed., James W Nilsson & Susan Riedel)
solutions manual to Electric Circuits (8th Ed., James W Nilsson & Susan Riedel)
solutions manual to Electric Machinery 6th ed. A.E. Fitzgerald,Kingsley,Umans
solutions manual to Electric Machinery and Power System Fundamentals (Chapman)
solutions manual to Electric Machinery Fundamentals (4th Ed., Chapman)
solutions manual to Electric Machines Analysis and Design Applying MATLAB,Jim Cathey
solutions manual to Electric Machines By D. P. Kothari, I. J. Nagrath
solutions manual to Electrical Engineering Principles and Applications (3rd Ed., Allan R. Hambley)
solutions manual to Electrical Engineering Principles and Applications (4th Ed., Allan R. Hambley)
solutions manual to Electrical Machines, Drives and Power Systems (6th Ed., Theodore Wildi)
solutions manual to Electromagnetic Fields and Energy by Haus, Melcher
solutions manual to Electromagnetics Problem Solver (Problem Solvers) By The Staff of REA
solutions manual to Electromagnetism. Principles and Applications by LORRAIN, PAUL ; CORSON, DAVID

solutions manual to Electromechanical Dynamics Part 1, 2, 3 by Herbert H. Woodson, James R. Melcher
solutions manual to Electronic Circuit Analysis, 2nd Ed., by Donald Neamen
solutions manual to Electronic Devices 6th ed and electronic devices Electron Flow Version 4th ed, Floyd
solutions manual to Electronic Devices and Circuit Theory 8th Ed by Robert Boylestad
solutions manual to Electronic Physics Strabman
solutions manual to Electronics, 2nd Ed., by Allan R. Hambley
solutions manual to Elementary Differential Equations (Werner E. Kohler, Johnson)
solutions manual to Elementary Differential Equations and Boundary Value Problems (8th Ed., Boyce & Diprima)
solutions manual to Elementary Linear Algebra 5th edition by Stanley I. Grossman
solutions manual to Elementary Linear Algebra by Matthews
solutions manual to Elementary Linear Algebra with Applications (9th Ed., Howard Anton & Chris Rorres)
solutions manual to Elementary mechanics & thermodynamics jhon w.Nobury
solutions manual to ELEMENTARY NUMBER THEORY AND ITS APPLICATIONS, (5TH EDITION, Bart Goddard, Kenneth H. Rosen)
solutions manual to Elementary Principles of Chemical Processes (3rd Ed., Felder & Rousseau)
solutions manual to Elementary Statistics Using The Graphing Calculator 9 Ed by MILTON LOYER
solutions manual to Elementary Statistics Using the Graphing Calculator For the TI-83-84 Plus (Mario F. Triola)
solutions manual to Elements of Information Theory - M. Cover, Joy A. Thomas
solutions manual to Elements of Chemical Reaction Engineering by Fogler hubbard, hamman , johnson , 3rd edition
solutions manual to Elements of Deductive Inference by Bessie, Glennan
solutions manual to Elements of Electromagnetics , 2 ed by Matthew N. O. Sadiku
solutions manual to Elements of Electromagnetics , 3ed by Matthew N. O. Sadiku
solutions manual to Embedded Microcomputer Systems Real Time Interfacing, 2nd Edition , Jonathan W. Valvano
solutions manual to Engineering and Chemical Thermodynamics (Koretsky)
solutions manual to ENGINEERING BIOMECHANICS (STATICS) by Angela Matos, Eladio Pereira, Juan Uribe and Elisandra Valentin
solutions manual to Engineering Circuit Analysis 6Ed, Luay Shaban
solutions manual to Engineering Circuit Analysis 6th ed by Hayt
solutions manual to Engineering Circuit Analysis 7th Ed. by William H. Hayt Jr
solutions manual to Engineering Electromagnetics 6E by William H. Hayt Jr. and John A. Buck
solutions manual to Engineering Electromagnetics 7E by William H. Hayt

Jr. and John A. Buck
solutions manual to Engineering Fluid Mechanics - 8th Ed by Crowe, Elger & Roberson
solutions manual to Engineering Fluid Mechanics 7th Ed by Crowe and Donald
solutions manual to Engineering Materials Science, by Milton Ohring
solutions manual to Engineering Mathematics (4th Ed., John Bird)
solutions manual to Engineering Mechanics - Dynamics by Boresi, Schmidt
solutions manual to Engineering Mechanics - Dynamics, 5th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics - Dynamics, 6th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics - Statics (10th Edition) by Russell C. Hibbeler
solutions manual to Engineering Mechanics - Statics (11th Edition) by Russell C. Hibbeler
solutions manual to Engineering Mechanics - Statics by Boresi, Schmidt
solutions manual to Engineering Mechanics - Statics, 4th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics - Statics, 6th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics : Dynamics (11th Ed., Hibbeler)
solutions manual to Engineering Mechanics Dynamic (10th Edition) hibbeler
solutions manual to Engineering Mechanics Dynamics (12th Ed., Hibbeler)
solutions manual to Engineering Mechanics Dynamics, Bedford & Fowler, 5th Edition
solutions manual to Engineering Mechanics Dynamics, by R. C. Hibbeler, 3rd
solutions manual to Engineering Mechanics Statics (12th Ed., Hibbeler)
solutions manual to Engineering Mechanics Statics, Bedford & Fowler, 5th Edition
solutions manual to Engineering Statistics (4th Ed., Douglas Montgomery, George Runger & Norma Faris Hubele)
solutions manual to Essentials of Soil Mechanics and Foundations: Basic Geotechnics (7th Ed., David F. McCarthy)
solutions manual to Feedback Control of Dynamic Systems (4th Ed., Franklin, Powell & Emami-Naeini)
solutions manual to Feedback Control of Dynamic Systems (5th Ed., Franklin, Powell & Emami-Naeini)
solutions manual to Field and Wave Electromagnetics 2nd Ed by David K. Cheng
solutions manual to Financial Accounting 6th Ed by Harrison
solutions manual to Financial Management- Theory and Practice 12 th ED by Brigham, Ehrhardt
solutions manual to Finite Element Techniques in Structural Mechanics Ross

solutions manual to First Course in Probability (7th Ed., Sheldon Ross)
solutions manual to Fluid Mechanics (5th Ed., White)
solutions manual to Fluid Mechanics and Thermodynamics of Turbomachinery (5th Ed., S.L. Dixon)
solutions manual to Fluid Mechanics by CENGEL
solutions manual to Fluid Mechanics Egon Krause
solutions manual to Fluid Mechanics Fundamentals and Applications by Çengel & Cimbala
solutions manual to Fluid Mechanics with Engineering Applications, 10th Edition, by Finnemore
solutions manual to Foundations of Colloid Science 2e , Hunter
solutions manual to Foundations of Electromagnetic Theory by John R. Reitz, Frederick J. Milford
solutions manual to Fourier and Laplace Transform - Antwoorden
solutions manual to Fractal Geometry Mathematical Foundations and Applications, 2nd Ed Kenneth Falcone
solutions manual to fracture mechanics ; fundamentals and applications, 2E, by T.L. Anderson
solutions manual to From Polymers to Plastics By A.K. van der Vegt
solutions manual to Fundamentals of Aerodynamics (3 Ed., Anderson)
solutions manual to Fundamentals of Aerodynamics (2 Ed., Anderson)
solutions manual to Fundamentals of Applied Electromagnetics (5th Ed., Fawwaz T. Ulaby)
solutions manual to Fundamentals of Chemical Reaction Engineering by Davis
solutions manual to Fundamentals of Complex Analysis (3rd Ed., E. Saff & Arthur Snider)
solutions manual to Fundamentals of Computer Organization and Architecture by Abd-El-Barr, El-Rewini
solutions manual to Fundamentals of Corporate Finance 8th edition by Ross
solutions manual to Fundamentals of Corporate Finance 9th edition by Ross
solutions manual to Fundamentals of Corporate Finance, 4th Edition (Brealey, Myers, Marcus)
solutions manual to Fundamentals of Differential Equations 7E Kent Nagle, B. Saff, Snider
solutions manual to Fundamentals of Digital Logic with VHDL Design (1st Ed., Stephen Brown Vranesic)
solutions manual to Fundamentals of Electric Circuits (2nd.ed.) by C.K.Alexander M.N.O.Sadiku
solutions manual to Fundamentals of Electric Circuits (4E., Charles Alexander & Matthew Sadiku)
solutions manual to Fundamentals of Electromagnetics with Engineering Applications (Stuart Wentworth)
solutions manual to Fundamentals of Electronic Circuit Design , Comer
solutions manual to FUNDAMENTALS OF ENGINEERING ELECTROMAGNETICS, by DAVID CHENG
solutions manual to Fundamentals of Engineering Thermodynamics, 6th Ed

(Michael J. Moran, Howard N. Shapiro)
solutions manual to Fundamentals of Engineering Thermodynamics, 7th Ed (Michael J. Moran, Howard N. Shapiro)
solutions manual to Fundamentals of Financial Management 12th edition James C. Van Horne, Wachowicz
solutions manual to Fundamentals of Fluid Mechanics, 4E (Bruce R. Munson, Donald F. Young, Theodore H.)
solutions manual to Fundamentals of Heat and Mass Transfer - 5th Edition F.P. Incropera D.P. DeWitt
solutions manual to Fundamentals of Heat and Mass Transfer (4th Ed., Incropera, DeWitt)
solutions manual to Fundamentals of Heat and Mass Transfer (6th Ed., Incropera, DeWitt)
solutions manual to Fundamentals of Logic Design, 5th Ed., by Charles Roth
solutions manual to Fundamentals of Machine Component Design (3rd Ed., Juvinall)
solutions manual to Fundamentals of Manufacturing 2nd Edition by Philip D. Rufe
solutions manual to Fundamentals of Materials Science and Engineering- An Integrated Approach, 3rd Ed by Callister
solutions manual to Fundamentals of Modern Manufacturing: Materials, Processes, and Systems (2nd Ed., Mikell P. Groover)
solutions manual to Fundamentals of Organic Chemistry, 5E, by T. W. Graham Solomons
solutions manual to Fundamentals of Physics (7th Ed., David Halliday, Robert Resnick & Jearl Walker)
solutions manual to Fundamentals of Physics, 8th Edition Halliday, Resnick, Walker
solutions manual to Fundamentals of Probability, with Stochastic Processes (3rd Ed., Saeed Ghahramani)
solutions manual to Fundamentals of Quantum Mechanics (C.L. Tang)
solutions manual to Fundamentals of Semiconductor Devices, 1st Edition by Anderson
solutions manual to Fundamentals of Signals and Systems Using the Web and Matlab (3rd Ed., Kamen & Bonnie S Heck)
solutions manual to Fundamentals of Solid-State Electronics by Chih-Tang Sah
solutions manual to Fundamentals of Thermal-Fluid Sciences, 2nd Ed. by Cengel
solutions manual to Fundamentals of Thermodynamics 5th Ed by Sonntag, Borgnakke and Van Wylen
solutions manual to Fundamentals of Thermodynamics 6th Ed by Sonntag, Borgnakke & Van Wylen
solutions manual to Fundamentals of Wireless Communication by Tse and Viswanath
solutions manual to Gas Dynamics (3rd Ed., John & Keith)
solutions manual to General Chemistry 9 Edition by Ebbings, Gammon
solutions manual to General Chemistry, 8th Edition by Ralph H. Petrucci; William S. Harwood; Geoffrey Herring

solutions manual to Geometry and Discrete Mathematics Addison Wesley
solutions manual to Guide to Energy Management, 6th Edition by Klaus Dieter E. Pawlik
solutions manual to Guide to Energy Management, Fifth Edition, Klaus-Dieter E. Pawlik
solutions manual to HARCOURT MATHEMATICS 12 Advanced Functions and Introductory Calculus
solutions manual to Harcourt Mathematics 12 Geometry and Discrete Mathematics
solutions manual to Heat and Mass Transfer: A Practical Approach (3rd. Ed., Cengel)
solutions manual to Heat Transfer A Practical Approach ,Yunus A. Cengel 2d ed
solutions manual to Heating, Ventilating and Air Conditioning Analysis and Design, 6th Edition McQuiston, Parker, Spitler
solutions manual to History of Mathematics: Brief Version (Victor J. Katz)
solutions manual to Hydraulics in Civil and Environmental Engineering 4 E by Chadwick , Morfett
solutions manual to Industrial Organization Theory & Applications by Shy
solutions manual to Intermediate Accounting Kieso 12th ed
solutions manual to Introduction to Algorithms, 2nd Ed by Cormen, Leiserson
solutions manual to Introduction To Analysis (3rdEd) -by William Wade
solutions manual to Introduction to Chemical Engineering Thermodynamics (7th Ed., Smith & Van Ness)
solutions manual to Introduction to Commutative Algebra by M. F. Atiyah
solutions manual to Introduction to Digital Signal Processing (in Serbian) by Lj. Milic and Z. Dobrosavljevic
solutions manual to Introduction to Econometrics (2nd ed., James H. Stock & Mark W. Watson)
solutions manual to Introduction to Electric Circuits 7th Edition by Dorf, Svaboda
solutions manual to Introduction to Electric Circuits, 6E, Dorf
solutions manual to Introduction to Electrodynamics (3rd Ed., David J. Griffiths)
solutions manual to Introduction to Elementary Particles 2nd Ed by David Griffiths
solutions manual to Introduction to Environmental Engineering and Science (3rd Ed., Gilbert M. Masters & Wendell P. Ela)
solutions manual to Introduction to Environmental Engineering and Science, Edition 2, Masters
solutions manual to Introduction to Ergonomics 2E by Robert Bridger
solutions manual to Introduction to Fluid Mechanics (6E., Robert Fox, Alan McDonald & Philip)
solutions manual to Introduction to fluid mechanics 5th edition by Alan T. McDonald, Robert W Fox
solutions manual to Introduction to Graph Theory 2E - West

solutions manual to Introduction to Heat Transfer by Vedat S. Arpaci, Ahmet Selamet, Shu-Hsin Kao
solutions manual to Introduction to Linear Algebra, 3rd Ed., by Gilbert Strang
solutions manual to Introduction to Materials Science for Engineers (6th Ed., Shackelford)
solutions manual to Introduction to Mathematical Statistics (6th Ed., Hogg, Craig & McKean)
solutions manual to Introduction to Operations Research - 7th ed by Frederick Hillier, Gerald Lieberman
solutions manual to Introduction to Probability 2nd Ed by Bertsekas and Tsitsiklis
solutions manual to Introduction to Probability by Dimitri P. Bertsekas and John N. Tsitsiklis
solutions manual to Introduction to Probability by Grinstead, Snell
solutions manual to Introduction to Quantum Mechanics (2nd Ed., David J. Griffiths)
solutions manual to Introduction to Quantum Mechanics 1st edition (1995) by David J. Griffiths
solutions manual to Introduction to Queueing Theory 2nd Edition by R.B. Cooper
solutions manual to Introduction to Scientific Computation and Programming, 1st Edition by Daniel Kaplan
solutions manual to Introduction to Solid State Physics 8th Ed by Kittel & Charles
solutions manual to Introduction to Statistical Physics by Kerson Huang
solutions manual to Introduction to Statistical Quality Control (5th Ed., Douglas C. Montgomery)
solutions manual to Introduction to the Theory of Computation by Ching Law
solutions manual to Introduction to Thermal and Fluids Engineering by Kaminski, Jensen
solutions manual to Introduction to Thermal Systems Engineering Moran Shapiro Munson
solutions manual to Introduction to VLSI Circuits and Systems, by John P. Uyemura
solutions manual to Introduction to Wireless Systems by P.M Shankar
solutions manual to Introductory Econometrics A Modern Approach, 3Ed by Jeffrey Wooldridge
solutions manual to Introductory Quantum Optics (Christopher Gerry & Peter Knight)
solutions manual to Introdution to Solid State Physics, 8th Edition by Kittel
solutions manual to Investment Analysis and Portfolio Management 7th Edition by Frank K. et al. Reilly
solutions manual to Journey into Mathematics An Introduction to Proofs ,Joseph Rotman
solutions manual to Kinematics, Dynamics, and Design of Machinery, 2nd Ed., Waldron & Kinzel

solutions manual to Kinetics of Catalytic Reactions by M. Albert Vannice
solutions manual to Laser Fundamentals (2nd Ed., William T. Silfvast)
solutions manual to Lectures on Corporate Finance 2006, 2 Ed by Bossaerts, Oedegaard
solutions manual to Linear Algebra - 2 Ed - Poole
solutions manual to Linear Algebra and Its Applications 3rd ed by David C. Lay
solutions manual to Linear Algebra Done Right, 2nd Ed by Sheldon Axler
solutions manual to Linear Algebra with Applications (6th Ed., S. Leon)
solutions manual to Linear Algebra With Applications, 2nd Edition by W. Keith Nicholson
solutions manual to Linear Algebra, 4th Ed, by Stephen H. Friedberg , Arnold J. Insel , Lawrence E. Spence
solutions manual to Linear Algebra, by J. Hefferon
solutions manual to Linear Circuit Analysis Time Domain, Phasor and Laplace.., 2nd Ed, Lin
solutions manual to Linear Systems And Signals, 1stE, B P Lathi
solutions manual to Logic and Computer Design Fundamentals, 2E, by Morris Mano and Charles Kime
solutions manual to Logic and Computer Design Fundamentals, 3d edition by Morris Mano and Charles Kime
solutions manual to Logic and Computer Design Fundamentals, 4/E, by Morris Mano and Charles Kime
solutions manual to Machine Design : An Integrated Approach (3rd Ed., Norton)
solutions manual to Managing Business Process Flows: Principles of Operations Management(2nd Ed., Anupind, Chopra, Deshmukh, et al)
solutions manual to Managing Engineering and Technology (4th, Morse & Babcock)
solutions manual to Manufacturing Processes for Engineering Materials (5th Ed. Kalpakjian & Smith)
solutions manual to Materials and Processes in Manufacturing (9th Ed., E. Paul DeGarmo, J. T. Black,Kohser)
solutions manual to Materials Science and Engineering- An Introduction (7th Ed., William D. Callister, Jr.)
solutions manual to Materials Science and Engineering- An Introduction (6th Ed., William D. Callister, Jr.)
solutions manual to Mathematical Analysis, Second Edition by Tom M. Apostol
solutions manual to Mathematical Methods for Physicists 5 Ed, Arfken
solutions manual to Mathematical Methods for Physics and Engineering, (3rd Ed., Riley,Hobson)
solutions manual to Mathematical Methods in the Physical Sciences; 3 edition by Mary L. Boas
solutions manual to Mathematical Models in Biology An Introduction (Elizabeth S. Allman & John A. Rhodes)
solutions manual to Mathematical Techniques 4th ED by D W Jordan & P Smith

solutions manual to Mathematics for Economists, by Carl P. Simon , Lawrence E. Blume
solutions manual to Mathematics for Physicists by Susan Lea
solutions manual to Matrix Analysis and Applied Linear Algebra by Meyer
solutions manual to Mechanical Engineering Design 8th Ed by Shigley & Budynas
solutions manual to Mechanical Engineering Design, 7th Ed. by Mischke, Shigley
solutions manual to Mechanical Measurements (6th Ed., Beckwith, Marangoni & Lienhard)
solutions manual to Mechanical Vibrations (3rd Ed., Rao)
solutions manual to Mechanics of Aircraft Structures, 2nd Ed by Sun
solutions manual to Mechanics of Fluids (8th Ed., Massey)
solutions manual to Mechanics of Fluids 3rd ED Vol 1 by Merle C. Potter
solutions manual to Mechanics of Materials 5 edition by James M. Gere
solutions manual to Mechanics of Materials (6th Ed., Riley, Sturges & Morris)
solutions manual to Mechanics Of Materials Beer Johnston 3rd
solutions manual to Mechanics of Materials, 6E, by Russell C. Hibbeler
solutions manual to Mechanics of Materials, 6th Edition - James M. Gere & Barry Goodno
solutions manual to Mechanics of Materials, 7E, by Russell C. Hibbeler
solutions manual to Mechanics of Materials, 7th Edition - James M. Gere & Barry Goodno
solutions manual to mechanics of solids by C. T. F. Ross
solutions manual to Mechanics of Solids, ross
solutions manual to Mechanism Design Analysis and Synthesis (4th Edition) by Erdman, Sandor, Kota
solutions manual to Microeconomic Analysis, 3rd Ed., by H. Varian
solutions manual to Microeconomic Theory by Segal Tadelis Hara Chiaka Hara Steve Tadelis
solutions manual to Microeconomic Theory, by Mas-Colell, Whinston, Green
solutions manual to Microelectronic Circuit Analysis and Design, 3rd Edition, by D. Neamen
solutions manual to Microelectronic Circuit Design (3rd Ed., Richard Jaeger & Travis Blalock)
solutions manual to Microelectronic Circuits By Adel Sedra 5th Edition
solutions manual to Microelectronic Circuits, 4th Ed. by Sedra and Smith
solutions manual to Microelectronic Circuits, 5th Ed. by Sedra and Smith
solutions manual to Microelectronics Digital and Analog Circuits and Systems by Millman
solutions manual to Microelectronics I & II by Dr.Chang
solutions manual to Microelectronics,Solution MANUAL,5thEd,MAZ
solutions manual to Microprocessors and Interfacing, Revised 2nd

Edition by Douglas V Hall
solutions manual to Microwave and Rf Design of Wireless Systems, 1st Edition, by Pozar
solutions manual to Microwave Engineering, 2nd Ed., by David M. Pozar
solutions manual to Microwave Engineering, 3rd Ed., by David M. Pozar
solutions manual to Microwave Transistor Amplifiers Analysis and Design, 2nd Ed., by Guillermo Gonzalez
solutions manual to Mobile Communications 2nd ed by Jochen Schiller
solutions manual to Modern Control Engineering 3rd Ed. - K. OGATA
solutions manual to Modern Control Engineering 4th Ed. - K. OGATA
solutions manual to Modern Control Systems 11E by Richard C Dorf and Robert H. Bishop
solutions manual to Modern Control Systems 9 E by Richard C Dorf and Robert H. Bishop
solutions manual to Modern Digital and Analog Communication Systems, 3rd Ed., by Lathi
solutions manual to Modern Digital Electronics,3E by R P JAIN
solutions manual to Modern Digital Signal Processing-Roberto Cristi
solutions manual to MODERN OPERATING SYSTEMS 2nd ed A.S.TANENBAUM
solutions manual to Modern Organic Synthesis An Introduction by George Zweifel, Michael Nantz
solutions manual to Modern Physics for Scientists and Engineers 3rd E by Thornton and Rex
solutions manual to Modern Quantum Mechanics (Revised Edition) by J. J. Sakurai
solutions manual to Multivariable Calculus, Applications and Theory by Kenneth Kuttler
solutions manual to Nanoengineering of Structural, Functional and Smart Materials, Mark J. Schulz, Ajit D. Kelkar
solutions manual to Network Flows: Theory, Algorithms, and Applications by Ravindra K. Ahuja , Thomas L. Magnanti , James B. Orlin
solutions manual to Nonlinear Programming ,2ndEdition , Dimitri P.Bertsekas
solutions manual to Numerical Methods for Engineers (3rd Ed. Steven C. Chapra)
solutions manual to Numerical Methods for Engineers (5th Ed. Steven C. Chapra)
solutions manual to Numerical Methods Using MATLAB (3rd Edition)by John H. Mathews & Fink
solutions manual to Numerical Solution of Partial Differential Equations- An Introduction (2nd Ed., K. W. Morton &D)
solutions manual to Operating System Concepts, 6E, Silberschatz, Galvin, Gagne
solutions manual to Operating System Concepts, 7E, Silberschatz, Galvin, Gagne
solutions manual to Operating systems Internals and Design principles 4th Edition Stallings
solutions manual to Operating systems Internals and Design principles 5th Edition Stallings

solutions manual to Operations Management 5th Ed by Nigel Slack, Chambers, Johnston
solutions manual to Optics 4th Edition by Hecht E., Coffey M., Dolan P
solutions manual to Optimal Control Theory An Introduction By Donald E. Kirk
solutions manual to Optimal State Estimation Dan Simon
solutions manual to Options, Futures and Other Derivatives, 4E, by John Hull
solutions manual to Options, Futures and Other Derivatives, 5E, by John Hull
solutions manual to Organic Chemistry - Clayden et.al.
solutions manual to Organic Chemistry 2nd Edition by Hornback
solutions manual to Organic Chemistry 7ed, McMurry
solutions manual to Organic Chemistry, 4E., by Carey, Atkins
solutions manual to Organic Chemistry, 5E., by Carey, Atkins
solutions manual to Parallel & Distributed Computation Numerical Methods by Bertsekas & Tsitsiklis
solutions manual to Parallel Programming: Techniques and Applications Using Networked Workstations and Parallel Computers (2nd Ed., Barry Wilkinson & Michael Allen)
solutions manual to Physical Chemistry (7E, Peter Atkins & Julio de Paula)
solutions manual to Physics - Concept and Connections - Book Two by Brian Heimbecker, Igor Nowikow, et al
solutions manual to Physics - Concept and Connections -by Brian Heimbecker, Igor Nowikow, et al
solutions manual to Physics , Fifth Edition, Volume One (Halliday, Resnick, Krane)
solutions manual to Physics for Scientist and Engineers, 5E, by Tipler, Mosca
solutions manual to Physics For Scientists & Engineers 5th Ed (vol.I,vol.II) by Serway & Beichner
solutions manual to Physics For Scientists & Engineers Vol.1& 2 3rd Ed. by Serway & Jewett
solutions manual to Physics For Scientists & Engineers Vol.1& 2 4th Ed. by Serway & Jewett
solutions manual to Physics For Scientists & Engineers Vol.I 6th Ed. by Serway & Jewett
solutions manual to Physics For Scientists & Engineers Vol.II 6th Ed. by Serway & Jewett
solutions manual to Physics for Scientists and Engineers with Modern Physics (3rd Edition) by Douglas C. Giancoli
solutions manual to Physics for Scientists and Engineers, 1st E by Knight
solutions manual to Physics for Scientists and Engineers, 2/E by Knight
solutions manual to Physics, 2nd Ed James S. Walker
solutions manual to Physics, 5th Edition, Vol 1 by Halliday, Resnick, Krane
solutions manual to Physics, 5th Edition, Vol 2 by Halliday, Resnick,

Krane
solutions manual to Physics: Principles with Applications with Mastering Physics, 6/E, Douglas C. Giancoli
solutions manual to Power Electronics Converters, Applications, and Design 3rd ed By Ned Mohan, Tore M. Undeland, William P. Robbins
solutions manual to Power System Analysis and Design, 3 E., by Glover, Sarma
solutions manual to Power System Analysis and Design,4E., by Glover, Sarma
solutions manual to Power System Analysis,John J. Grainger William D. Stevenson
solutions manual to Power Systems Analysis - 2nd Edition by Hadi Saadat
solutions manual to POWER SYSTEMS ANALYSIS by HADI SAADAT
solutions manual to Principles and Applications of Electrical EngineeringG. Rizzoni
solutions manual to Principles of Communications- Systems, Modulation, and Noise (5th Ed.,Ziemer & W.H. Tranter)
solutions manual to Principles of Digital Communication and coding by Andrew J. Viterbi and Jim K. Omura
solutions manual to Principles of Dynamics 2nd ED, Donald T. Greenwood
solutions manual to Principles of Electronic Materials and Devices 2ed by Safa O. Kasap
solutions manual to Principles of Geotechnical Engineering 6th edition by Braja M. Das
solutions manual to Principles of Neurocomputing for Science and Engineering, Fredric M. Ham,Ivica Kostanic
solutions manual to Probability & Statistics for Engineers & Scientists (8th Ed., Walpole,Myers, Ye)
solutions manual to Probability and Random Processes for Electrical Engineering by Alberto Leon-Garcia
solutions manual to Probability and Statistical Inference (7th Ed., Hogg & Tanis)
solutions manual to Probability and Statistics for Engineering and the Sciences, 6th Ed., by Jay L. Devore
solutions manual to Probability and Statistics for Engineers 7 Ed Johnson Miller Freund
solutions manual to Probability and Statistics in Engineering (4th Ed., Hines, Montgomery, Goldsman & Borror)
solutions manual to Probability and Stochastic Processes 2E, by Roy D. Yates , David J. Goodman
solutions manual to Probability Concepts in Engineering Emphasis on Applications to Civil and Environmental Engineering 2nd ED by Alfredo Ang and Wilson Tang
solutions manual to Probability For Risk Management, Hassett, Stewart
solutions manual to Probability Random Variables, and Stochastic Processes, 4th Ed., by Papoulis, Pillai
solutions manual to Probability, Random Variables and Stochastic Processes, 3rd Edition Athanasios Papoulis
solutions manual to Probability, Statistics, and Random Processes for

Engineers, Richard H. Williams
solutions manual to Problems and Solutions on Electromagnetism by Lim Yung-Kuo
solutions manual to Problems in general physics by I. E Irodov
solutions manual to Problems in General Physics vol.I & vol.II Irodov
solutions manual to Psychology and Life by Gerrig & Zimbardo ,16th edition
solutions manual to Quantitative Methods for Management by PINNEY, McWILLIAMS, ORMSBY, ATCHISON
solutions manual to Quantum Field Theory Mark Srednicki
solutions manual to Quantum Mechanics - B. Brinne
solutions manual to Quantum Mechanics: An Accessible Introduction (Robert Scherrer)
solutions manual to Quantum Physics, 3rd Edition, by Stephen Gasiorowicz
solutions manual to Quantum theory of light 3 Ed by Rodney Loudon
solutions manual to Real Analysis 1st Edition by H. L. Royden
solutions manual to Recursive Methods in Economic Dynamics, (2002) by Irigoyen, Rossi- Hansberg, Wright
solutions manual to Reinforced Concrete: Mechanics and Design (5th Ed., James G. MacGregor & James K. Wight)
solutions manual to RF Circuit Design: Theory & Applications, by Bretchko, Ludwig
solutions manual to Satellite Communications 2nd Ed By Timothy Pratt, Charles W. Bostian
solutions manual to Scientific Computing with Case Studies by Dianne P. O'Leary
solutions manual to Semiconductor Device Fundamentals by Pierret
solutions manual to SEMICONDUCTOR DEVICES Physics and Technology 2nd Ed by SZE
solutions manual to Semiconductor Physics and Applications by Balkanski, Wallis
solutions manual to Semiconductor Physics and Devices (3rd Ed., Donald A. Neamen)
solutions manual to Shigley's Mechanical Engineering Design (8th Ed., Budynas)
solutions manual to Signal Processing and Linear Systems by Lathi
solutions manual to Signal Processing by Mclellan, Schafer & Yoder
solutions manual to Signals and Systems 2e by Haykin & B Van Veen
solutions manual to Signals and Systems Analysis of Signals Through Linear Systems by M.J. Roberts, M.J. Roberts
solutions manual to Signals and Systems, 2nd Edition, Oppenheim, Willsky, Hamid, Nawab
solutions manual to Signals and Systems: Analysis Using Transform Methods and MATLAB, 1st Ed., by M. J. Roberts
solutions manual to Signals, Systems & Transforms 4 ED by Phillips, Parr & Riskin
solutions manual to Skill - Assessment Exercises to Accompany Control Systems Engineering 3rd edt. by Norman S. Nise

Direct v carries both BBC and BBC America in the A.M.
It carries a different BBC America in the P.M.

Well, like I said - they have news items, and then extrapolate from
there.

The signals don't travel; a field is set up around the transmitter antenna, like turning on a lamp. When the field encounters an obstruction it "knife-edges" and Fresnel zones are created, which may help or totally prevent reception, depending on the math (distance from transmitter to obstruction, from obstruction to receiver, blah blah). I am in a box canyon, open only to the South. If mountains stopped the signals completely, all I'd get would be penguins.

A sort of diffraction effect. Makes sense. - however, I would bet
some RF is blocked by either reflection or absorption, and the
probable chaotic diffraction from irregular edges likely results in a
pretty unpredictable pattern.

We 'll have a couple of penguins as future candidates in the 2012
elections . POTUS and VP . They make more sense . Horses as well .
They are even smarter .

I don't quite picture this : mountains and canyons . Obviously-- no
line of sight signals such as local AM and FM broadcasts, very poor
groundwave propagation . Now, why is skywave affected as well ? What
can possibly block HF signals ?

BBC TV is an entirely different animal. TV really constricts
storytelling, i.e. if pictures aren't available sometimes stuff gets
dropped. Video distorts storytelling some times.

The good skywaves come from 10 to 20 degrees up. The mountains are
higher than that. I get no VHF/UHF TV. I get FM from Mt. Wilson,
severely degraded. I get MW like gangbusters.

Correct,but ... not all Muslims are Arabs and not all Arabs are
Muslims . The fact that they keep blowing each other up on a daily
basis indicates that at least some of of them are the 'Infidels' !

World Service is what every news organization used as a Landmark for a
very long time . At the present, it's image is being eroded, very
slowly . Maybe, it is due to mismanagement (low budget
allocation) ... A lot of talented people dismissed . And that's the
bitter truth, in my opinion .

We must be thinking of two different problems having same the
symptoms . Did ch.28 interfere with ch. 30 ; how close to each other
they used to be ? This is extremely rare,in my experience,btw . KCET
must been having a problem for a while that is not addressed or nearly
impossible to solve do to it's proximity to other operators !

- PressTV is NOT pro-Arab .
- They hate each other for many centuries .
- Actually, even longer than that .

ARTHRNY : You state the obvious -wrt-

Iran [IRI] {Non-Arab} -aka- Ancient 'Persia' is mostly
made-up of and dominated by the Shia {sect} of Islam.
http://en.wikipedia.org/wiki/Iran
http://en.wikipedia.org/wiki/Shi%27a_Islam

Most of the Middle East -aka- the 'Arab' World is
mostly made-up of and dominated by the Sunni
{main-body ~80%} of Islam.
http://en.wikipedia.org/wiki/Arab_World
http://en.wikipedia.org/wiki/Sunni_Islam

-so-reviewing-what-'i'-wrote-
"So naturally Al Jazeera and Press TV are 1st
Pro-Islamic and Pro-Arabic; and mostly Anti-Western
and Anti-American"
Scale of Love & Hate {Context}
1st Pro-Islamic {Shia {sect} of Islam}
-and-
[2nd] Pro-Arabic {Sunni Islam -aka- Believers}
-; and-
[3rd] mostly Anti-Western {Non-Muslims -aka- Infidels}
-and-
[4th] Anti-American {The Great Satin -aka- Devils}
-a-step-beyond-infidels-

-remember-the-idea-concept-of-shared-hate-
-being-a-natural-unifier-
THE ENEMY OF MY ENEMY : IS MY FRIEND
...well-at-least-for-now...

and... And... AND ! ! !
All this has to do with the "Agenda-Setting Theory"
http://en.wikipedia.org/wiki/Agenda-setting_theory
of How News is Selected {Not Selected} and How
'that' News is Presented in a Positive a/o Negative
Way to Create Attitudes and Form Opinions in the
Readers, Listeners and Watchers to Help Shape
Public Sentiments of the People -wrt- "Vox Populi"

- - Well, like I said - they have news items,
- - and then extrapolate from there.

BpnJ -actually-your-first-words-were-
"I have never seen MSNBC call itself news."

-so...-here-is-my-2nd-follow-up-reply-
? Which Part of these many MSNBC Programs
is 'NOT' basically News & info ! :
http://www.msnbc.msn.com/
* TODAY {News & Info + Opinion}
* Nightly News {News & Info}
* Meet the Press {News & Info + Opinion}
* Dateline {News & Info + Opinion}
* Morning Joe {Opinion with News & Info}
* Hardball {Opinion with News & Info}
* The Last Word {Opinion with News & Info}
* Maddow {Opinion with News & Info}
* Ed {Editorial} {Opinion}
* MSNBC TV {News & Info}
* U.S. {News}
* World {News}
* Politics {News}
* Business {News}
* Sports {News}
* Entertainment {News}
* Health {News}
* Tech & science {News}
* Travel {News}
* Local {News}
* Weather {News}
OK -so- MSNBC Programming is all 'based' on NEWS
and INFO -and- Yes They "Flavor" {Extrapolate / Opine-on}
Their News and Info. -aka- "Agenda Driven" Media*

* "Agenda Driven" Media {Flavoring News and Information}
http://en.wikipedia.org/wiki/Agenda-setting_theory

.
.
- Actually, they do more extrapolating than actual reporting !

Yes that is True for some of their "Hosted" Programming
-but- Some is Equally News Worthy in being called
'Quality' News and Information. - imho ~ RHF

One must not forget the Cornerstone of 'Agenda Driven
Media' =WRT= The "News" and "Information" :
A Grain of Truth ! : A Single Fact !
...and... From There The "Flavoring" Begins . . .

837. OH! Blessed sunspots and FLARES!

Newsgroup: rec.radio.shortwave
Date: 2011-02-14 02:48:26 UTC
From: soulstreamer <soulstreamer.79e6f58@radiobanter.com>
Message-ID: <soulstreamer.79e6f58@radiobanter.com>
Source record: 219805

according to solarcycle24.com, we ar being FLARED and sunspotted like we have NOT been in several years this weekend. SFI is now above 100 at 107 for the first time in years, and it makes for very interesting listening. I have been a SW fan since 1972, 12 yrs old at the time, listening on a LLOYDS portable.
Then I graduated to a Realistic DX 150 and 160. Now have a Hammarlund HQ145, Drake R8B, and two Zenith Trannys. R3000, and Royal 7000D. 8) 16 ft ground rods on a water table flood plain. Reception on AM and LW so quiet
you can hear a glob of solder drop.

Have NEVER seen the pits we experienced over the last three years, SFI sitting at 68! Dont be deceived, we may see another dip, like last year's.
SFI was over 95 for a few weeks, then DIVING for cover around 74 or so for many months, struggling until this week.

Good luck over the next few days, hope it doesn't die.
Never solder naked!
Tom

- - - A sort of diffraction effect.
- - - Makes sense. - however, I would bet some RF
- - - is blocked by either reflection or absorption,
.
The natural Earthen Ground is a great Equal Opportunity
Energy Absorber of all kinds of Energy : Sunlight, Metors;
RF/EMF; Plant Life; even our Foot Falls . . .
.
All the Incoming Radiated Energy [EMF]
has to go somewhere :
* Either Bounces Off {Less than 100%}
-or-
* Attempts to Pass/Go Through {Less than 100%}
* * Actually Passes Through {Very Little}
-or-
* * Gets Absorbed {A Lot}
* * * Some of Both often with most getting
Absorbed and little Passing Through.
-cause- The natural Earthen Ground is a great
Energy Absorber of all kinds of Energy.
.
- - - probable chaotic diffraction from irregular edges
- - - likely results in a pretty unpredictable pattern.

- - I don't quite picture this : mountains and canyons .
- - Obviously-- no line of sight signals such as local
- - AM and FM broadcasts, very poor groundwave propagation .

- - Now, why is skywave affected as well ?
- - What can possibly block HF signals ?

- The good skywaves come from 10 to 20 degrees up.
- The mountains are higher than that. I get no VHF/UHF TV.
- I get FM from Mt. Wilson, severely degraded.
- I get MW like gangbusters.

Today's update from this idiot.

This is an accumulation of seven years worth of work on this pest.
Nobody disagrees with me.

http://groups.google.ca/groups/search?hl=en&as_q=&as_epq=GymyBobism&as_oq=&as_eq=&num=100&scoring=&lr=&as_sitesearch=&as_qdr=&as_drrb=b&as_mind=1&as_minm=1&as_miny=2003&as_maxd=1&as_maxm=1&as_maxy=2008&as_ugroup=&as_usubject=&as_uauthors=m+II&safe=off

My 'GymyBobism' collection...updated daily:
==========
some '#' bracketed text added for clarification
all cut and paste, NO modifications of ANY kind
100 % Pure GymyBob. Accept no substitutes!

We need less morons like another clone of Moron II here.
My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject
lines changing, intermingled posts and downloading binary files with
mixed posts, random pieces and many other problems all the nonOE
people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged
13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation
first so there is, at least, some stake, like friendship for the
person listening. When the friendship is well developed then attack.
Not too obvious at first or you will lose your audience. This will
enhance your troll points.

I think outside opinions are worth much more than sales hype from the
company that made the product.
Referring to *factory* charging specifications for the batteries
they make ##

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way
back to the transformer neutral.

A thought I have is rain water from a roof on a three story home
through a micro-turbine.

Setback thermostats only work efficiently for small differentials,
dependant on the time duration.

Breakers are good for one time usage of one fault and then they need
to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty
will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't
flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry
first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully
charged. The nicads will be cooked because you keep them on charge,
just in case you need them but when you remember them six months
later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by
themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the
diode in 1941 but I am not familiar with the solar panel usage
requirements of them. (no P & N substrate explanations please. I wrote
the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps
with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your
house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of
power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a
100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like
your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you are full of shit.

I am a Protection & Control Tech by profession and have experience with control systems

Try spelling "bus" correctly! Maybe your brain will start again. Probaby not, you fucking loser.
Referring to the correctly spelled word 'buss' as used in real electrical terminology
http://tinyurl.com/5ctml

X10 signals are transmitted just after the voltage waveform zero crossing. This is in order to avoid conflicts with SCR and Triac peak waveform switching spikes from load type devices such as lamp dimmers.
control module misinformation

Besides when they on any line they will pull of the meter as a disconnect point.
speaking of power line guys miles away removing YOUR electrical meter for THEIR safety

My workplace has been throwing out huge digitizing pallettes (like 24 x 36" units)
in alt.sewing.mach-embroider

The majority prefers top posting.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve aluminum does. Overload doesn't make it glow like copper...it flashes and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20 horizontal feet. They are made to vent smells and humid air horizontally only.

Why not spend the money on a contract with the grid company and get an exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate

fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals" come and beg for information because they can't our toys do what the good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate lights. They mostly signal my house control computer and it decides what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic symptom.

When confronted with many websites stating the otherwise he won't address the issue but repeats his crap again like a child stamping his feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished embroidering about 10 items, including a flight bag for golf clubs.

My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject lines changing, intermingled posts and downloading binary files with mixed posts, random pieces and many other problems all the nonOE people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged 13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation first so there is, at least, some stake, like friendship for the person listening. When the friendship is well developed then attack. Not too obvious at first or you will lose your audience. This will enhance your troll points.

I think outside opinions are worth much more than sales hype from the company that made the product.
Referring to *factory* charging specifications for the batteries they make

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way back to the transformer neutral.

A thought I have is rain water from a roof on a three story home through a micro-turbine.

Setback thermostats only work efficiently for small differentials, dependant on the time duration.

Breakers are good for one time usage of one fault and then they need to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully charged. The nicads will be cooked because you keep them on charge, just in case you need them but when you remember them six months later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the diode in 1941 but I am not familiar with the solar panel usage requirements of them. (no P & N substrate explanations please. I wrote the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a 100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

some '#' bracketed text added for clarification
all cut and paste, NO modifications of ANY kind
100 % Pure GymyBob. Accept no substitutes!

We need less morons like another clone of Moron II here.
My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject
lines changing, intermingled posts and downloading binary files with
mixed posts, random pieces and many other problems all the nonOE
people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged
13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation first so there is, at least, some stake, like friendship for the person listening. When the friendship is well developed then attack. Not too obvious at first or you will lose your audience. This will enhance your troll points.

I think outside opinions are worth much more than sales hype from the company that made the product.
Referring to *factory* charging specifications for the batteries they make

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way back to the transformer neutral.

A thought I have is rain water from a roof on a three story home through a micro-turbine.

Setback thermostats only work efficiently for small differentials, dependant on the time duration.

Breakers are good for one time usage of one fault and then they need to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully charged. The nicads will be cooked because you keep them on charge, just in case you need them but when you remember them six months later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the diode in 1941 but I am not familiar with the solar panel usage requirements of them. (no P & N substrate explanations please. I wrote the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps
with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your
house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of
power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a
100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like
your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for
hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and
work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you
are full of shit.

I am a Protection & Control Tech by profession and have experience
with control systems

Try spelling "bus" correctly! Maybe your brain will start again.
Probaby not, you fucking loser.
Referring to the correctly spelled word 'buss' as used in real
electrical terminology ##
http://tinyurl.com/5ctml

X10 signals are transmitted just after the voltage waveform zero
crossing. This is in order to avoid conflicts with SCR and Triac peak
waveform switching spikes from load type devices such as lamp dimmers.
control module misinformation

Besides when they on any line they will pull of the meter as a
disconnect point.
speaking of power line guys miles away removing YOUR electrical
meter for THEIR safety ##

My workplace has been throwing out huge digitizing pallettes (like 24
x 36" units)
in alt.sewing.mach-embroider

The majority prefers top posting.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve aluminum does. Overload doesn't make it glow like copper...it flashes and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20 horizontal feet. They are made to vent smells and humid air horizontally only.

Why not spend the money on a contract with the grid company and get an exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V
from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations
will be easier to get out. This keeps them from buzzing until the
varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or
something?

Run each signal twisted with a ground for noise. RD twisted with gnd
as a pair, TD twisted around ground as a pair etc... This means
signal/logic ground not power ground or case ground, if they are
different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and
probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the
water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They
cook in one spot and the rest of the electrolyte doesn't circulate
fast enough.

There is nothing standard about USanian measurements. They changed
their sizes to avoid trading with the rest of the world. This worked
for a few centuries but the rest of the world moved on to the metric
system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across
a capacitor? It measures infinity after charging to the supply voltage
because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals"
come and beg for information because they can't our toys do what the
good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would
disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate
lights. They mostly signal my house control computer and it decides
what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic symptom.

When confronted with many websites stating the otherwise he won't address the issue but repeats his crap again like a child stamping his feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It was the needles. Find ones that have very little "hip" bump around the eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the same.

I did the chem.cut medication stuff for a few years with my first child and then found Naturopathic Doctors using homeopathy to get more lasting relief.

Homeopathics saved me thousands of dollars for operations I did not have on my children

Accupunture worked for my 1 and two year old children for ailments after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody else here.

See if you can replace it with a thermal acting unit. They have a rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a huge irritant to human digestion and usually results in calcium deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of nutrition.

The medical doctors will play the time game and probably just let him die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop but so is insulin for a diabetic. I have stopped taking mine and it wasn't that bad but after months of regressing I chose to return like the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky movements to them.

Make up your mind before you mouth off like the usual Internet piece of shit. This is a rough group and if you had followed the usual recommendations you would have known that and have nothing to say

about it.

I put my first child on Ritalin for a year or so when quite young. It beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the same.

I did the chem.cut medication stuff for a few years with my first child and then found Naturopathic Doctors using homeopathy to get more lasting relief.

Homeopathics saved me thousands of dollars for operations I did not have on my children

Accupunture worked for my 1 and two year old children for ailments after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody else here.

See if you can replace it with a thermal acting unit. They have a rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a huge irritant to human digestion and usually results in calcium deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of
nutrition.

The medical doctors will play the time game and probably just let him
die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat
typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop
but so is insulin for a diabetic. I have stopped taking mine and it
wasn't that bad but after months of regressing I chose to return like
the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky
movements to them.

Make up your mind before you mouth off like the usual Internet piece
of shit. This is a rough group and if you had followed the usual
recommendations you would have known that and have nothing to say
about it.
in misc.kids.health, alt.support.breast-implant,

OK, you're not a moron. You are above average for Nova Scotia.

Another tidbit for the brainless twit with the big mouth here

Pehaps magnesium supplementation would allow these buffoons to utilize
some
of their already overloaded calcium intake.

This guy is a total buffoon and has no knowledge of any part of his
own sentence.

Where should you shove it?

Fish oil is mainly responsible for your placebo also.
in misc.health.alternative##

After disassembling Bill Gates' 6800 Basic back in the 70s I knew he
was a dirty software scoundrel.

The government makes more on the taxes than the tax rate when this is
done.

Be blabest tofart.
???? in alt.comp.periphs.dcameras

Blood may be kept at a stable 7.4 pH but a piece of copper wire passes
electricity through it even though the number of electrons remains
constant.
in misc.health.alternative

I have had amazing effects from some homeopathic remedies and others
did nothing.

These homeopathic know-it-alls drive me crazy with their 1880 knowledge.

Sorry, but testing has proven homeopathic remedies to be effective
remedies.

I have taken a few homeopathic remedies that taste like crap. Funny
how pure
water could do that.

Homeopathic remedies are very toxic substances and used because of
their toxic properties.

Standard homeopathic science.

Your ignorance of homeopathy does not mean it is useless.

Everybody always follows the screaming, left-wing, maniac, tooting we are all going to die by doing another therapy.

I have had achilles tendonitus for the past 2-3 years now. I got rid of it on one side by grinding out the bones spurs underneath with the side of a screwdriver blade and lots of oil.

GET OFF THE WHEAT, CORN & OATS!!!

It doesn't matter how well it works if the doctor doesn't say so (with his two years of college) then it just ain't so.

Heat pumps are 300% efficient when the weather is fine but the compressor motors? hmmm about 60%.

You are obviously a moron and you keep repeating it here.
referring to my corrections of his postings

mike

Actually had a better copy on them last night (morning). Could hear voices and music...not *quite* enough to ID anything. A recording would have been able to confirm the sequence better than my ears and words.

I have work at 6:30 tomorrow morning, but I am tempted to try again a few minutes late tonight. Noting that they accept MP3s by e-mail, I e-mailed asking them if they'd accept a cassette tape. We'll see what

they say.

If you use insulating rope there is no need to buy insulators.

I use them for strain relief. Wrapping a wire or a rope around an insulator with a 3/4 inch radius puts less wear and tear on either material per square mm of contact surface than tying the rope directly to the wire. I cannot prove (off the top o' my head) this quantitatively, but intuitively it seems right.

Having said that. I am sure there is nothing to gain electrically from omitting the insulator.

This is great news - but it's also obvious that radio blackouts are
occuring as well, and on a surgical scale - a station can be there one
minute, and gonzo the next...and then back again five minutes later.

BTW, that little built-in antenna, when I used it briefly, was quite
remarkable on 60m (back during the last sunspot cycle). Since then,
nothing has been much good.

Well, that could be debatable. Do you have any way to quantify the RF leakage of wet rope vs. a wet insulator to support your contention?

Might get a PAR SWL. I have just the place for it, and it might be a
good mate for the Inverted-L. Before that, though, I think I'm going
to take Roy's and Dave's advice and put up the largest loop my yard
can accomodate. That might just work wonders on 60 and even 75m.

Al Jazeera said it best when they said the Americans show the missiles
being fired and Al Jazeera showed them coming down. Same missiles...

Bush thought there was a big enough difference that he wanted to bomb Al
Jazeera out of existence.

The invaders get them fighting each other. Creating animosity and war between two sects in the enemies' ranks is an ancient trick.

Remember the two English army guys who were caught dressed as Arabs and driving around with skin painted dark and a car full of explosives? That was just before the Mosques started getting blown up, allegedly by Iraqis themselves. That certainly wasn't the case.

You blow up a Mosque on either side and wait. If there is no revenge attack, you arrange it yourself. A few staged atrocities and your enemy is fighting himself.

I'm surprised the Arabs fell for it, especially after the Brits instantly removed their two agents from Iraqi custody and sent them back home. Then there were the well placed US missile attacks on religious gatherings. First one Moslem group, then the other. Same tactic.

Lying assholes.

Rainwater doesn't conduct very well. Also, the voltages are very low.
Power lines will arc over insulators, but that's usually caused by filth
accumulating over the insulator knob and the fact that it's a few
thousand volts.

I would guess that, for RX, unless the rainwater also allows a
complete passage to ground for the signal, water on the antenna and
rope is going to do little more than extend the resonant frequency of
the antenna to a longer wavelength. If you're a monitor station for a
major broadcaster, that may be a problem. For a SWL, maybe not so
much.

That wouldn't be "insulating" rope any more, technically. Fresh water on plastic does not conduct.

I've never noticed any electric effects from rain on my polyester lines;
nor on the old school clothesline I used to use (plastic over nylon?)
This would include ropes touching active elements directly on a stub
tuned vertical, in the rain, while observing reflected power. Simply not
an issue AFAIK.
```

A little help please. I downloaded the (sked-b10_cvs.mht) .
How do I turn this file into a .cvs file that is usable.
What am I doing wrong?

Thank You

Well, THAT'S debatable too. Sadly, in today's world, rainwater can
contain a lot of sulfuric acid (pollution from coal-fired power plants),
and H2SO4 is a -very- good conductor.

Sorry, a) I am old fashioned and b) I am also used to transmitting on my
antennas.

If you were just receiving and desperate to save a couple of bucks on
insulators, you -may- be able to get away with it (or not).

Around these parts, not too much H2SO4, but lotsa other tailpipe
emissions.

886. Engineering Vibration 3rd Ed by Inman

I have solutions manuals to all problems and exercises in these textbooks. To get one in an electronic format contact me at: kalvinmanual(at)gmail(dot)com and let me know its title, author and edition. Please this service is NOT free.

solutions manual to A Course in Game Theory by Osborne, Rubinstein
solutions manual to A Course in Modern Mathematical Physics by Peter Szekeres
solutions manual to A First Course in Abstract Algebra (7th Ed., John B. Fraleigh)
solutions manual to A First Course in Differential Equations - The Classic Fifth Edition By Zill, Dennis G
solutions manual to A First Course In Probability 7th Edition by Sheldon M. Ross
solutions manual to A First Course in Probability Theory, 6th edition, by S. Ross.
solutions manual to A First Course in String Theory, 2004, Barton Zwiebach
solutions manual to A First Course in the Finite Element Method, 4th Edition logan
solutions manual to A Practical Introduction to Data Structures and Algorithm Analysis 2Ed by Shaffer
solutions manual to A Quantum Approach to Condensed Matter Physics (Philip L. Taylor & Olle Heinonen)
solutions manual to A Short Course in General Relativity 2e by J. Foster and J. D. Nightingale
solutions manual to A Short Introduction to Quantum Information and Quantum Computation by Michel Le Bellac
solutions manual to Accounting Principles 8e by Kieso, Kimmel
solutions manual to Adaptive Control, 2nd. Ed., by Astrom, Wittenmark
solutions manual to Adaptive Filter Theory (4th Ed., Simon Haykin)
solutions manual to Advanced Accounting 10E international ED by Beams , Clement, Anthony, Lowensohn
solutions manual to Advanced Calculus Gerald B. Folland
solutions manual to Advanced Digital Design with the Verilog HDL by Michael D. Ciletti
solutions manual to Advanced Dynamics (Greenwood)
solutions manual to Advanced Engineering Electromagnetics by Constantine A. Balanis
solutions manual to Advanced Engineering Mathematics 3rd ed zill
solutions manual to Advanced Engineering Mathematics 8Ed Erwin Kreyszig
solutions manual to Advanced Engineering Mathematics by Erwin Kreyszig, 9th ed

solutions manual to Advanced Engineering Mathematics, 6th Edition by Peter V. O'Neil
solutions manual to Advanced Engineering Mathematics,2E, by Zill, Cullen
solutions manual to Advanced Financial Accounting by Baker
solutions manual to Advanced Industrial Economics, 2nd ED Stephen Martin
solutions manual to Advanced Macroeconomics, by David Romer
solutions manual to Advanced Modern Engineering Mathematics 3rd Ed Glyn James
solutions manual to Advanced Modern Engineering Mathematics, 3rd Ed., by G. James
solutions manual to Aircraft Structures for Engineering Students (4th Ed., T.H.G. Megson)
solutions manual to Algebra & Trigonometry and Precalculus, 3rd Ed By Beecher, Penna, Bittinger
solutions manual to Algebra Baldor
solutions manual to Algebra-By Thomas W. Hungerford
solutions manual to Algorithm Design (Jon Kleinberg & Ã‰va Tardos)
solutions manual to An Interactive Introduction to Mathematical Analysis 2nd E (Jonathan Lewin)
solutions manual to An Introduction to Database Systems (8th Ed., C.J. Date)
solutions manual to An Introduction to Modern Astrophysics (2nd Ed., Bradley W. Carroll & Dale A. Ostlie)
solutions manual to An Introduction to Numerical Analysis By Endre Süli,David F. Mayers
solutions manual to An Introduction to Ordinary Differential Equations (James C. Robinson)
solutions manual to An Introduction to Signals and Systems by John Stuller
solutions manual to An Introduction to the Finite Element Method (3rd Ed., J. N. Reddy)
solutions manual to An Introduction to Thermal Physics by Schroeder, Daniel V
solutions manual to An Introduction to Thermodynamics and Statistical Mechanics (2nd Ed, Keith Stowe)
solutions manual to Analog Integrated Circuit Design, by Johns, Martin
solutions manual to Analysis and Design of Analog Integrated Circuits (4th Edition) by Gray , Lewis , Meyer
solutions manual to Analytical Chemistry, Higson
solutions manual to Analytical Mechanics 7E by Grant R. Fowles, George L. Cassiday
solutions manual to Antenna Theory 2nd edition by Balanis
solutions manual to Antennas for All Applications (3rd Ed., John Kraus & Ronald Marhefka)
solutions manual to Applied Calculus for the Managerial, Life, and Social Sciences, 7 E, by Soo T. Tan
solutions manual to Applied Econometric Time Series, 2nd Edition by

Enders
solutions manual to Applied Finite Element Analysis 2ed, by LJ SEGERLIND
solutions manual to Applied Fluid Mechanics (6th Ed., Mott)
solutions manual to Applied Numerical Analysis, 7th Edition, by Gerald, Wheatley
solutions manual to Applied Numerical Methods with MATLAB for Engineers and Scientists(Steven C. Chapra)
solutions manual to Applied Partial Differential Equations (4th Ed., Haberman)
solutions manual to Applied Partial Differential Equations by J. David Logan
solutions manual to Applied Quantum Mechanics (A. F. J. Levi)
solutions manual to Applied Statistics and Probability for Engineers (2nd Ed., Douglas Montgomery & George Runger)
solutions manual to Applied Statistics and Probability for Engineers (3rd Ed., Douglas Montgomery & George Runger)
solutions manual to Applied Strength of Materials (4th Ed., Mott)
solutions manual to Applying Maths in the Chemical and Biomolecular Sciences, Beddard
solutions manual to Artificial Intelligence A Modern Approach 2e by Russell, Norvig
solutions manual to Auditing and Assurance Services- An Integrated Approach 12E by Arens
solutions manual to Auditing and Assurance Services, 12th edition, Alvin A Arens, Randal J Elder, Mark Beasley
solutions manual to Automatic Control Systems, 8E, by Kuo, Golnaraghi
solutions manual to Basic Electrical Engineering By Nagrath, D P Kothari
solutions manual to Basic Engineering Circuit Analysis, 8th Edition by J. David Irwin, R. Mark Nelms
solutions manual to Basic Heat and Mass Transfer by A. F. Mills
solutions manual to Basic Probability Theory by Robert B. Ash
solutions manual to Bioprocess Engineering Principles (Pauline M. Doran)
solutions manual to Business Statistics - Decision Making 7th E by David F. Groebner
solutions manual to C++ for Computer Science and Engineering by Vic Broquard
solutions manual to C++ How to Program 3rd edition - Deitel
solutions manual to Calculus - Early Transcendentals, 6th E, by Anton, Bivens, Davis
solutions manual to Calculus - Early Transcendentals, 7E, by Anton, Bivens, Davis
solutions manual to Calculus - Late Transcendentals Single Variable, 8th Ed by Anton, Bivens, Davis
solutions manual to Calculus (9th Ed., Dale Varberg, Edwin Purcell & Steve Rigdon)
solutions manual to Calculus 2nd edition-M. Spivak
solutions manual to Calculus A Complete Course 6th Edition by by R.A.

Adams
solutions manual to Calculus and its Applications (11th Ed., Larry J Goldstein, Schneider, Lay & Asmar)
solutions manual to Calculus by Gilbert Strang
solutions manual to Calculus early transcendentals 8th Ed, by Anton Bivens Davis
solutions manual to Calculus Early Transcendentals, 5th Edition, JAMES STEWART
solutions manual to Calculus George Thomas 10th ed Vol 1
solutions manual to Calculus of Variations MA 4311 LECTURE NOTES (Russak)
solutions manual to Calculus One & Several Variables 8e by S Salas
solutions manual to Calculus Vol 2 by Apostol
solutions manual to Calculus With Analytic Geometry 4th (Henry Edwards & David E. Penney)
solutions manual to Calculus with Applications 8 Edition by Lial, Greenwell, Ritchey
solutions manual to Calculus, 4th edition stewart
solutions manual to Calculus, An Applied Approach, 7E, by Larson
solutions manual to Calculus, Single and Multivariable, 4E.,Vol 1& Vol 2 by Hughes-Hallett,McCallum
solutions manual to Calculus, Single Variable, 3E by Hughes-Hallett,McCallum
solutions manual to Chemical and Engineering Thermodynamics 3Ed by Stanley I. Sandler
solutions manual to Chemical Engineering Design (Coulson & Richardson's Chemical Engineering - Volume 6) - (4th Ed., Sinnott)
solutions manual to Chemical Engineering Volume 1, 6th Edition, by Richardson, Coulson,Backhurst, Harker
solutions manual to Chip Design for Submicron VLSI CMOS Layout and Simulation, John P. Uyemura
solutions manual to Cisco Technical Solution Series IP Telephony Solution Guide Version 2.0
solutions manual to Classical Dynamics of Particles and Systems, 5th Ed, by Marion, Thornton
solutions manual to Classical Dynamics, A Contemporary Approach (Jorge V. Jose)
solutions manual to Classical Electrodynamics by John David Jackson
solutions manual to Classical Mechanics (Douglas Gregory)
solutions manual to Classical Mechanics 2nd Ed by Goldstein
solutions manual to CMOS Analog Circuit Design, 2ed by Phillip E. Allen, Douglas R. Holberg
solutions manual to CMOS- Circuit Design, Layout, and Simulation, Revised 2nd Ed by R. Jacob Baker
solutions manual to Cmos Digital Integrated Circuits , Sung-Mo Kang,Yusuf Leblebici
solutions manual to CMOS Mixed-Signal Circuit Design, 2nd Ed by R. Jacob Baker
solutions manual to Communication Networks, 2e, Alberto Leon-Garcia, Indra Widjaja

solutions manual to Communication Systems (4th Ed., Simon Haykin)
solutions manual to Communication Systems An Introduction to Signals and Noise in Electrical Communication, 4E, A. Bruce Carlson
solutions manual to Communication Systems Engineering (2nd Ed., John G. Proakis & Masoud Salehi)
solutions manual to Complex Variables with Applications, 3rd ED by David A. Wunsch
solutions manual to Computational Techniques for Fluid Dynamics Srinivas, K., Fletcher, C.A.J.
solutions manual to Computer Architecture - A Quantitative Approach, 4th Ed by Hennessy, Patterson
solutions manual to Computer Architecture Pipelined & Parallel Processor Design by Michael J Flynn
solutions manual to Computer Networking A Top-Down Approach Featuring the Internet, 3E Kurose,Ross
solutions manual to Computer Networking: A Top-Down Approach (4th Ed., James F. Kurose & Keith W. Ross)
solutions manual to Computer Networks A Systems Approach, 2nd Edition, Larry Peterson, Bruce Davie
solutions manual to Computer Networks, 4th Ed., by Andrew S. Tanenbaum
solutions manual to Computer Organization 3rd Edition by Carl Hamacher , Zvonoko Vranesic ,Safwat Zaky
solutions manual to Computer Organization and Architecture: Designing for Performance (7th Ed., William Stallings)
solutions manual to Computer Organization and Design The Hardware Software Interface, 3rd edition by David A Patterson and John L Hennessy
solutions manual to Computer system architecture 3rd Ed Morris Mano
solutions manual to Concepts and Applications of Finite Element Analysis (4th Ed., Cook, Malkus, Plesha & Witt)
solutions manual to Concepts of Modern Physics 6th ED by Arthur Beiser
solutions manual to Contemporary Engineering Economics (4th Ed., Chan Park)
solutions manual to Continuum Electromechanics by James R. Melcher
solutions manual to Control Systems Engineering, 4E, by Norman Nise
solutions manual to Control Systems Principles and Design 2e by M. Gopal
solutions manual to Convex Analysis and Optimization Dimitri P. Bertsekas
solutions manual to Corporate Finance The Core plus MyFinanceLab Student Access Kit (Jonathan Berk & Peter DeMarzo)
solutions manual to Corporate Finance, 7E, by Ross
solutions manual to Cost Accounting-A Managerial Emphasis 13th Ed by Charles Horngren
solutions manual to Cryptography and Network Security (4th Ed., William Stallings)
solutions manual to Data & Computer Communication, 7th Ed, by William Stallings
solutions manual to Data Communications and Networking by Behroz Forouzan

solutions manual to Data Structures with Java by John R. Hubbard, Anita Huray
solutions manual to Database Management Systems, 3rd Ed., by Ramakrishnan, Gehrke
solutions manual to Database System Concepts 5th ED by Silberschatz, Korth, Sudarshan
solutions manual to Design Analysis in Rock Mechanics by William G. Pariseau
solutions manual to Design and Analysis of Experiments, 6E, by Montgomery
solutions manual to Design of Analog CMOS Integrated Circuits by Razavi
solutions manual to Design of Analog CMOS Integrated Circuits, 2 Edition, by Razavi Douglas C. Montgomery
solutions manual to Design of Fluid Thermal Systems, 2nd Edition janna
solutions manual to Design of Machinery (3rd Ed., Norton)
solutions manual to Design of Reinforced Concrete, 8th Ed by McCormac, Brown
solutions manual to Design with Operational Amplifiers and Analog Integrated Circuits (3rd Ed., Sergio Franco)
solutions manual to Device Electronics for Integrated Circuits 3rd Edition by muller kamins
solutions manual to Differential Equations and Linear Algebra (2nd Ed., Jerry Farlow, Hall, McDill & West)
solutions manual to Differential Equations and Linear Algebra (C. Henry Edwards & David E. Penney)
solutions manual to Differential Equations and Linear Algebra 3e by Stephen W Goode
solutions manual to Differential Equations with Boundary Value Problems (2e, John Polking, Al Boggess & Arnold)
solutions manual to Digital Communications Fundamentals and Applications 2e Bernard Sklar
solutions manual to Digital Communications, 4E, by Proakis
solutions manual to Digital Design (4th Ed., M. Morris Mano & Michael D. Ciletti)
solutions manual to Digital Design: Principles and Practices Package (4th Ed., John F. Wakerly)
solutions manual to Digital Fundamentals (9th Ed., Thomas L. Floyd)
solutions manual to Digital Image Processing, 2e, by Gonzalez, Woods
solutions manual to Digital Integrated Circuits, 2nd Ed., by Rabaey
solutions manual to Digital Logic Design by Mano
solutions manual to Digital Signal Processing - A Modern Introduction, by Ashok Ambardar
solutions manual to Digital Signal Processing Principles, Algorithms and Applications, 3rd Edition by John G. Proakis
solutions manual to Digital Signal Processing a computer based approach (2nd Ed.) (Mitra)
solutions manual to Digital Signal Processing a computer based approach (Mitra)
solutions manual to Digital Signal Processing by Proakis & Manolakis

solutions manual to Digital Signal Processing by Thomas J. Cavicchi
solutions manual to Digital Systems - Principles and Applications (10th Ed., Ronald Tocci, Neal Widmer, Greg Moss)
solutions manual to Discrete and Combinatorial Mathematics 5e by Ralph P. Grimaldi
solutions manual to Discrete Mathematics (6th Ed., Richard Johnsonbaugh)
solutions manual to Discrete Mathematics (6th Edition) by Richard Johnsonbaugh
solutions manual to Discrete Random Signals and Statistical Signal Processing Charles W. Therrien
solutions manual to Discrete Time Signal Processing, 2nd Edition, Oppenheim
solutions manual to DSP First A Multimedia Approach-Mclellan, Schafer & Yoder
solutions manual to Dynamic Modeling and Control of Engineering Systems 2 E T. Kulakowski , F. Gardner, Shearer
solutions manual to Dynamics of Flight- Stability and Control, 3rd Ed by Etkin, Reid
solutions manual to Dynamics of Mechanical Systems by C. T. F. Ross
solutions manual to Econometric Analysis, 5E, by Greene
solutions manual to Econometric Analysis, 6E, by Greene
solutions manual to Econometrics of Financial Markets, by Adamek, Cambell, Lo, MacKinlay, Viceira
solutions manual to Econometrics: A Modern Introduction (Michael P. Murray)
solutions manual to Electric Circuits (7th Ed., James W Nilsson & Susan Riedel)
solutions manual to Electric Circuits (8th Ed., James W Nilsson & Susan Riedel)
solutions manual to Electric Machinery 6th ed. A.E. Fitzgerald,Kingsley,Umans
solutions manual to Electric Machinery and Power System Fundamentals (Chapman)
solutions manual to Electric Machinery Fundamentals (4th Ed., Chapman)
solutions manual to Electric Machines Analysis and Design Applying MATLAB,Jim Cathey
solutions manual to Electric Machines By D. P. Kothari, I. J. Nagrath
solutions manual to Electrical Engineering Principles and Applications (3rd Ed., Allan R. Hambley)
solutions manual to Electrical Engineering Principles and Applications (4th Ed., Allan R. Hambley)
solutions manual to Electrical Machines, Drives and Power Systems (6th Ed., Theodore Wildi)
solutions manual to Electromagnetic Fields and Energy by Haus, Melcher
solutions manual to Electromagnetics Problem Solver (Problem Solvers) By The Staff of REA
solutions manual to Electromagnetism. Principles and Applications by LORRAIN, PAUL ; CORSON, DAVID
solutions manual to Electromechanical Dynamics Part 1, 2, 3 by Herbert

H. Woodson, James R. Melcher
solutions manual to Electronic Circuit Analysis, 2nd Ed., by Donald Neamen
solutions manual to Electronic Devices 6th ed and electronic devices Electron Flow Version 4th ed, Floyd
solutions manual to Electronic Devices and Circuit Theory 8th Ed by Robert Boylestad
solutions manual to Electronic Physics Strabman
solutions manual to Electronics, 2nd Ed., by Allan R. Hambley
solutions manual to Elementary Differential Equations (Werner E. Kohler, Johnson)
solutions manual to Elementary Differential Equations and Boundary Value Problems (8th Ed., Boyce & Diprima)
solutions manual to Elementary Linear Algebra 5th edition by Stanley I. Grossman
solutions manual to Elementary Linear Algebra by Matthews
solutions manual to Elementary Linear Algebra with Applications (9th Ed., Howard Anton & Chris Rorres)
solutions manual to Elementary mechanics & thermodynamics jhon w.Nobury
solutions manual to ELEMENTARY NUMBER THEORY AND ITS APPLICATIONS, (5TH EDITION, Bart Goddard, Kenneth H. Rosen)
solutions manual to Elementary Principles of Chemical Processes (3rd Ed., Felder & Rousseau)
solutions manual to Elementary Statistics Using The Graphing Calculator 9 Ed by MILTON LOYER
solutions manual to Elementary Statistics Using the Graphing Calculator For the TI-83-84 Plus (Mario F. Triola)
solutions manual to Elements of Information Theory - M. Cover, Joy A. Thomas
solutions manual to Elements of Chemical Reaction Engineering by Fogler hubbard, hamman , johnson , 3rd edition
solutions manual to Elements of Deductive Inference by Bessie, Glennan
solutions manual to Elements of Electromagnetics , 2 ed by Matthew N. O. Sadiku
solutions manual to Elements of Electromagnetics , 3ed by Matthew N. O. Sadiku
solutions manual to Embedded Microcomputer Systems Real Time Interfacing, 2nd Edition , Jonathan W. Valvano
solutions manual to Engineering and Chemical Thermodynamics (Koretsky)
solutions manual to ENGINEERING BIOMECHANICS (STATICS) by Angela Matos, Eladio Pereira, Juan Uribe and Elisandra Valentin
solutions manual to Engineering Circuit Analysis 6Ed, Luay Shaban
solutions manual to Engineering Circuit Analysis 6th ed by Hayt
solutions manual to Engineering Circuit Analysis 7th Ed. by William H. Hayt Jr
solutions manual to Engineering Electromagnetics 6E by William H. Hayt Jr. and John A. Buck
solutions manual to Engineering Electromagnetics 7E by William H. Hayt Jr. and John A. Buck

solutions manual to Engineering Fluid Mechanics - 8th Ed by Crowe, Elger & Roberson
solutions manual to Engineering Fluid Mechanics 7th Ed by Crowe and Donald
solutions manual to Engineering Materials Science, by Milton Ohring
solutions manual to Engineering Mathematics (4th Ed., John Bird)
solutions manual to Engineering Mechanics - Dynamics by Boresi, Schmidt
solutions manual to Engineering Mechanics - Dynamics, 5th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics - Dynamics, 6th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics - Statics (10th Edition) by Russell C. Hibbeler
solutions manual to Engineering Mechanics - Statics (11th Edition) by Russell C. Hibbeler
solutions manual to Engineering Mechanics - Statics by Boresi, Schmidt
solutions manual to Engineering Mechanics - Statics, 4th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics - Statics, 6th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics : Dynamics (11th Ed., Hibbeler)
solutions manual to Engineering Mechanics Dynamic (10th Edition) hibbeler
solutions manual to Engineering Mechanics Dynamics (12th Ed., Hibbeler)
solutions manual to Engineering Mechanics Dynamics, Bedford & Fowler, 5th Edition
solutions manual to Engineering Mechanics Dynamics, by R. C. Hibbeler, 3rd
solutions manual to Engineering Mechanics Statics (12th Ed., Hibbeler)
solutions manual to Engineering Mechanics Statics, Bedford & Fowler, 5th Edition
solutions manual to Engineering Statistics (4th Ed., Douglas Montgomery, George Runger & Norma Faris Hubele)
solutions manual to Essentials of Soil Mechanics and Foundations: Basic Geotechnics (7th Ed., David F. McCarthy)
solutions manual to Feedback Control of Dynamic Systems (4th Ed., Franklin, Powell & Emami-Naeini)
solutions manual to Feedback Control of Dynamic Systems (5th Ed., Franklin, Powell & Emami-Naeini)
solutions manual to Field and Wave Electromagnetics 2nd Ed by David K. Cheng
solutions manual to Financial Accounting 6th Ed by Harrison
solutions manual to Financial Management- Theory and Practice 12 th ED by Brigham, Ehrhardt
solutions manual to Finite Element Techniques in Structural Mechanics Ross
solutions manual to First Course in Probability (7th Ed., Sheldon

Ross)
solutions manual to Fluid Mechanics (5th Ed., White)
solutions manual to Fluid Mechanics and Thermodynamics of Turbomachinery (5th Ed., S.L. Dixon)
solutions manual to Fluid Mechanics by CENGEL
solutions manual to Fluid Mechanics Egon Krause
solutions manual to Fluid Mechanics Fundamentals and Applications by Çengel & Cimbala
solutions manual to Fluid Mechanics with Engineering Applications, 10th Edition, by Finnemore
solutions manual to Foundations of Colloid Science 2e , Hunter
solutions manual to Foundations of Electromagnetic Theory by John R. Reitz, Frederick J. Milford
solutions manual to Fourier and Laplace Transform - Antwoorden
solutions manual to Fractal Geometry Mathematical Foundations and Applications, 2nd Ed Kenneth Falcone
solutions manual to fracture mechanics ; fundamentals and applications, 2E, by T.L. Anderson
solutions manual to From Polymers to Plastics By A.K. van der Vegt
solutions manual to Fundamentals of Aerodynamics (3 Ed., Anderson)
solutions manual to Fundamentals of Aerodynamics (2 Ed., Anderson)
solutions manual to Fundamentals of Applied Electromagnetics (5th Ed., Fawwaz T. Ulaby)
solutions manual to Fundamentals of Chemical Reaction Engineering by Davis
solutions manual to Fundamentals of Complex Analysis (3rd Ed., E. Saff & Arthur Snider)
solutions manual to Fundamentals of Computer Organization and Architecture by Abd-El-Barr, El-Rewini
solutions manual to Fundamentals of Corporate Finance 8th edition by Ross
solutions manual to Fundamentals of Corporate Finance 9th edition by Ross
solutions manual to Fundamentals of Corporate Finance, 4th Edition (Brealey, Myers, Marcus)
solutions manual to Fundamentals of Differential Equations 7E Kent Nagle, B. Saff, Snider
solutions manual to Fundamentals of Digital Logic with VHDL Design (1st Ed., Stephen Brown Vranesic)
solutions manual to Fundamentals of Electric Circuits (2nd.ed.) by C.K.Alexander M.N.O.Sadiku
solutions manual to Fundamentals of Electric Circuits (4E., Charles Alexander & Matthew Sadiku)
solutions manual to Fundamentals of Electromagnetics with Engineering Applications (Stuart Wentworth)
solutions manual to Fundamentals of Electronic Circuit Design , Comer
solutions manual to FUNDAMENTALS OF ENGINEERING ELECTROMAGNETICS, by DAVID CHENG
solutions manual to Fundamentals of Engineering Thermodynamics, 6th Ed (Michael J. Moran, Howard N. Shapiro)

solutions manual to Fundamentals of Engineering Thermodynamics, 7th Ed (Michael J. Moran, Howard N. Shapiro)
solutions manual to Fundamentals of Financial Management 12th edition James C. Van Horne, Wachowicz
solutions manual to Fundamentals of Fluid Mechanics, 4E (Bruce R. Munson, Donald F. Young, Theodore H.)
solutions manual to Fundamentals of Heat and Mass Transfer - 5th Edition F.P. Incropera D.P. DeWitt
solutions manual to Fundamentals of Heat and Mass Transfer (4th Ed., Incropera, DeWitt)
solutions manual to Fundamentals of Heat and Mass Transfer (6th Ed., Incropera, DeWitt)
solutions manual to Fundamentals of Logic Design, 5th Ed., by Charles Roth
solutions manual to Fundamentals of Machine Component Design (3rd Ed., Juvinall)
solutions manual to Fundamentals of Manufacturing 2nd Edition by Philip D. Rufe
solutions manual to Fundamentals of Materials Science and Engineering- An Integrated Approach, 3rd Ed by Callister
solutions manual to Fundamentals of Modern Manufacturing: Materials, Processes, and Systems (2nd Ed., Mikell P. Groover)
solutions manual to Fundamentals of Organic Chemistry, 5E, by T. W. Graham Solomons
solutions manual to Fundamentals of Physics (7th Ed., David Halliday, Robert Resnick & Jearl Walker)
solutions manual to Fundamentals of Physics, 8th Edition Halliday, Resnick, Walker
solutions manual to Fundamentals of Probability, with Stochastic Processes (3rd Ed., Saeed Ghahramani)
solutions manual to Fundamentals of Quantum Mechanics (C.L. Tang)
solutions manual to Fundamentals of Semiconductor Devices, 1st Edition by Anderson
solutions manual to Fundamentals of Signals and Systems Using the Web and Matlab (3rd Ed., Kamen & Bonnie S Heck)
solutions manual to Fundamentals of Solid-State Electronics by Chih-Tang Sah
solutions manual to Fundamentals of Thermal-Fluid Sciences, 2nd Ed. by Cengel
solutions manual to Fundamentals of Thermodynamics 5th Ed by Sonntag, Borgnakke and Van Wylen
solutions manual to Fundamentals of Thermodynamics 6th Ed by Sonntag, Borgnakke & Van Wylen
solutions manual to Fundamentals of Wireless Communication by Tse and Viswanath
solutions manual to Gas Dynamics (3rd Ed., John & Keith)
solutions manual to General Chemistry 9 Edition by Ebbings, Gammon
solutions manual to General Chemistry, 8th Edition by Ralph H. Petrucci; William S. Harwood; Geoffrey Herring
solutions manual to Geometry and Discrete Mathematics Addison Wesley

solutions manual to Guide to Energy Management, 6th Edition by Klaus Dieter E. Pawlik
solutions manual to Guide to Energy Management, Fifth Edition, Klaus-Dieter E. Pawlik
solutions manual to HARCOURT MATHEMATICS 12 Advanced Functions and Introductory Calculus
solutions manual to Harcourt Mathematics 12 Geometry and Discrete Mathematics
solutions manual to Heat and Mass Transfer: A Practical Approach (3rd. Ed., Cengel)
solutions manual to Heat Transfer A Practical Approach ,Yunus A. Cengel 2d ed
solutions manual to Heating, Ventilating and Air Conditioning Analysis and Design, 6th Edition McQuiston, Parker, Spitler
solutions manual to History of Mathematics: Brief Version (Victor J. Katz)
solutions manual to Hydraulics in Civil and Environmental Engineering 4 E by Chadwick , Morfett
solutions manual to Industrial Organization Theory & Applications by Shy
solutions manual to Intermediate Accounting Kieso 12th ed
solutions manual to Introduction to Algorithms, 2nd Ed by Cormen, Leiserson
solutions manual to Introduction To Analysis (3rdEd) -by William Wade
solutions manual to Introduction to Chemical Engineering Thermodynamics (7th Ed., Smith & Van Ness)
solutions manual to Introduction to Commutative Algebra by M. F. Atiyah
solutions manual to Introduction to Digital Signal Processing (in Serbian) by Lj. Milic and Z. Dobrosavljevic
solutions manual to Introduction to Econometrics (2nd ed., James H. Stock & Mark W. Watson)
solutions manual to Introduction to Electric Circuits 7th Edition by Dorf, Svaboda
solutions manual to Introduction to Electric Circuits, 6E, Dorf
solutions manual to Introduction to Electrodynamics (3rd Ed., David J. Griffiths)
solutions manual to Introduction to Elementary Particles 2nd Ed by David Griffiths
solutions manual to Introduction to Environmental Engineering and Science (3rd Ed., Gilbert M. Masters & Wendell P. Ela)
solutions manual to Introduction to Environmental Engineering and Science, Edition 2, Masters
solutions manual to Introduction to Ergonomics 2E by Robert Bridger
solutions manual to Introduction to Fluid Mechanics (6E., Robert Fox, Alan McDonald & Philip)
solutions manual to Introduction to fluid mechanics 5th edition by Alan T. McDonald, Robert W Fox
solutions manual to Introduction to Graph Theory 2E - West
solutions manual to Introduction to Heat Transfer by Vedat S. Arpaci,

Ahmet Selamet, Shu-Hsin Kao
solutions manual to Introduction to Linear Algebra, 3rd Ed., by Gilbert Strang
solutions manual to Introduction to Materials Science for Engineers (6th Ed., Shackelford)
solutions manual to Introduction to Mathematical Statistics (6th Ed., Hogg, Craig & McKean)
solutions manual to Introduction to Operations Research - 7th ed by Frederick Hillier, Gerald Lieberman
solutions manual to Introduction to Probability 2nd Ed by Bertsekas and Tsitsiklis
solutions manual to Introduction to Probability by Dimitri P. Bertsekas and John N. Tsitsiklis
solutions manual to Introduction to Probability by Grinstead, Snell
solutions manual to Introduction to Quantum Mechanics (2nd Ed., David J. Griffiths)
solutions manual to Introduction to Quantum Mechanics 1st edition (1995) by David J. Griffiths
solutions manual to Introduction to Queueing Theory 2nd Edition by R.B. Cooper
solutions manual to Introduction to Scientific Computation and Programming, 1st Edition by Daniel Kaplan
solutions manual to Introduction to Solid State Physics 8th Ed by Kittel & Charles
solutions manual to Introduction to Statistical Physics by Kerson Huang
solutions manual to Introduction to Statistical Quality Control (5th Ed., Douglas C. Montgomery)
solutions manual to Introduction to the Theory of Computation by Ching Law
solutions manual to Introduction to Thermal and Fluids Engineering by Kaminski, Jensen
solutions manual to Introduction to Thermal Systems Engineering Moran Shapiro Munson
solutions manual to Introduction to VLSI Circuits and Systems, by John P. Uyemura
solutions manual to Introduction to Wireless Systems by P.M Shankar
solutions manual to Introductory Econometrics A Modern Approach, 3Ed by Jeffrey Wooldridge
solutions manual to Introductory Quantum Optics (Christopher Gerry & Peter Knight)
solutions manual to Introdution to Solid State Physics, 8th Edition by Kittel
solutions manual to Investment Analysis and Portfolio Management 7th Edition by Frank K. et al. Reilly
solutions manual to Journey into Mathematics An Introduction to Proofs ,Joseph Rotman
solutions manual to Kinematics, Dynamics, and Design of Machinery, 2nd Ed., Waldron & Kinzel
solutions manual to Kinetics of Catalytic Reactions by M. Albert

Vannice
solutions manual to Laser Fundamentals (2nd Ed., William T. Silfvast)
solutions manual to Lectures on Corporate Finance 2006, 2 Ed by Bossaerts, Oedegaard
solutions manual to Linear Algebra - 2 Ed - Poole
solutions manual to Linear Algebra and Its Applications 3rd ed by David C. Lay
solutions manual to Linear Algebra Done Right, 2nd Ed by Sheldon Axler
solutions manual to Linear Algebra with Applications (6th Ed., S. Leon)
solutions manual to Linear Algebra With Applications, 2nd Edition by W. Keith Nicholson

Snow and sand are much more significant than rain. They cause more noise
and anomalies in general, yet, nobody bothers. Same with egg insulators
as far as I'm concerned (they are for breaking wire rope guys into
non-resonant lengths and for isolating power distribution poles from the
ground. They are not for the end of an SWL long wire.)

I worry more about wind.

So did Lillian Gish ;-)

http://en.wikipedia.org/wiki/The_Wind

889. Latin American SW Logs Page Updated

Newsgroup: rec.radio.shortwave
Date: 2011-02-14 23:11:58 UTC
From: dxAce <dxAce@milestones.com>
Message-ID: <4D59B6BE.A37ADEB1@milestones.com>
Source record: 219842

The Latin American SW Logs page has been updated as of 14 February:

http://www.mcdxt.it/LASWLOGS.html

dxAce
Michigan
USA

Drake R7, R8, R8A and R8B
70' and 200' wires
GE SR I (2) and II

239 countries heard and 225 QSL'd (veried, for those in Glendale) using the NASWA Country List.

And, as always, don't let your children attend the Sullivan College of Technology & Design.

They've hired at least one dufus who once claimed to have a PhD and lied about being arrested, and who knows, there may be more dufi there.

Radio Ronin is booming in on 6950 kHz AM @ 0000 UTC.

Last night I was running fairly low power on a 40 meter worked all
states net and someone in the Ukraine heard me and gave me a call when
the net started. Even better times are coming.

Wire SWL Antennas : ? The Question Is . . .
Are Your SWL Antennas Fit-To-Be-Tied !
http://groups.google.com/group/rec.radio.shortwave/msg/4d1cdeb93902f3d3
.
- - If you use insulating rope there is no need to buy insulators.

I have done some temporary SWL Antennas
without Insulators -but- All of my permanent
SWL Antennas have Insulators between the
Wire and the 'Poly' Rope. -why- TRADITION !

- I use them for strain relief. Wrapping a wire
- or a rope around an insulator with a 3/4 inch
- radius puts less wear and tear on either
- material per square mm of contact surface
- than tying the rope directly to the wire.
- I cannot prove (off the top o' my head) this
- quantitatively, but intuitively it seems right.
-
- Having said that. I am sure there is nothing
- to gain electrically from omitting the insulator.

BpnJ - A Good Answer :o)

A Hard Insulator does not become contaminated
with all sorts of things -while- A Soft Woven Rope

can Absorb the Contaminates.

Add Rain and Water an two things Happen :

* The Hard Insulator has the contamination
washed off.
-result- A 'Clean' Insulator

* The Soft Woven Rope can Abosb the Water and
now you have Water mixed with the Contaminates.
-result- The Rope is no longer as good an Insulator
as when it was New un-contaminated and dry.

ALSO : As you point out the Right Insulator will give
you better mechanical 'strain' relief then joining the
Wire directly to the Rope.
* Usually I wrap both the Wire and the Rope twice
[2X] through the Insulator before Wrap the Wire back
on itself; and Tie the Rope Knot

NOTE : This is why I like 'Plastic Egg Insulators'

- http://www.westmarine.com/1/1/81866--nylon-thimbles-1-4.html

Wow Dave a "Nylon Thimbles" at around Buck a piece.
http://www.westmarine.com/1/1/81866--nylon-thimbles-1-4.html

...HUMmmm... "Nylon" a Plastic Insulator of sorts ;;-}}

-where-as-these-
Low-cost Plastic Egg Insulators in a Bag of 10
only Cost around 60 Cents a piece.
http://www.radio-ware.com/products/pegg.htm
* Designed for the intended application
* Mechanical Strain Relief for both the Wire and Rope
* Plus Lower Cost :o)

Just a reminder that the show begins tonight on channels USA and CNBC and continues through Wednesday. Dog lover or not, if you have never watched this spectacle check it out. It not only gives one a greater appreciation of the beauty and grace of dogs it is also makes for a very entertaining evening - very well produced and presented. And the dogs, my oh my, they will steal your hearts!

I would especially encourage any CANADIANS reading this to tune in. Hopefully it will enlighten you as to how dogs can be enjoyed and be a part of the family rather than commodities to be exploited for money and clubbed to death (as your baby seals) after you deem their usefulness gone.

- - If you use insulating rope there is no need to buy insulators.

- Well, that could be debatable.
- Do you have any way to quantify the RF leakage of wet
- rope vs. a wet insulator to support your contention?

Joe from Kokomo : What I was told many years ago
and still believe today is :

A Hard Insulator does not become contaminated with
all sorts of things -while- A Soft Woven Rope can Absorb
the Contaminates.

Now Add Rain {Water} and two things can Happen :

* The Hard Insulator has the Surface 'contamination'
Washed-Off.
-result- A Good 'Clean' Fully Functioning Insulator :o)

* The Soft Woven Rope can Absob the Rain Water
-and- Now you have Water 'mixed' with what all the
Contaminates that have penetrated the Rope.
-result- The Rope is no longer as good an Insulator
as when it was New un-contaminated and dry.

Just seemed reasonable to me -but- I have never seen
and Test Data that confirms this 'common-sense'.

It says they are made for electric fences. You have to buy 10 at a time.

Joe from Kokomo,

There are All Sorts and Forms of Pollution in the Air :
Chemical + Particle + Mineral + Organic
-and-some-of-them-when-mixed-'conduct'-
An Antenna Support/Rigging Rope that has been
In-the-Air for a Year is a "Dirty'* Rope.
* Contaminated

The Soft Woven Rope can Absorb the Rain Water
-and- Now you have Water 'mixed' with what all the
Contaminates that have penetrated the Rope.
-result- The Rope is no longer as good an Insulator
as when it was New un-contaminated and dry.
-while-
The Hard Insulator has the Surface 'contamination'
Washed-Off.
-result- A Good 'Clean' Fully Functioning Insulator :o)

well that is how 'i' see it . . .

I buy 14 g stranded for 30 something in 500' rolls. It has plastic insulation. I use it for antennas and for ground radials. I have an SWR bridge I bought with the money I saved by not buying useless junk like woven copper antenna wire and egg insulators.

900. Free WMA to mp3 converter?

- That wouldn't be "insulating" rope any more, technically.
- Fresh water on plastic does not conduct.

Dave,

The Rain Water is only 'Fresh' {Pure} until it lands
on something that is 'Dirty' {Contaminated}.

An Antenna Support/Rigging Rope that has been
In-the-Air for a Year is a "Dirty'* Rope.
* Contaminated by Exposure to the Environment

?WHY? 'Dirty' {Contaminated} ?
There are All Sorts and Forms of Pollution in the Air :
Chemical + Particle + Mineral + Organic
-and-some-of-them-when-mixed-with-water-'conduct'-

What you need is a Windows to Linux converter. Life would be better, the
air sweeter, the people nicer and rainbows would fill the skies.

Thanks Brenda - I actually tried this one. It worked, but it only
allowed me to download a demo version, which superimposed an annoying
audio "watermark" on the file. Otherwise, I was required to upgrade
for some tens of dollars. I'm only going to use this for a handful of
audio files of radio stations; $70 is too much IMHO.

Thanks Brenda - I actually tried this one. It worked, but it only
allowed me to download a demo version, which superimposed an annoying
audio "watermark" on the file. Otherwise, I was required to upgrade
for some tens of dollars. I'm only going to use this for a handful of
audio files of radio stations; $70 is too much IMHO.

Sorry, here's one that will work for you:

http://www.wma-mp3.org/free-wma-mp3-converter.exe

I've checked it out and it's clean and quite versatile. I just trust stuff
from cnet better than most.

I don't live in Texas anymore. Except for ash, we have pretty clean air.
Dirt washes right off plastic which technically never really absorbs
anything.

I learned to make insulators out of Plexiglass in the early 1960s. Ever since then I have used scrap plastic when the need arises. And I transmit. To watch an SWL wanker get all anal about insulators is funny.

NVIS is for local, not DX. The subject was reception of low angle
signals. NVIS is "near vertical". Near vertical is not low angle.

Learn to fucking read.

If you're talking about a receiving antenna, there's really
little loss in using a piece of line tied directly to the antenna
wire to maintain tension.

But consider, that the line will be in contact with other
infrastructure. A tree, a pole. The house, or garage.....whatever
you use to support the block. And while dry, that may be no issue,
when wet, there's enough conductivity to take a nearby static strike
up directly into your front end. May not be the best result.

Using an egg insulator between the line and the wire of your
antenna allows that extra bit of isolation that may save your input.
It also allows a more secure mounting of the antenna, and attachment
to your tensioning line because the mechanical strain is almost
entirely borne by the insulator. Further, if correctly installed,
the egg is, itself, in compression, not tension, so even if damaged,
there isn't an immediate danger of release.

For a receiving antenna, there are few differences in
performance. But there are a few benefits to using an insulator
mechanically. And there may be benefits if there are static issues
at your listening post.

A good quality ceramic egg is the better option. Both
mechanically and electrically, and will deteriorate less over time,
when exposed to the elements.

I have a skirt tuned multiband HF vertical, made entirely of aluminum
and plastic. It requires no guys, but I use them anyway due to hurricane
force winds some times. I have 4 [ea] Dacron antenna ropes, tied
directly to the radiating metal of the upper half of the vertical dipole
at about 22 feet AGL. The ropes are at a 45 degree angle and tied to
stakes in the ground.

Wet ropes, as described above, make no difference. Inductively coupled
energy from nearby lightning strikes will get directly into your
transmission line, regardless of your clean eggs. That's why you use Arc
Plugs or something similar.

> What's your opinion on this?

My DX-Ultra has a proprietary gas discharge arc-plug in its core.
Alpha Delta says that after several years of significant static, it
can get weak and the antenna won't function as well. Just to be anal,
I put in a new one about 6 years ago, and it's worked about the same
before and after and ever since.

It was better before Riley messed up the bands.

I want WA9KJI and W9ART and N4SX in downtown Washington, DC to check
in like the good old days.

And Tarzan and Doofus Jammer.

Sir Sidney had a good story about how he shot the private parts off of
a dawg in New Mexico.

That story was a favorite of The Great Liberty Net.

Sir Sidney is dead - long live Sir Sidney.

Jamfest 2011 is on.

Gentlemen start your amps.

The Late Arky Bob said that.

Using WWV as a beacon, @ 1845 UTC I've got 10 MHZ weaker than normal.
15 and 20 MHZ varying in strength. Sometimes 20 MHz is stronger
sometimes 15 MHz. @ 1855 UTC 20 MHz is strongest.

Anonymous posters have no reason to differentiate their posts from sewage, so it is an entirely appropriate name.

By the way, were this a crime involving a specific victim, an anonymous posting would be a perfectly appropriate way to warn the public - and perhaps seek some level of vengeance on a purpetrator. But as a pure sniping operation, the motivation of this post should indeed be called into question, especially since the target is a person who appears to be engaged in political advocacy both here and on the airwaves.

On many blog sites an unregistered poster is for such reasons automatically labelled "Anonymous Coward".

Heard the Female Voice Bottom of the Hour 'Aloha' and
give the WWVH Frequencies on 10 MHz followed by the
Male Voice giving the WWV Frequencies.
* Both signals were about equal @1430 UTC on 10 MHz.
* Between 1000~1300 UTC WWVH was stronger on
2500 kHz; and WWV was stronger on 5 MHz.
But all during that time I heard the WWV/WWVH Hourly
Radio Black-Out Alert. ~ RHF

- NVIS is for local, not DX.

Given a SWL'ers Location and Circumstances...
What You Get -is- What You Get :
Local : DX : or Both : and sometimes None
.
- The subject was reception of low angle signals.

NO Dave -to-quote-your-original-post-
"I am in a box canyon, open only to the South.
If mountains stopped the signals completely,"

-hence-my-reply-
Down in a Valley with High Mountains All Around
You : All Signals Are Near Vertical / High Angle
.
- NVIS is "near vertical".

Dave that is true.
.
- Near vertical is not low angle.

Dave that is true.
.
- Learn to fucking read.

Dave : ? "Learn to fucking read" ?
So anyone who doesn't reply back with what :
YOU WANT TO READ ~cant' fucking read~
=Conclusion= 'Special-Dave' : Proving Once Again
That You Are NO Libertarian of any stripe -but- an
Intolerant Elitist with Liberal-Fascist tendencies.
http://groups.google.com/group/rec.radio.shortwave/msg/920c3f7fdd38ee9b
-dave-too-much-medial-marijuana-smoking-again-
.
Dave your are talking about 'science' and "Science"
is good.

Where-As : I am talking about Shortwave Radio Reception
in the Mountains and Practical Ways of Achieving It.

For some {not-all} a NVIS Loop Antenna is a 'practical'
answer to being able to Hear something on the Radio;
when previously they could hear very little to nothing.

I reality most Shortwave Radio Listeners [SWL'ers] have
SWL Antennas that are more NVIS then Skywave :
Since their Antennas are too low at the lower SWL
Frequencies to be a Half-Wave Length of more Higher.

120m SW Band needs to be ~214 Feet for a 1/2WL
above the Ground; and ~107 Feet for a 1/4WL

90m SW Band needs to be ~154 Feet for a 1/2WL
above the Ground; and ~77 Feet for a 1/4WL

60m SW Band needs to be ~104 Feet for a 1/2WL
above the Ground; and ~57 Feet for a 1/4WL

49m SW Band needs to be ~83 Feet for a 1/2WL
above the Ground; and ~42 Feet for a 1/4WL

41m SW Band needs to be ~69 Feet for a 1/2WL
above the Ground; and ~35 Feet for a 1/4WL
.
= = = Many/Most SWL Antennas Are Lower = = =
-and-many/most-are-random-wires-less-than-50-feet-
.
31m SW Band needs to be ~52 Feet for a 1/2WL
above the Ground; and ~26 Feet for a 1/4WL

25m SW Band needs to be ~42 Feet for a 1/2WL
above the Ground; and ~21 Feet for a 1/4WL

21/22m SW Band needs to be ~36 Feet for a 1/2WL
above the Ground; and ~18 Feet for a 1/4WL

19m SW Band needs to be ~33 Feet for a 1/2WL
above the Ground; and ~16 Feet for a 1/4WL
.
.
Dave the 'Science' -says- many/most SWLs are
using SWL Antennas that are too-short and
too-low for the lower SW Frequencies and would
be considered to be designed for the Higher SW
Frequency Bands : 31m, 25m, 22m and 19m,
16m, 15m, 13m 11m.

BUT : We Work With What We Got [House & Lot]
AND : Do The Best We Can [Mostly Simple & Practical]
.
SWL 'Loop' Antenna : Going Beyond the Common
SWLer's Straight-Wire Antenna

For some/many SWL'ers Using a simple Random Wire
Antenna of 50~75 Feet Length be it a Horizontal Wire
Antenna; or an Inverted "L" Antenna at 15~30 Feet off
the ground; on the common Urban 'Lot' of 50'x100' with
a House etc on it.

For SWL'ers going to a Loop Antenna will give them
more Wire in-the-air in the available space that they
have an Urban 'Lot'.
* The Wire length will increase by 2X to 3X {That's 2X
to 3X the Wire In-the-Air and Better Signal Levels}
* But these SWL'ers can still only get the Wire
around 15~30 Feet Up-in-the-Air {off the ground}.
* The Large Loop Antenna's Signal Capture Area
is closer to 4X to 9X then the narrow straight Wire.
{That's 4X to 9X More 'possible' Signals}
-result- Better Signals and More Signals over the
straight Wire Antenna in the same Urban 'Lot'.

Most SWL'ers should be able to easily erect a
Loop Antenna for the 60m Shortwave Band :
{4750 to 4995 kHz} that is Roughly ~104 Feet
with a General Average Diameter 33 Feet and
Set @ < 21 Feet above ground on an Urban 'Lot'.

Some SWL'ers should be able to squeze-in a
Loop Antenna for the 90m Shortwave Band :
{3200 to 3400 kHz} that is Roughly ~154 Feet
with a General Average Diameter 49 Feet and
Set @ < 31 Feet above ground on an Urban 'Lot'.
.
Both would be 'practical' size SWL Antennas for
SWL'ers to consider for the average Urban 'Lot'

besides the conventional straight Wire Antenna.
.
Dave Dave Dave : "You" Can't Argue With 'Me'
-cause- You Are Stuck-On The Last Word of KISS :-{
-while- I Am Focused-On The Last Word of KISAP :o)

KISAP : Keep It Simple and Practical - iane ~ RHF
.
.

Ususal propagation is out the window on 40 meters. Most people I talk
to on my 40 meter net are near inaudible. But I contacted a 10 watt
station with a K2 in Bowling Green, OH which from the Detroit area
would usually be out of the skip zone.

Not really. Some of us,over here, are hardcore--diehard--SWL--nuts .
And Perfectionists on top of that ... Just some of us, not all .

You don't know how wrong you are, Bruce.

The person in question -- Sidney Mahan, a vicious drunk -- was one
of the jammers who hated the Liberty Net so much he tried to drive
it off the airwaves with obscenities, music, and other types of
illegal, malicious interference. Far from being a "favorite" of the
net, Mahan and his disgusting "stories" were part of a deliberate
interference campaign against the net, some of which is archived in
audio form. Simply Google "K5BLB" if you really want to hear it.

The Liberty Net's Net Control Station, W1WCR, Victor Misek, in total
contrast to Mahan, is a gentleman and a published author who wrote
the well-regarded _Beverage Antenna Handbook_. See

http://exax.net/

With all good wishes,

Kevin, WB4AIO.

Actually RHF makes perfect sense this time.

The freedom to associate, to exist at all, must also include the
freedom _not_ to associate.

So, if one doesn't like a particular amateur operator, for example,
simply don't talk to him or listen to him. (Of course, jammers make

this very sensible dictum difficult to practice, since they insist
on transmitting purposeful interference on top of other stations --
but that is a separate issue. So is the sad fact that we have
largely lost our freedom of association in this country.)

With my best,

Kevin, WB4AIO.

not the case, then I retract my comment.

Bruce

I think the only way to *possibly* prevent a lightning jump to your
equipment and house is to provide a total disconnect and shunt to
exterior ground. Otherwise, a lightning stroke can leap a mighty
distance.

On the subject of front end protection. Some very good (old-time)
designs contained a simple neon light (120vac) across the antenna
terminals . Such modestly priced extra protection never hurts . Gas
discharge tube type is much better,though .

The instructions point out that this happens and that you can get back on the air by removing the replaceable arc pill thingy. I suspect a charge big enough to fuse the gap would have been a front-end killer. I was a firm believer in Power MOVs when I was a station engineer in South Texas.

I said "inductively coupled energy"; not direct strikes. The egg won't
stop those either.

Doggy told me,,, Don't shoot untill you see the whites of their eyes!

I always listen to my little couch buddy doggy.She really can and sometimes does say my name.

I am ah thinkin in a few months er so, I am going to buy me ah Motorola ATRIX www.motorola.com
with all the accessories, including the laptop dock thingy.Expensive, it is, but I can then dump WebTV ($24.95 each month) and my land line AT&T (SUCKS!) phone service, averages about $30.00 each month.

Yeah, in fact of the business,,,, metinks ah needs to do some Upgrading.

- I think the only way to *possibly* prevent a lightning
- jump to your equipment and house is to provide a
- total disconnect and shunt to exterior ground.
- Otherwise, a lightning stroke can leap a mighty distance.

ZAP ! - Lightning Has Many Paths To Follow To
Create Radio Equipment Disaster For You - ZAP !

Here is the Almost Sure Proof Way To Stop It !
You walk outside to where you have your Antenna
Feed-in-Line Coax Cable coming to the House :
Where you have located your 1:1 Line Isolator and
un-screw the House-Side PL-259 Plug on the end
of the Coax Cable going into the House from the
Isolator. Have a SO-239 Jack* mounted where
you could easily hang up the Coax and Screw the
PL-259 Plug into it.

* The SO-239 Jack should be Shorted from Center
to the Threaded Outer-Ring.

Now You Do This Each and Every Time You Use
{come home} and Don't Use {leave home} Your
Radio Equipment and can reasonably be sure that
the Radio Equipment is Safe from your Antenna
System being a Lightning Path to it.

...but... oops,,, Oops... OOPS ! ! !
Your House's Electrical System still could be an
'alternative' Path for Lightning to Travel and Get to
your Radio Equipment.

=OK=NOW=
Think of all the Electrical Service 'Grid' Wires that
are with-in a 1/10th of a Mile [528 Feet] from your
House all with the 'potential' To-Channel the Energy
from a Nearby Lightning Strike into your House
{Neighbor's Houses too} and Do Real Damage to
Everything in-side of it; that is "Plugged-In".
-oh-the-horror-

So -rotfl- Un-Plug Everything Before You Leave ;;-}} ~ RHF
.
.

968. My 'Gas Discharge Arc-Plug' [G-DAP] : Is It Still Good ?

-wrt- Gas Discharge Arc-Plug [G-DAP]
* If it's OK You Won't Notice It In Receive.
* If it's Blown You Won't Notice It In Receive.
* If it's Shorted You Will Notice It In Receive.

Note 99+% of the time if a G-DAP has done it's 'J-O-B' :
It is Blown -and- The Blown G-DAP is Useless.

Very seldom do G-DAP's Short; if at all.

-hint- One way that you might suspect that the G-DAP
is 'Shorted' is if the Paint on your Antenna Switch is
. . . Burnt. ;;-}} ~ RHF

He's right, and not only is Google in bed with the government, but in bed with the Left-wing Establishment, though Fox News is part of that same pseudocon left-wing establishment too. Trust no one.

Maybe it forms a coating on the inside of the plug?

WebTV is virus-proof,though ...

MSN is dropping WebTV, and "offering an upgrade" to WebTV customers. I
always love when MS arbitrarily drops support for longstanding applications
(like they did to Outlook/Outlook Express, when they decided to pretty much
force LiveMail on us.) So Larry really won't have a choice whether or not
to ditch his WebTV.

Don't want to use a 120 VAC neon bulb...it has a series resistor. Just use a plain NE-2 neon bulb without any series resistor, it fires at 60 volts and IS by definition a "gas discharge" tube.

Well, you really don't want egg insulators for this application --
that's not what they are designed for.

Their intended use is for guy wires, to break them up into non-resonant
lengths for towers that will be used to support a transmitting antenna.
Furthermore, if the egg insulator should happen to break, the sections
of guy wire will still be looped together, still providing mechanical
integrity.

The insulator you should be talking about is the classic plastic or
glass ribbed insulator.

Since the IPO Google just can't be trusted with anything. The privacy
issues surrounding their Desktop Search and Gadgets are truly frightening.
They have all kinds of shady political connections, and won't give a
straight answer about what they keep and how long. I try and use Yahoo when
I can, though it isn't always as sharp.

- Maybe it forms a coating on the inside of the plug?

Only -if- The Material ofl Container Ionizes with the
Gas and forms a Compound that is then Deposited
on the interior surface that is conductive.

More likely -if- the Material/Metal got so HOT as to
Ionize it would first flow and bridge the gap by itself.

Seven years of work have gone into this.

My 'GymyBobism' collection...updated daily:
==========
some '#' bracketed text added for clarification
all cut and paste, NO modifications of ANY kind
100 % Pure GymyBob. Accept no substitutes!

We need less morons like another clone of Moron II here.
My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject
lines changing, intermingled posts and downloading binary files with
mixed posts, random pieces and many other problems all the nonOE
people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged
13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation
first so there is, at least, some stake, like friendship for the
person listening. When the friendship is well developed then attack.
Not too obvious at first or you will lose your audience. This will
enhance your troll points.

I think outside opinions are worth much more than sales hype from the
company that made the product.
Referring to *factory* charging specifications for the batteries
they make ##

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way
back to the transformer neutral.

A thought I have is rain water from a roof on a three story home
through a micro-turbine.

Setback thermostats only work efficiently for small differentials,
dependant on the time duration.

Breakers are good for one time usage of one fault and then they need
to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty
will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully charged. The nicads will be cooked because you keep them on charge, just in case you need them but when you remember them six months later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the diode in 1941 but I am not familiar with the solar panel usage requirements of them. (no P & N substrate explanations please. I wrote the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a 100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you are full of shit.

I am a Protection & Control Tech by profession and have experience with control systems

Try spelling "bus" correctly! Maybe your brain will start again. Probaby not, you fucking loser.
Referring to the correctly spelled word 'buss' as used in real electrical terminology
http://tinyurl.com/5ctml

X10 signals are transmitted just after the voltage waveform zero crossing. This is in order to avoid conflicts with SCR and Triac peak waveform switching spikes from load type devices such as lamp dimmers.
control module misinformation

Besides when they on any line they will pull of the meter as a disconnect point.
speaking of power line guys miles away removing YOUR electrical meter for THEIR safety

My workplace has been throwing out huge digitizing pallettes (like 24 x 36" units)
in alt.sewing.mach-embroider

The majority prefers top posting.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve aluminum does. Overload doesn't make it glow like copper...it flashes and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20 horizontal feet. They are made to vent smells and humid air horizontally only.

Why not spend the money on a contract with the grid company and get an exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric

system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals" come and beg for information because they can't our toys do what the good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate lights. They mostly signal my house control computer and it decides what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic symptom.

When confronted with many websites stating the otherwise he won't address the issue but repeats his crap again like a child stamping his

feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It was the needles. Find ones that have very little "hip" bump around the eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the same.

I did the chem.cut medication stuff for a few years with my first child and then found Naturopathic Doctors using homeopathy to get more lasting relief.

Homeopathics saved me thousands of dollars for operations I did not have on my children

Accupunture worked for my 1 and two year old children for ailments after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody else here.

See if you can replace it with a thermal acting unit. They have a rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a huge irritant to human digestion and usually results in calcium deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.
See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of
nutrition.

The medical doctors will play the time game and probably just let him
die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat
typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop
but so is insulin for a diabetic. I have stopped taking mine and it
wasn't that bad but after months of regressing I chose to return like
the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky
movements to them.

Make up your mind before you mouth off like the usual Internet piece
of shit. This is a rough group and if you had followed the usual
recommendations you would have known that and have nothing to say
about it.
in misc.kids.health, alt.support.breast-implant,
misc.health.alternative ##

Bad practice to ground yourself when working on electronics. It
increases the chance of injury or death by electrical shock and also
increases the chance of static discharge to the circuit chips. Ground
is a potential too.

Oink...Oink...just take it out. What could be simpler?

- I think the only way to *possibly* prevent a
- lightning jump to your equipment and house
- is to provide a total disconnect and shunt to
- exterior ground. Otherwise, a lightning stroke
- can leap a mighty distance.

?Q? : Are Your SWL Antennas Built Safe ?
=WRT= Best Shortwave Radio Listener [SWL] Practices
.
If the Lighning can make the Jump from 40K Feet up in
the Clouds and all the way down to the Ground in your
backyard : It can make it the last 50~100 Feet from the
Far-End of your SWL Antenna to your Radio Equipment
inside your house. {and you and your family too}
.
Hence the best you can do is used a Far-End Feed-Point
for the SWL Antenna; with a Matching Transformer mounted
directly on-to a 8-Feet earthen Ground Rod; with a Buried
Coax Cable Feed-in-Line to the House; with a 1:1 Line
Isolator on another 8-Feet earthen Ground Rod just before
the Coax Cable goes into the House.
.
+ Plus inside the House use an Antenna Switch with a
Neutral Position to :
http://www.universal-radio.com/catalog/switch/2415alt.gif
1 - Disconnect the Antenna from Radio/receivers
2 - Short-Out the Antenna Inputs to Ground
http://www.universal-radio.com/catalog/switch/2415.html
.
IMHO : Using an Antenna Switch* in the Radio is also
a 'Best Practice' for SWLs using External {Outside}
SWL Antennas.
* Grounded with a separate Copper Ground Wire : Don't
rely on the Coax Cable's Shield for a Ground 'connection'.

* ?WHY? 'Dirty' {Contaminated} ?
* There are All Sorts and Forms of Pollution in the Air :
* Chemical + Particle + Mineral + Organic

On Feb 15, 5:37 am, dave <d...@dave.dave> wrote:

- I don't live in Texas anymore.

I Am Sure That's a Happy 'Hurray' for Texas & Texans ;;-}}

-fyi- Dave You Are NOT 'The Center' :
End-All-&-Be-All of the Shortwave Radio World
-and- Some SWL'ers and Hams Do Live In Texas
and other nice places too.
.
- Except for ash, we have pretty clean air.

Dave : Clear Air is Good :o)
.
- Dirt washes right off plastic

Dave : Yes Dirt {Contaminates} generally wash-off
of Hard Plastics. -like-insulators-and-such-
.
- which technically never really absorbs anything.

Yes Hard Plastics in most instances do not absorb
{hold} most things. Just as a Porcelain 'glazed'
Ceramic does not absorb {hold} most things.
Where-as un-glazed Ceramics can and do absorb
{hold} most things including water.
.
? SIMPLE : IS MY AIR "DIRTY" EXPERIMENT !
Dave go anywhere out in your backyard and stretch-out
and secure a few 30" piece of Clear Packing Tape side
by side on a flat horizontal surface about 5~10 Feet off
the ground with the sticky side up. Wait a Month and
come back and check it out.
-it's-'covered'-with-all-kinds-of-"stuff"-
It's Dirty {Contaminated} with All Sorts and Forms of
"Stuff" {Pollution & Contaminates} in the Air : Dirt+

Chemicals + Particles + Dust + Minerals + Organics
-and-some-of-them-when-mixed-with-water-'conduct'-
NOW : Imagine that same Tape in a Year . . .

Dacron 'Poly' Braided Rope is Woven and has a Weave
that can Trap Things in the Rope's Surface Texture.

Dacron 'Poly' Braided Rope is a Plastic and can develop
a Static Charge resulting in Static Cling and Attract Many
Things to the Rope's Surface.

YES Dave : A Soft Woven Rope can and does Attract
and Absorb Dirt {Contaminates}. -aka- Plastic Static
Cling. Plus a Soft Woven {Braided} Rope can Trap Dirt
{Contaminates} in the Weave.

Now Dave where BpnJ lives in the SF Bay Area next to
the SF Bay and it's Salty Water and Salt Air; a small
amount of the Salt gets 'deposited' on everything that is
Outside and Exposed to the Salty-Air
-and- Overtime this Salt gets washed-a-way from {Off-of}
Hard Surfaces
-but- More often the Salt Air, Salt Dew and Salt Laden
'Fog' gets deposited and redeposited time and time
again on Soft Absorbent Surfaces and Trap in all those
little nooks and crannies like the Weave of a Rope.

THUS : In the SF Bay Area "Insulators" -imho- Should Be
Used As A 'Best Practice' When Building SWL Antennas [.]
-and- In general 'i' recommend using "Insulators" as a
'Best Practice' when building SWL Antennas - iane ~ RHF

Yes, understood.

Cruelty towards animals is a sign of very bad character; indeed I believe you can tell a great deal about a person by the way he or she treats animals -- or any being, human or animal, who is totally in his or her power.

The original poster, "Arky Bob," is a Usenet reincarnation of one of the jammers, who likes to revel in the remembered chaos of those times -- whether out of real enjoyment or a sense of irony, I don't know.

With all good wishes,

Kevin.

They've been soft-pedaling WebTV for about 12 years now. I had an original Dishplayer 7100 powered by WebTV. It was a combination WebTV internet device and DishNetwork satellite receiver and a digital video recorder. The whole mess was built by JVC and Echostar. One really cool feature was you could put TV screen captures into emails really easily.

It was the first DVR to have mass distribution. That's why I got it. It broke down frequently and every time they sent me a replacement I got a new wireless keyboard. I have 3 or 4 of them somewhere.

Temperature? Currently it is 50 degrees inside my flower box on doggy's front porch, porch measures just a little over seven feet by fourteen feet.Doggy's back porch, I haven't measured that back porch, but it is much smaller than the front porch.Suppose to be up in the 70's the next few days.Doggy said, I Will Take It!

Before I started using two tv sets, one for WebTV and the other one for DirecTV, I used to send tv screen captures (mostly local tv) with emails to that married Irish woman wayyyyyy over yonder across the big pond.I can still do that if I connect a cable from my DirecTV set to my WebTV tv set.

I pull up my WebTV Options panel now and click on the PIP and what I see is a PIP blue screen.I can move that PIP to the top left or top right or the bottom left or the bottom right, wherever I want it on my WebTV screen.

I use this to time record radio shows on the net and via the inline to
the audio card. Will convert files to mp3 with free LAME plugin.

Because Peter brought up the "slippery slope to censorship" thing as
the fourth or fifth step in the logical progression following my
comment, which was merely a snarkily crack on the character of people
for whom abuse of animals was a favorite topic of discussion. There's
a pretty wide gap there IMHO.

I took him at his word. Kevin explained more thoroughly anyway, and I retracted.

There's plenty more serious rushing to judgment going on anyway in this country, than making a snarky comment about those who appear to enjoy cruelty to animals. I'm not going to worry about it too much.

She, Cuba and the stateside religious broadcasters are about all the
big guns left on 49 meters it seems. Used to be my favorite
international band; nowadays, though, I usually head for 41 meters.

Preparing a couple more today - PMA The Cross Radio on 4,755.44 (Super reception last night! Huzzah!) and the venerable R. Clube do Para on 4885, also gangbusters (relatively speaking). The DX is back! If I could have stayed up later, would have done a R. East New Britain (3385) also (at least I believe it was RENB - it sounded like Tok Pisin as opposed to an Indonesian dialect). I may try again tonight or tomorrow.

What fun! :-)

Tropical Bands in the winter. Nothing like it. There's a big HF log periodic antenna on the East side of the Nimitz, between you and the Coliseum, that always impressed the shit out of me. I think it's nearer you as I recall. I used to unload trucks at Alameda NAS in a former life.

Hmmm - not the one up north of the Coliseum at Ham Radio Outlet on the
Oakland-Alameda Border? It's just on the west side of the Nimitz. I
don't recall anything on the east side, but maybe it's come down since
then.

It is possible that Family Radio formerly had a transmitter site in
Oakland that may have used such an antenna, but I have not checked on
that.

Bruce

I'm about 10 miles south of that spot.

It's military. It looks like a giant ham radio beam with a 5 horsepower
rotator. I have a photo somewhere...

Now that would be a surprise. I know of nothing military offhand on
the east side of the Nimitz (plenty on the west, tho).

Let's not forget those poor humans who suffer BECAUSE of animals.

Origin of this tale of abuse is unknown to me. Very sad....

====================================
Last night I was sitting on the sofa watching TV when I heard
my wife's voice from the kitchen. "What would you like for dinner my
Love?... Chicken, beef or fish?"

I said, "Thank you, I'll have chicken."

She replied "You're having soup, asshole. I was talking to the
dog"

==========
MONTREAL-A Montreal doctor has been suspended and fined for filming
female patients with a hidden camera while they were naked.

Quebec?s College of Physicians says it has suspended Dr. Barry
Rabinovitch for four months and fined him $3,000.

According to the disciplinary report released Tuesday, the investigation
found that Rabinovitch filmed 10 to 15 women in various stages of
undress in an examining room between January and May 2009.

The 56-year-old is a married father of two children and a lung specialist.

He is also an associate professor with McGill University?s medical faculty.

The professional order calls the actions ?hateful and degrading? and
says the penalty must send a deterrent message to all members of the
profession.

Careful there Kevin - Sir Sidney was NOT a drunk. Vicious or
otherwise. And his story about shooting "the dawg" was a keeper for
sure.

The drunk on 3950 was The Late Uncle Walter. He stayed drunk and
delusional ALL THE TIME.

But Sir Sidney - nahhh .. he just had the best signal .. rightfully
called "The Loudest Station In The Nation". That is .. until Riley
trashed the band.

WiWCR a gentleman? Then why won't he accept W9ART as a check-in to
The Great Liberty Net ? ? ? Some "gentleman".

Sir Sidney is dead ... long live Sir Sidney.

The Late Arky Bob said that.

such an antenna, but I have not checked on that.

No Record of Family Radio having any -non- AM &
FM Facility in Oakland & the SF East Bay 'proper'.

>
> Bruce
>
> I'm about 10 miles south of that spot.

There were a few Large Antenna south of Oakland along
the east-side of the Nimitz : All were/are Licensed Amateur
Radio [Ham] Operators : There were/are no C/C/S/F
Transmitters directly along the Nimitz and visable from
Nimitz from Oakland to San Jose
-afaik- from the 1960s ~ now

The Alameda County Facility was in the San Leandro
Hills and the old Nike Radar/Missile Base around
Cabot Road; after that is Mission Peak. ~ RHF
.

I know about each of these installations; I guess I got the impression
- perhaps wrongly - that Dave's big antenna was quite near the Nimitz
as opposed to far up in the hills (which would put them nearer the
MacArthur Freeway).

Right now, Wiedeman Hill, a few spots on Sunol Ridge and Mount Allison/
Monument Peak have large antenna installations, although none are
large log-periodic. Mostly public service and commercial TV/FM/
Microwave/cell repeaters.

My own neighborhood in San Lorenzo has quite a few large amateur
antennas, but none especially visible from any freeway.

Does not bother me. The fewer loud signals from doorstep transmitters I have clogging up my airwaves, the better to hear the faint DX. BBC is available from so many outlets now that I can forego them broadcasting at my house from Sackville or Greenville or some such place :-)

It could be a global geophysical company, oil explorations, etc. They use HF antennas as well. I'm almost 100% it's between the Berkeley marina and the NUMMI plant somewhere, directly East of the freeway. No National Guard Armory? Nuttin?

I have dashboard cam photos somewhere.

Solar flare eruptions set to reach Earth
By Paul Rincon Science reporter, BBC News

Scientists around the world will be watching closely as three eruptions from the Sun reach the Earth over Thursday and Friday.

These "coronal mass ejections" will slam into the Earth's magnetic shield.

The waves of charged solar particles are the result of three solar flares directed at Earth in recent days, including the most powerful since 2006.

The biggest flares can disrupt technology, including power grids, communications systems and satellites.

The northern lights (Aurora Borealis) may also be visible further south than is normally the case - including from northern parts of the UK.

"Our current view is that the effect of the solar flare is likely to reach Earth later today (Thursday GMT), possibly tomorrow morning," said Alan Thomson, head of geomagnetism at the British Geological Survey (BGS).

He told BBC News: "In the scientific community, there's a feeling that it's not as intense as we first thought it might be. But it's possible still that it could be a large enough event for us to see the northern lights in the UK."

However, weather forecasts suggested cloudy conditions could mar views of any aurorae.
Technological impact

The US National Oceanographic and Atmospheric Administration (Noaa) said that three coronal mass ejections (CMEs) were en route as the result of solar flares on the 13, 14 and 15 February (GMT).

"The last of the three seems to be the fastest and may catch both of the forerunners about mid-to-late day tomorrow, February 17," read a statement from Noaa's Space Weather Prediction Center.
Aurorae The northern lights could be seen further south than is normal

The flare recorded at 0156 GMT on 15 February was the strongest such event in four years, according to the US space agency (Nasa), which has been monitoring activity on the Sun. The event was classified as a so-called X-flare, the most intense type.

The source of all three events, sunspot 1158, has expanded rapidly in recent days.

Solar flares are caused by the sudden release of magnetic energy stored in the Sun's atmosphere.

Their effects can interfere with modern technology on Earth, such as electrical power grids, communications systems and satellites - including satellite navigation (or sat-nav) signals.

Although scientists are expecting most geomagnetic activity to occur on Thursday, Chinese state media has already reported some disruption to shortwave radio communications in the south of the country.
Awakening Sun

In 1972, a geomagnetic storm provoked by a solar flare knocked out long-distance telephone communication across the US state of Illinois. And in 1989, another storm plunged six million people into darkness across the Canadian province of Quebec.

Dr Thomson said it was possible infrastructure could be affected this time, but stressed: "The X-flare that was observed the other day was lower in magnitude than similar flares that have been associated with technological damage such as the loss of the Quebec power grid... and even the large magnetic storm in 2003, which caused some damage to satellites in orbit."

Scientists will have around half an hour's notice that the wave of charged particles is about to hit the Earth's magnetic shield.

This is taken from the point at which a Nasa satellite called Ace (the Advanced Composition Explorer) registers the solar radiation on its instruments: "We're sitting waiting for that event to happen," said Dr Thomson.

But but, but AT&T SUCKS! is the only SUCKING! outfit which sells the Motorola ATRIX.I saw it on that tee vee commercial.Maybe Verizon might wind up selling Motorola ATRIX too.Paul Gallo and JT (Super Talk Mississippi radio talk shows) push Comcast.A few months ago when my AT&T SUCKS! land line service quit, I drove over to my brother in law's house to use his phone to call AT&T SUCKS! to send somebody over here and fix my land line service.I asked my brother in law (he is a retired Air Force Colonel) if he has Comcast.He said, HELL NO!
cuhulin

Well, that ought to provide some interesting blackout-hotspot patterns
the next few days.

I have solutions manuals to all problems and exercises in these textbooks. To get one in an electronic format contact me at: kalvinmanual(at)gmail(dot)com and let me know its title, author and edition. Please this service is NOT free.

solutions manual to A Course in Game Theory by Osborne, Rubinstein
solutions manual to A Course in Modern Mathematical Physics by Peter Szekeres
solutions manual to A First Course in Abstract Algebra (7th Ed., John B. Fraleigh)
solutions manual to A First Course in Differential Equations - The Classic Fifth Edition By Zill, Dennis G
solutions manual to A First Course In Probability 7th Edition by Sheldon M. Ross
solutions manual to A First Course in Probability Theory, 6th edition, by S. Ross.
solutions manual to A First Course in String Theory, 2004, Barton Zwiebach
solutions manual to A First Course in the Finite Element Method, 4th Edition logan
solutions manual to A Practical Introduction to Data Structures and Algorithm Analysis 2Ed by Shaffer
solutions manual to A Quantum Approach to Condensed Matter Physics (Philip L. Taylor & Olle Heinonen)
solutions manual to A Short Course in General Relativity 2e by J. Foster and J. D. Nightingale
solutions manual to A Short Introduction to Quantum Information and Quantum Computation by Michel Le Bellac
solutions manual to Accounting Principles 8e by Kieso, Kimmel
solutions manual to Adaptive Control, 2nd. Ed., by Astrom, Wittenmark
solutions manual to Adaptive Filter Theory (4th Ed., Simon Haykin)
solutions manual to Advanced Accounting 10E international ED by Beams , Clement, Anthony, Lowensohn
solutions manual to Advanced Calculus Gerald B. Folland
solutions manual to Advanced Digital Design with the Verilog HDL by Michael D. Ciletti
solutions manual to Advanced Dynamics (Greenwood)
solutions manual to Advanced Engineering Electromagnetics by Constantine A. Balanis
solutions manual to Advanced Engineering Mathematics 3rd ed zill
solutions manual to Advanced Engineering Mathematics 8Ed Erwin Kreyszig
solutions manual to Advanced Engineering Mathematics by Erwin Kreyszig, 9th ed

solutions manual to Advanced Engineering Mathematics, 6th Edition by Peter V. O'Neil
solutions manual to Advanced Engineering Mathematics,2E, by Zill, Cullen
solutions manual to Advanced Financial Accounting by Baker
solutions manual to Advanced Industrial Economics, 2nd ED Stephen Martin
solutions manual to Advanced Macroeconomics, by David Romer
solutions manual to Advanced Modern Engineering Mathematics 3rd Ed Glyn James
solutions manual to Advanced Modern Engineering Mathematics, 3rd Ed., by G. James
solutions manual to Aircraft Structures for Engineering Students (4th Ed., T.H.G. Megson)
solutions manual to Algebra & Trigonometry and Precalculus, 3rd Ed By Beecher, Penna, Bittinger
solutions manual to Algebra Baldor
solutions manual to Algebra-By Thomas W. Hungerford
solutions manual to Algorithm Design (Jon Kleinberg & Ã‰va Tardos)
solutions manual to An Interactive Introduction to Mathematical Analysis 2nd E (Jonathan Lewin)
solutions manual to An Introduction to Database Systems (8th Ed., C.J. Date)
solutions manual to An Introduction to Modern Astrophysics (2nd Ed., Bradley W. Carroll & Dale A. Ostlie)
solutions manual to An Introduction to Numerical Analysis By Endre Süli,David F. Mayers
solutions manual to An Introduction to Ordinary Differential Equations (James C. Robinson)
solutions manual to An Introduction to Signals and Systems by John Stuller
solutions manual to An Introduction to the Finite Element Method (3rd Ed., J. N. Reddy)
solutions manual to An Introduction to Thermal Physics by Schroeder, Daniel V
solutions manual to An Introduction to Thermodynamics and Statistical Mechanics (2nd Ed, Keith Stowe)
solutions manual to Analog Integrated Circuit Design, by Johns, Martin
solutions manual to Analysis and Design of Analog Integrated Circuits (4th Edition) by Gray , Lewis , Meyer
solutions manual to Analytical Chemistry, Higson
solutions manual to Analytical Mechanics 7E by Grant R. Fowles, George L. Cassiday
solutions manual to Antenna Theory 2nd edition by Balanis
solutions manual to Antennas for All Applications (3rd Ed., John Kraus & Ronald Marhefka)
solutions manual to Applied Calculus for the Managerial, Life, and Social Sciences, 7 E, by Soo T. Tan
solutions manual to Applied Econometric Time Series, 2nd Edition by

Enders
solutions manual to Applied Finite Element Analysis 2ed, by LJ SEGERLIND
solutions manual to Applied Fluid Mechanics (6th Ed., Mott)
solutions manual to Applied Numerical Analysis, 7th Edition, by Gerald, Wheatley
solutions manual to Applied Numerical Methods with MATLAB for Engineers and Scientists(Steven C. Chapra)
solutions manual to Applied Partial Differential Equations (4th Ed., Haberman)
solutions manual to Applied Partial Differential Equations by J. David Logan
solutions manual to Applied Quantum Mechanics (A. F. J. Levi)
solutions manual to Applied Statistics and Probability for Engineers (2nd Ed., Douglas Montgomery & George Runger)
solutions manual to Applied Statistics and Probability for Engineers (3rd Ed., Douglas Montgomery & George Runger)
solutions manual to Applied Strength of Materials (4th Ed., Mott)
solutions manual to Applying Maths in the Chemical and Biomolecular Sciences, Beddard
solutions manual to Artificial Intelligence A Modern Approach 2e by Russell, Norvig
solutions manual to Auditing and Assurance Services- An Integrated Approach 12E by Arens
solutions manual to Auditing and Assurance Services, 12th edition, Alvin A Arens, Randal J Elder, Mark Beasley
solutions manual to Automatic Control Systems, 8E, by Kuo, Golnaraghi
solutions manual to Basic Electrical Engineering By Nagrath, D P Kothari
solutions manual to Basic Engineering Circuit Analysis, 8th Edition by J. David Irwin, R. Mark Nelms
solutions manual to Basic Heat and Mass Transfer by A. F. Mills
solutions manual to Basic Probability Theory by Robert B. Ash
solutions manual to Bioprocess Engineering Principles (Pauline M. Doran)
solutions manual to Business Statistics - Decision Making 7th E by David F. Groebner
solutions manual to C++ for Computer Science and Engineering by Vic Broquard
solutions manual to C++ How to Program 3rd edition - Deitel
solutions manual to Calculus - Early Transcendentals, 6th E, by Anton, Bivens, Davis
solutions manual to Calculus - Early Transcendentals, 7E, by Anton, Bivens, Davis
solutions manual to Calculus - Late Transcendentals Single Variable, 8th Ed by Anton, Bivens, Davis
solutions manual to Calculus (9th Ed., Dale Varberg, Edwin Purcell & Steve Rigdon)
solutions manual to Calculus 2nd edition-M. Spivak
solutions manual to Calculus A Complete Course 6th Edition by by R.A.

Adams
solutions manual to Calculus and its Applications (11th Ed., Larry J Goldstein, Schneider, Lay & Asmar)
solutions manual to Calculus by Gilbert Strang
solutions manual to Calculus early transcendentals 8th Ed, by Anton Bivens Davis
solutions manual to Calculus Early Transcendentals, 5th Edition, JAMES STEWART
solutions manual to Calculus George Thomas 10th ed Vol 1
solutions manual to Calculus of Variations MA 4311 LECTURE NOTES (Russak)
solutions manual to Calculus One & Several Variables 8e by S Salas
solutions manual to Calculus Vol 2 by Apostol
solutions manual to Calculus With Analytic Geometry 4th (Henry Edwards & David E. Penney)
solutions manual to Calculus with Applications 8 Edition by Lial, Greenwell, Ritchey
solutions manual to Calculus, 4th edition stewart
solutions manual to Calculus, An Applied Approach, 7E, by Larson
solutions manual to Calculus, Single and Multivariable, 4E.,Vol 1& Vol 2 by Hughes-Hallett,McCallum
solutions manual to Calculus, Single Variable, 3E by Hughes-Hallett,McCallum
solutions manual to Chemical and Engineering Thermodynamics 3Ed by Stanley I. Sandler
solutions manual to Chemical Engineering Design (Coulson & Richardson's Chemical Engineering - Volume 6) - (4th Ed., Sinnott)
solutions manual to Chemical Engineering Volume 1, 6th Edition, by Richardson, Coulson,Backhurst, Harker
solutions manual to Chip Design for Submicron VLSI CMOS Layout and Simulation, John P. Uyemura
solutions manual to Cisco Technical Solution Series IP Telephony Solution Guide Version 2.0
solutions manual to Classical Dynamics of Particles and Systems, 5th Ed, by Marion, Thornton
solutions manual to Classical Dynamics, A Contemporary Approach (Jorge V. Jose)
solutions manual to Classical Electrodynamics by John David Jackson
solutions manual to Classical Mechanics (Douglas Gregory)
solutions manual to Classical Mechanics 2nd Ed by Goldstein
solutions manual to CMOS Analog Circuit Design, 2ed by Phillip E. Allen, Douglas R. Holberg
solutions manual to CMOS- Circuit Design, Layout, and Simulation, Revised 2nd Ed by R. Jacob Baker
solutions manual to Cmos Digital Integrated Circuits , Sung-Mo Kang,Yusuf Leblebici
solutions manual to CMOS Mixed-Signal Circuit Design, 2nd Ed by R. Jacob Baker
solutions manual to Communication Networks, 2e, Alberto Leon-Garcia, Indra Widjaja

solutions manual to Communication Systems (4th Ed., Simon Haykin)
solutions manual to Communication Systems An Introduction to Signals and Noise in Electrical Communication, 4E, A. Bruce Carlson
solutions manual to Communication Systems Engineering (2nd Ed., John G. Proakis & Masoud Salehi)
solutions manual to Complex Variables with Applications, 3rd ED by David A. Wunsch
solutions manual to Computational Techniques for Fluid Dynamics Srinivas, K., Fletcher, C.A.J.
solutions manual to Computer Architecture - A Quantitative Approach, 4th Ed by Hennessy, Patterson
solutions manual to Computer Architecture Pipelined & Parallel Processor Design by Michael J Flynn
solutions manual to Computer Networking A Top-Down Approach Featuring the Internet, 3E Kurose,Ross
solutions manual to Computer Networking: A Top-Down Approach (4th Ed., James F. Kurose & Keith W. Ross)
solutions manual to Computer Networks A Systems Approach, 2nd Edition, Larry Peterson, Bruce Davie
solutions manual to Computer Networks, 4th Ed., by Andrew S. Tanenbaum
solutions manual to Computer Organization 3rd Edition by Carl Hamacher , Zvonoko Vranesic ,Safwat Zaky
solutions manual to Computer Organization and Architecture: Designing for Performance (7th Ed., William Stallings)
solutions manual to Computer Organization and Design The Hardware Software Interface, 3rd edition by David A Patterson and John L Hennessy
solutions manual to Computer system architecture 3rd Ed Morris Mano
solutions manual to Concepts and Applications of Finite Element Analysis (4th Ed., Cook, Malkus, Plesha & Witt)
solutions manual to Concepts of Modern Physics 6th ED by Arthur Beiser
solutions manual to Contemporary Engineering Economics (4th Ed., Chan Park)
solutions manual to Continuum Electromechanics by James R. Melcher
solutions manual to Control Systems Engineering, 4E, by Norman Nise
solutions manual to Control Systems Principles and Design 2e by M. Gopal
solutions manual to Convex Analysis and Optimization Dimitri P. Bertsekas
solutions manual to Corporate Finance The Core plus MyFinanceLab Student Access Kit (Jonathan Berk & Peter DeMarzo)
solutions manual to Corporate Finance, 7E, by Ross
solutions manual to Cost Accounting-A Managerial Emphasis 13th Ed by Charles Horngren
solutions manual to Cryptography and Network Security (4th Ed., William Stallings)
solutions manual to Data & Computer Communication, 7th Ed, by William Stallings
solutions manual to Data Communications and Networking by Behroz Forouzan

solutions manual to Data Structures with Java by John R. Hubbard, Anita Huray
solutions manual to Database Management Systems, 3rd Ed., by Ramakrishnan, Gehrke
solutions manual to Database System Concepts 5th ED by Silberschatz, Korth, Sudarshan
solutions manual to Design Analysis in Rock Mechanics by William G. Pariseau
solutions manual to Design and Analysis of Experiments, 6E, by Montgomery
solutions manual to Design of Analog CMOS Integrated Circuits by Razavi
solutions manual to Design of Analog CMOS Integrated Circuits, 2 Edition, by Razavi Douglas C. Montgomery
solutions manual to Design of Fluid Thermal Systems, 2nd Edition janna
solutions manual to Design of Machinery (3rd Ed., Norton)
solutions manual to Design of Reinforced Concrete, 8th Ed by McCormac, Brown
solutions manual to Design with Operational Amplifiers and Analog Integrated Circuits (3rd Ed., Sergio Franco)
solutions manual to Device Electronics for Integrated Circuits 3rd Edition by muller kamins
solutions manual to Differential Equations and Linear Algebra (2nd Ed., Jerry Farlow, Hall, McDill & West)
solutions manual to Differential Equations and Linear Algebra (C. Henry Edwards & David E. Penney)
solutions manual to Differential Equations and Linear Algebra 3e by Stephen W Goode
solutions manual to Differential Equations with Boundary Value Problems (2e, John Polking, Al Boggess & Arnold)
solutions manual to Digital Communications Fundamentals and Applications 2e Bernard Sklar
solutions manual to Digital Communications, 4E, by Proakis
solutions manual to Digital Design (4th Ed., M. Morris Mano & Michael D. Ciletti)
solutions manual to Digital Design: Principles and Practices Package (4th Ed., John F. Wakerly)
solutions manual to Digital Fundamentals (9th Ed., Thomas L. Floyd)
solutions manual to Digital Image Processing, 2e, by Gonzalez, Woods
solutions manual to Digital Integrated Circuits, 2nd Ed., by Rabaey
solutions manual to Digital Logic Design by Mano
solutions manual to Digital Signal Processing - A Modern Introduction, by Ashok Ambardar
solutions manual to Digital Signal Processing Principles, Algorithms and Applications, 3rd Edition by John G. Proakis
solutions manual to Digital Signal Processing a computer based approach (2nd Ed.) (Mitra)
solutions manual to Digital Signal Processing a computer based approach (Mitra)
solutions manual to Digital Signal Processing by Proakis & Manolakis

solutions manual to Digital Signal Processing by Thomas J. Cavicchi
solutions manual to Digital Systems - Principles and Applications (10th Ed., Ronald Tocci, Neal Widmer, Greg Moss)
solutions manual to Discrete and Combinatorial Mathematics 5e by Ralph P. Grimaldi
solutions manual to Discrete Mathematics (6th Ed., Richard Johnsonbaugh)
solutions manual to Discrete Mathematics (6th Edition) by Richard Johnsonbaugh
solutions manual to Discrete Random Signals and Statistical Signal Processing Charles W. Therrien
solutions manual to Discrete Time Signal Processing, 2nd Edition, Oppenheim
solutions manual to DSP First A Multimedia Approach-Mclellan, Schafer & Yoder
solutions manual to Dynamic Modeling and Control of Engineering Systems 2 E T. Kulakowski , F. Gardner, Shearer
solutions manual to Dynamics of Flight- Stability and Control, 3rd Ed by Etkin, Reid
solutions manual to Dynamics of Mechanical Systems by C. T. F. Ross
solutions manual to Econometric Analysis, 5E, by Greene
solutions manual to Econometric Analysis, 6E, by Greene
solutions manual to Econometrics of Financial Markets, by Adamek, Cambell, Lo, MacKinlay, Viceira
solutions manual to Econometrics: A Modern Introduction (Michael P. Murray)
solutions manual to Electric Circuits (7th Ed., James W Nilsson & Susan Riedel)
solutions manual to Electric Circuits (8th Ed., James W Nilsson & Susan Riedel)
solutions manual to Electric Machinery 6th ed. A.E. Fitzgerald,Kingsley,Umans
solutions manual to Electric Machinery and Power System Fundamentals (Chapman)
solutions manual to Electric Machinery Fundamentals (4th Ed., Chapman)
solutions manual to Electric Machines Analysis and Design Applying MATLAB,Jim Cathey
solutions manual to Electric Machines By D. P. Kothari, I. J. Nagrath
solutions manual to Electrical Engineering Principles and Applications (3rd Ed., Allan R. Hambley)
solutions manual to Electrical Engineering Principles and Applications (4th Ed., Allan R. Hambley)
solutions manual to Electrical Machines, Drives and Power Systems (6th Ed., Theodore Wildi)
solutions manual to Electromagnetic Fields and Energy by Haus, Melcher
solutions manual to Electromagnetics Problem Solver (Problem Solvers) By The Staff of REA
solutions manual to Electromagnetism. Principles and Applications by LORRAIN, PAUL ; CORSON, DAVID
solutions manual to Electromechanical Dynamics Part 1, 2, 3 by Herbert

H. Woodson, James R. Melcher
solutions manual to Electronic Circuit Analysis, 2nd Ed., by Donald Neamen
solutions manual to Electronic Devices 6th ed and electronic devices Electron Flow Version 4th ed, Floyd
solutions manual to Electronic Devices and Circuit Theory 8th Ed by Robert Boylestad
solutions manual to Electronic Physics Strabman
solutions manual to Electronics, 2nd Ed., by Allan R. Hambley
solutions manual to Elementary Differential Equations (Werner E. Kohler, Johnson)
solutions manual to Elementary Differential Equations and Boundary Value Problems (8th Ed., Boyce & Diprima)
solutions manual to Elementary Linear Algebra 5th edition by Stanley I. Grossman
solutions manual to Elementary Linear Algebra by Matthews
solutions manual to Elementary Linear Algebra with Applications (9th Ed., Howard Anton & Chris Rorres)
solutions manual to Elementary mechanics & thermodynamics jhon w.Nobury
solutions manual to ELEMENTARY NUMBER THEORY AND ITS APPLICATIONS, (5TH EDITION, Bart Goddard, Kenneth H. Rosen)
solutions manual to Elementary Principles of Chemical Processes (3rd Ed., Felder & Rousseau)
solutions manual to Elementary Statistics Using The Graphing Calculator 9 Ed by MILTON LOYER
solutions manual to Elementary Statistics Using the Graphing Calculator For the TI-83-84 Plus (Mario F. Triola)
solutions manual to Elements of Information Theory - M. Cover, Joy A. Thomas
solutions manual to Elements of Chemical Reaction Engineering by Fogler hubbard, hamman , johnson , 3rd edition
solutions manual to Elements of Deductive Inference by Bessie, Glennan
solutions manual to Elements of Electromagnetics , 2 ed by Matthew N. O. Sadiku
solutions manual to Elements of Electromagnetics , 3ed by Matthew N. O. Sadiku
solutions manual to Embedded Microcomputer Systems Real Time Interfacing, 2nd Edition , Jonathan W. Valvano
solutions manual to Engineering and Chemical Thermodynamics (Koretsky)
solutions manual to ENGINEERING BIOMECHANICS (STATICS) by Angela Matos, Eladio Pereira, Juan Uribe and Elisandra Valentin
solutions manual to Engineering Circuit Analysis 6Ed, Luay Shaban
solutions manual to Engineering Circuit Analysis 6th ed by Hayt
solutions manual to Engineering Circuit Analysis 7th Ed. by William H. Hayt Jr
solutions manual to Engineering Electromagnetics 6E by William H. Hayt Jr. and John A. Buck
solutions manual to Engineering Electromagnetics 7E by William H. Hayt Jr. and John A. Buck

solutions manual to Engineering Fluid Mechanics - 8th Ed by Crowe, Elger & Roberson
solutions manual to Engineering Fluid Mechanics 7th Ed by Crowe and Donald
solutions manual to Engineering Materials Science, by Milton Ohring
solutions manual to Engineering Mathematics (4th Ed., John Bird)
solutions manual to Engineering Mechanics - Dynamics by Boresi, Schmidt
solutions manual to Engineering Mechanics - Dynamics, 5th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics - Dynamics, 6th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics - Statics (10th Edition) by Russell C. Hibbeler
solutions manual to Engineering Mechanics - Statics (11th Edition) by Russell C. Hibbeler
solutions manual to Engineering Mechanics - Statics by Boresi, Schmidt
solutions manual to Engineering Mechanics - Statics, 4th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics - Statics, 6th Ed (J. L. Meriam, L. G. Kraige)
solutions manual to Engineering Mechanics : Dynamics (11th Ed., Hibbeler)
solutions manual to Engineering Mechanics Dynamic (10th Edition) hibbeler
solutions manual to Engineering Mechanics Dynamics (12th Ed., Hibbeler)
solutions manual to Engineering Mechanics Dynamics, Bedford & Fowler, 5th Edition
solutions manual to Engineering Mechanics Dynamics, by R. C. Hibbeler, 3rd
solutions manual to Engineering Mechanics Statics (12th Ed., Hibbeler)
solutions manual to Engineering Mechanics Statics, Bedford & Fowler, 5th Edition
solutions manual to Engineering Statistics (4th Ed., Douglas Montgomery, George Runger & Norma Faris Hubele)
solutions manual to Essentials of Soil Mechanics and Foundations: Basic Geotechnics (7th Ed., David F. McCarthy)
solutions manual to Feedback Control of Dynamic Systems (4th Ed., Franklin, Powell & Emami-Naeini)
solutions manual to Feedback Control of Dynamic Systems (5th Ed., Franklin, Powell & Emami-Naeini)
solutions manual to Field and Wave Electromagnetics 2nd Ed by David K. Cheng
solutions manual to Financial Accounting 6th Ed by Harrison
solutions manual to Financial Management- Theory and Practice 12 th ED by Brigham, Ehrhardt
solutions manual to Finite Element Techniques in Structural Mechanics Ross
solutions manual to First Course in Probability (7th Ed., Sheldon

Ross)
solutions manual to Fluid Mechanics (5th Ed., White)
solutions manual to Fluid Mechanics and Thermodynamics of Turbomachinery (5th Ed., S.L. Dixon)
solutions manual to Fluid Mechanics by CENGEL
solutions manual to Fluid Mechanics Egon Krause
solutions manual to Fluid Mechanics Fundamentals and Applications by Çengel & Cimbala
solutions manual to Fluid Mechanics with Engineering Applications, 10th Edition, by Finnemore
solutions manual to Foundations of Colloid Science 2e , Hunter
solutions manual to Foundations of Electromagnetic Theory by John R. Reitz, Frederick J. Milford
solutions manual to Fourier and Laplace Transform - Antwoorden
solutions manual to Fractal Geometry Mathematical Foundations and Applications, 2nd Ed Kenneth Falcone
solutions manual to fracture mechanics ; fundamentals and applications, 2E, by T.L. Anderson
solutions manual to From Polymers to Plastics By A.K. van der Vegt
solutions manual to Fundamentals of Aerodynamics (3 Ed., Anderson)
solutions manual to Fundamentals of Aerodynamics (2 Ed., Anderson)
solutions manual to Fundamentals of Applied Electromagnetics (5th Ed., Fawwaz T. Ulaby)
solutions manual to Fundamentals of Chemical Reaction Engineering by Davis
solutions manual to Fundamentals of Complex Analysis (3rd Ed., E. Saff & Arthur Snider)
solutions manual to Fundamentals of Computer Organization and Architecture by Abd-El-Barr, El-Rewini
solutions manual to Fundamentals of Corporate Finance 8th edition by Ross
solutions manual to Fundamentals of Corporate Finance 9th edition by Ross
solutions manual to Fundamentals of Corporate Finance, 4th Edition (Brealey, Myers, Marcus)
solutions manual to Fundamentals of Differential Equations 7E Kent Nagle, B. Saff, Snider
solutions manual to Fundamentals of Digital Logic with VHDL Design (1st Ed., Stephen Brown Vranesic)
solutions manual to Fundamentals of Electric Circuits (2nd.ed.) by C.K.Alexander M.N.O.Sadiku
solutions manual to Fundamentals of Electric Circuits (4E., Charles Alexander & Matthew Sadiku)
solutions manual to Fundamentals of Electromagnetics with Engineering Applications (Stuart Wentworth)
solutions manual to Fundamentals of Electronic Circuit Design , Comer
solutions manual to FUNDAMENTALS OF ENGINEERING ELECTROMAGNETICS, by DAVID CHENG
solutions manual to Fundamentals of Engineering Thermodynamics, 6th Ed (Michael J. Moran, Howard N. Shapiro)

solutions manual to Fundamentals of Engineering Thermodynamics, 7th Ed (Michael J. Moran, Howard N. Shapiro)
solutions manual to Fundamentals of Financial Management 12th edition James C. Van Horne, Wachowicz
solutions manual to Fundamentals of Fluid Mechanics, 4E (Bruce R. Munson, Donald F. Young, Theodore H.)
solutions manual to Fundamentals of Heat and Mass Transfer - 5th Edition F.P. Incropera D.P. DeWitt
solutions manual to Fundamentals of Heat and Mass Transfer (4th Ed., Incropera, DeWitt)
solutions manual to Fundamentals of Heat and Mass Transfer (6th Ed., Incropera, DeWitt)
solutions manual to Fundamentals of Logic Design, 5th Ed., by Charles Roth
solutions manual to Fundamentals of Machine Component Design (3rd Ed., Juvinall)
solutions manual to Fundamentals of Manufacturing 2nd Edition by Philip D. Rufe
solutions manual to Fundamentals of Materials Science and Engineering- An Integrated Approach, 3rd Ed by Callister
solutions manual to Fundamentals of Modern Manufacturing: Materials, Processes, and Systems (2nd Ed., Mikell P. Groover)
solutions manual to Fundamentals of Organic Chemistry, 5E, by T. W. Graham Solomons
solutions manual to Fundamentals of Physics (7th Ed., David Halliday, Robert Resnick & Jearl Walker)
solutions manual to Fundamentals of Physics, 8th Edition Halliday, Resnick, Walker
solutions manual to Fundamentals of Probability, with Stochastic Processes (3rd Ed., Saeed Ghahramani)
solutions manual to Fundamentals of Quantum Mechanics (C.L. Tang)
solutions manual to Fundamentals of Semiconductor Devices, 1st Edition by Anderson
solutions manual to Fundamentals of Signals and Systems Using the Web and Matlab (3rd Ed., Kamen & Bonnie S Heck)
solutions manual to Fundamentals of Solid-State Electronics by Chih-Tang Sah

My old buddy came over here a few mornings ago, Monday morning, it was.He asked me if I want to go to Philadelphia (not Philadelphia, Penns Woods, Philadelphia,Missy Sippy) with him next Monday.Some kind of an old Railroad (he and a buddy of his who lives four miles South [[South is always Best]] of him are Railroad nuts) thingy he is going to buy from somebody in Philadelphia.Philadelphia is wayyyyyyyyy up North of doggy's couch

I told him I would like to go, but that would be about seven or eight hours and I am scared somebody might break into my house and my dog might get out.

Just before I got on the internet that morning, my phone was ringing, it was ringing for a Lonnnnnnng time, I had forgoten to unplug my phone the last time I used it.He said he tried to get me on my phone before he came over here.I don't go anywhere anymore except to the food store and the Animal Health Products store for Pro Pac dog food.

I get a U-Verse ad almost every day. I have measured service for my DSL
to piggyback on cause they don't do dry drops. That is all the business
I plan to do with those people.

Maybe you should have a secret ring, like ring once, hang up, call back
in exactly 30 seconds, something like that.

Each area of the Carribean has developed it's own dialect of English .
None of them are classified as pidgin,absolutely not . And BBC-WS
always had a strong presence on AM and FM locally until recently, not
exactly sure what is happening at the present time .

Right at that frreezing mark and overcast! rain coming to mix the snow with
rain = slush. YUK!!

My 'GymyBobism' collection...updated daily:
==
some '#' bracketed text added for clarification
all cut and paste, NO modifications of ANY kind
100 % Pure GymyBob. Accept no substitutes!

We need less morons like another clone of Moron II here.
My fifteen minutes of FAME!

Your car alternator will charge your car batery up to 15.4 volts in
cold weather.

NTSC redefined it slightly off 60Hz so that power supply ripple
will move on the screen (two slightly black bands that scroll
up/down your screen

You sure spent a lot of time trying to convince me you don't knwo what
I am talking about...LOL

Voltage does not indicate state of charge well.

At 11.6 volts a 12v battery is about 50-70% charged still.

Polish solar panels are what americans called "flashlights"

There should be subsidies for solar panels but control of prices to boot.

Propane will disapate and freeze when it evaporates.

Gasoline is not nearly as volatile as hydrogen.

When I use pot I imagine everythging is perfect.

Many people have browsers that economize the download

Just another threading error creating confusion

Learn how to thread or sit back and watch for a few years.

Try to stay on topic and on thread too bean brain.

Perhaps try Outlook Express or another browser that knows how to
thread posts.

Bottom posting was the was in the 70s and 80s before threading
browsers were available cheap like OE

Another Forte Agent person that doesn't understand threading.

You use Mozzilla and haven't learned to thread.

Try Outlook Express so you can understand threading maybe.

I have been noticing many threading errors everywhere on Usenet lately.

People with OE don't seem to have the petty problems with subject lines changing, intermingled posts and downloading binary files with mixed posts, random pieces and many other problems all the nonOE people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged 13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation first so there is, at least, some stake, like friendship for the person listening. When the friendship is well developed then attack. Not too obvious at first or you will lose your audience. This will enhance your troll points.

I think outside opinions are worth much more than sales hype from the company that made the product.
Referring to *factory* charging specifications for the batteries they make

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way back to the transformer neutral.

A thought I have is rain water from a roof on a three story home through a micro-turbine.

Setback thermostats only work efficiently for small differentials, dependant on the time duration.

Breakers are good for one time usage of one fault and then they need to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully charged. The nicads will be cooked because you keep them on charge, just in case you need them but when you remember them six months later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the diode in 1941 but I am not familiar with the solar panel usage requirements of them. (no P & N substrate explanations please. I wrote the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of power for 100 nanoseconds?
100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a 100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.

If you want to discuss this then fine, otherwise go fuck yourself like your mother did.

Can you let go of my dick before it explodes on ya, goofball?

Petroleum is not related to Natural gas.

I would rather work at my $100/hour job than at chopping wood for hours to save $3/hour

I have no license, I wire and inspect other's wiring for a job and work for a medium size electrical utility.

As a design engineer of transformers for 10 years I happen to know you are full of shit.

I am a Protection & Control Tech by profession and have experience
with control systems

Try spelling "bus" correctly! Maybe your brain will start again.
Probaby not, you fucking loser.
Referring to the correctly spelled word 'buss' as used in real
electrical terminology ##
http://tinyurl.com/5ctml

X10 signals are transmitted just after the voltage waveform zero
crossing. This is in order to avoid conflicts with SCR and Triac peak
waveform switching spikes from load type devices such as lamp dimmers.
control module misinformation

Besides when they on any line they will pull of the meter as a
disconnect point.
speaking of power line guys miles away removing YOUR electrical
meter for THEIR safety ##

My workplace has been throwing out huge digitizing pallettes (like 24
x 36" units)
in alt.sewing.mach-embroider

The majority prefers top posting.

Not one of your suggesters listened to what the OP requested...LOL

Get your tear ducts flushed by a knowledgeable optometrist.

Not many materials have the huge exponential resistance/heat curve
aluminum does. Overload doesn't make it glow like copper...it flashes
and explodes.

A bathroom fan motor would never push hot air down ten feet or cold up
ten feet.

Bathroom fans have a hard time pushing 55 cfm through a 3-4" pipe 20
horizontal feet. They are made to vent smells and humid air horizontally
only.

Why not spend the money on a contract with the grid company and get an
exclusive line to your house and never have brownouts.

Usenet rules dictate top posting for readability

Many cell modems are set up to filter bottom posts out.

Cell modems do not cut off anything.

What security flaws.
##referring to Outlook Express##

10 pounds per gallon Imperial. That gallon is totally unique to the
US....ooops..I think all gallons are unique to the US now.

The standard Imperial gallon the whole world used weighs 10 pounds
exactly.

The copper isn't worth more than 5 cents per pound. It is classed a mixed copper and nobody wants it.

Hey moron! The copper is considered "mixed" copper and is worth about $0.02 per pound, if he seperates it all.

Just don't ever lose weight. Toxins are stored in your fat cells.

Did you know, **NO***, I repeat ***NO*** death has ever been related to PCBs?

Insulated square copper wires from a dry transformer are not 99% copper and take a lot of work to remove the insulation.

I have tonnes of insulated copper wire if you want it. I think you could almost have for the picking it up. How many bins can you take per year

50 lbs? We have it by the bin full. Mostly #6 to 650 MCM. I beleive you would have to leave a bin and then pick it up full later to compete with the current scrapper.

Can't this tranformer be used by somebody to generate a second 120V from a single phase 120V inverter? It sounds pretty beefy.

BTW: once you knock the wedge out of the coil form the laminations will be easier to get out. This keeps them from buzzing until the varnish and other impregnations go into it.

All you guys have a bad Christmas or Jewish and didn't see Santa or something?

Run each signal twisted with a ground for noise. RD twisted with gnd as a pair, TD twisted around ground as a pair etc... This means signal/logic ground not power ground or case ground, if they are different. Do not
connect the other ends of the ground conductors.

Tar pitch in a flourescent ballast does ***NOT*** contain PCBs and probably never did.

Religion is not genetic or even herodigious

I believe the warmest part of the lake is just below the ice. As the water frezes it rises to the top and joins the other ice formations.

Gel cell won't cut it when it comes to putting out 100A or more. They cook in one spot and the rest of the electrolyte doesn't circulate fast enough.

There is nothing standard about USanian measurements. They changed their sizes to avoid trading with the rest of the world. This worked for a few centuries but the rest of the world moved on to the metric system to avert the confusion the US caused.

Ever put your ohmmeter (do I need to explain an ohmmeter also?) across a capacitor? It measures infinity after charging to the supply voltage because the electrolyte is an insulator.

Electrolytes are not conductors of electricity in a capacitor.

If the electrolyte conducted it would be a resistor.

I doubt they are 4 farads. More likely 4 microfarads uf.
referring to 4000mfd caps

Sometimes it is an ego boost to have these so-called "professionals" come and beg for information because they can't our toys do what the good guys can but I would never hire them given a choice.

Do you measure altitude in degrees? Many aeronautical people would disagree with you.
referring to solar azimuth/altitude thread

My house is filled with motion detectors. They don't all operate lights. They mostly signal my house control computer and it decides what to do and when.

Enlighten please (like it really matters...LOL)

I will hand stitch my embroidery before I would pay that kind of money...LOL

A 50Hz transformer needs double the iron a 60Hz transformer needs for the same VA capacity.

Does it test CTs with real current or just voltage?

It doesn't really matter where the secondary current comes from, secondary exciting or primary current exciting, the voltage developed or excited across it will be about the same.
talking about an OPEN circuit CT transformer

High voltage spikes want to keep going at the end and this is where your saturating core transformer core is located behind the fuse.

Moving a kill-a-watt unit around is like using it on somebody else's house and telling the person's load.

oooops. A flourescent with a filament?
not knowing how most fluorescents start up

You are a stupid basterd.

Ever considered anxiety medication? Chest pains for a man is a classic symptom.

When confronted with many websites stating the otherwise he won't address the issue but repeats his crap again like a child stamping his feet.
Oh, the Irony!

What are you doing up at this ungawdly hour? I just got finished embroidering about 10 items, including a flight bag for golf clubs.
in alt.sewing.mach-embroider

I just love women with front loading bobbins.
in alt.sewing.mach-embroider

I doubt a 6 needle machine would be faster than a 1 needle machine unless you do repetitive patterns.
in alt.sewing.mach-embroider

I had many problems with this and damaged my machine a few times. It was the needles. Find ones that have very little "hip" bump around the eye of the needle.
in alt.sewing.mach-embroider

I have found doctors absolutely ignorant and totally obstinet on these kind of issues.

I put my first child on Ritalin for a year or so when quite young. It beat going to prison for beating him black and blue.

I made a big mistake and should have "drugged" all of my children the same.

I did the chem.cut medication stuff for a few years with my first child and then found Naturopathic Doctors using homeopathy to get more lasting relief.

Homeopathics saved me thousands of dollars for operations I did not have on my children

Accupunture worked for my 1 and two year old children for ailments after the medical doctors could do nothing for.

Placebo is a completely natural cure for many ailments.

Polio Vaccine? They stopped giving that one long before HIV was invented.

You have no idea what you are talking about and either does anybody else here.

See if you can replace it with a thermal acting unit. They have a rachet on a shaft that holds thew contacts closed.
confusing motor overload with breaker

What are you doing in my group?

Milk is just plain poison for humans.

I am not a chemist but I know that cow's milk calcium molecules are a huge irritant to human digestion and usually results in calcium deficiencies

See an accupunturist for the pain and circulation
See a chiropractor to keep the structure good.
See a naturopathic doctor for the chemical imbalance.

See a medical doctor for a some poison that will make her life shorter.

Even an honest Doctor will take yoy they arte totally ignorant of
nutrition.

The medical doctors will play the time game and probably just let him
die after removing half his organs because they may be a problem.

Some things mankind should just not eat too much of and it isn't meat
typically and this may not be consistent for all people.

Do not listen to the stories of addiction. Yes, they are tough to stop
but so is insulin for a diabetic. I have stopped taking mine and it
wasn't that bad but after months of regressing I chose to return like
the other half the population.

Make sure your wrists are well warmed up before putting sudden jerky
movements to them.

Make up your mind before you mouth off like the usual Internet piece
of shit. This is a rough group and if you had followed the usual
recommendations you would have known that and have nothing to say
about it.
in misc.kids.health, alt.support.breast-implant,

Ya think? The only reason I ever listened was for the content (there are
rarer catches than 500,000 KW Radio Moscow.) Now that the content is
available by other means, I don't have to tie up a $2,000 radio to
listen to the news.

Product: Geophysical Alert Message wwv.txt
Issued: 2011 Feb 17 1805 UTC
Prepared by the US Dept. of Commerce, NOAA, Space Weather Prediction
Center
#
Geophysical Alert Message
#
Solar-terrestrial indices for 16 February follow.
Solar flux 114 and mid-latitude A-index 2.
The mid-latitude K-index at 1800 UTC on 17 February was 1 (9 nT).

No space weather storms were observed for the past 24 hours.

Space weather for the next 24 hours is expected to be minor.
Geomagnetic storms reaching the G1 level are expected.
Radio blackouts reaching the R1 level are expected.

This does not look like a perceptive prediction to me. Are they
missing something, or am I?

Apple is a different kind of Unix, Free BSD family

Android is a proprietary rewrite of Linux, also a descendant of Unix
(developed by your University of California and your Phone Company). The
B in FreeBSD stands for Berkeley.

I first heard about the Chilean earthquake last year on Vatican Radio,
from the Vatican.

It was Apple that created WebTV, Thank You, Apple.

Looka here,
http://www.devilfinder.com/find.php?q=The+Top+5+Reasons+to+Buy+a+Tablet+cios.com

Yeah, in fact of the business,,, I have been seeing those Tablet (Touch Tablets) commercials on some of those tee vee shopping channels, such as QVC and HSN and ShopNBC.I am thinking I want to try out a Tablet before I get around to buying a Motorola ATRIX.

I don't tote, but once in a while I might tote it with me when I go to the Goodwill store so I can impress them wimmins over there.Yeah, in fact of the business,,, I am thinking tomorrow or Saturday or Sunday or whenever I decide, I might check out some of the stores near doggy's couch for a Tablet.I am thinking maybe a Velocity Micro Cruz Touch Tablet if any of the Best Buy stores or other stores around here has something like that for sale.Are those Tablets suppose to work right out of the box? after making sure the battery is charged up, of course.
cuhulin, the Tablet

One cannot predict such events with any precision ... Look what
happened in Haiti last year . And that place was seismically quiet for
250 years !

Around here, (Seattle), the FAA is fond of big log periodics. (I think
it's back up for the air traffic control system). There used to be one
at Fort Lawton/Discovery Park joint military/ATC radar, and there was
another east on the ridge above Boeing Field.

latimes.com
Solar flare radiation expected to hit starting today
The largest solar flare in four years erupted Monday. Its radiation is expected to reach Earth today and Friday and perhaps interfere with communication systems, power grids and navigation satellites. It might also enhance the northern lights.

By Thomas H. Maugh II, Los Angeles Times

10:01 AM PST, February 17, 2011

Radiation from the largest solar flare in four years is expected to reach the Earth Thursday and Friday, potentially interfering with communication and navigation satellites and disrupting ground-based communication networks and power grids.

The rain of charged particles from the so-called coronal mass ejections, or CMEs, should also enhance the northern lights, also known as the Aurora Borealis, making them both more prominent and visible farther south, perhaps even into the northern tier of the United States, experts said.

The solar flare, which erupted Monday, occurs when magnetic field lines on the sun's surface in effect get short-circuited, releasing large amounts of energy into space. Three such events occurred Monday, the largest of them a so-called class X event ï¿½ the most powerful form of solar flare. Astronomers have been expecting the sun to ramp up its activity after several years of quiescence during its normal 11-year cycle of activity. Maximum solar activity is expected in 2013.

Eight minutes after the bursts, X-rays traveling at the speed of light struck the Earth. But the charged particles released during the eruptions take longer to travel the 93 million miles separating the two bodies and are not expected to begin arriving until sometime midday Thursday.

Some may have already gotten here, however, as China has reported disruptions of radio communications in the southern part of the country.

The disruptions are not expected to be as severe as some past events. In 1972, a solar flare shut down telephone lines in the state of Illinois and another flare in 1989 knocked out power for 6 million people in the Canadian province of Quebec.

Researchers and industries will have about a 30-minute warning that the CMEs are going to strike from a NASA satellite called the Advanced

Composition Explorer, which monitors the solar radiation.

Geophysical Activity Forecast: The geomagnetic field is
expected to be predominately quiet on day one (February 17). An
increase to unsettled to active conditions, with a chance for minor
storm periods is expected late on day one into day two (18
February). The increased activity is forecast due to the expected
arrival of the CME associated with the X2 flare that occurred on
15/0156Z. Day three (19 February) is expected to be quiet to active
as the disturbance subsides.

No. Haiti is on a very active fault that has huge earthquakes a lot.

"Despite recent seismic quiescence, Haiti has suffered similar
devastating earthquakes in the historical past (1701, 1751, 1770 and
1860). Despite this knowledge of historical seismicity, Haiti had no
seismograph stations during the main earthquake, so it is impossible to
estimate accurately the intensity of ground motions. Nonetheless, the
wide range of buildings damaged by the January 12, 2010, earthquake
suggests that the ground motions contained seismic energy over a wide
range of frequencies. Another earthquake of similar magnitude could
strike at any time on the eastern end of the Enriquillo Fault, directly
to the south of Port-au-Prince. Reconstruction must take this hazard
into account."

People with OE don't seem to have the petty problems with subject
lines changing, intermingled posts and downloading binary files with
mixed posts, random pieces and many other problems all the nonOE
people have.

Bottom posting has been obsoletely by threading browsers.

Forwarding does not include headers.

Call your damn ISP and tell them your browser is multiple posting.

90% of the people in America have never operated a computer.

Let's say youre solar cell was trying to put out
14.3 volts DC and you stuck a 10 ohm meter in series with a charged
13.8 volt DC battery.

Your troll was too obvious. Try to engage the mark in conversation
first so there is, at least, some stake, like friendship for the
person listening. When the friendship is well developed then attack.
Not too obvious at first or you will lose your audience. This will
enhance your troll points.

I think outside opinions are worth much more than sales hype from the company that made the product.
Referring to *factory* charging specifications for the batteries they make

This is power grid induction through capacitive proximity

You can get fooled with another ground in the house finding it's way back to the transformer neutral.

A thought I have is rain water from a roof on a three story home through a micro-turbine.

Setback thermostats only work efficiently for small differentials, dependant on the time duration.

Breakers are good for one time usage of one fault and then they need to be replaced for any warrantied usage.

If the breaker interupts a fault, it should be replaced.No warranty will honoured after that.

I don't have a link at this time

There are no hydrogen molecules in water and the oxygen in water isn't flammable either.

Water is inert and contains no energy to be used. Get some basic chemistry first.

Quite simply put, for some of the boneheads here.

NiCads and NiMh batterries are designed to take a current charge forever.

Oh yeah, I can charge a battery and use it six months later fully charged. The nicads will be cooked because you keep them on charge, just in case you need them but when you remember them six months later they are cooked and won't last 5 minutes in the camera.

It takes a complete idiot to deny they can short out all by themselves. Three, loose in a bag can short themselves out.
referring to AA batteries doing the physically impossible

Did they have electricity back in 1994?

I have been around so long with this stuff I believe I invented the diode in 1941 but I am not familiar with the solar panel usage requirements of them. (no P & N substrate explanations please. I wrote the GE manual...LOL)

NOTE: do not pass ground wires through metal holes or cable clamps with two screws on a metal surface.

There is **NOT*** enough energy in a lightning bolt to power your house for more than an hour...if that. Do the math.
The figures escape me but let's say it puts out a roughly MWatt of power for 100 nanoseconds?

100 x 10-9 x 1 x 106 / 3600 (sec/hr) = 0.0027 wH
oooops.... Wouldn't light your home for a 1/2 second.
OK..OK.. multiply the figures time 100 or 1000. Now it would light a 100W bulb for 1 second.

The IEEE-232 standards were never followed or known by many.

Fossil fuels are still renewable and being cxreated as we speak.

Children are venerially created.
